e had just passed the gas. station south of Saugerties). It was between 9.05 and 9.10 p. uddenly from the east came something with a len light, moving very rapidly. The light can ith a regular rhythm— I would estimate at all econd. It took only 4 lights to get across the to the west. The light was about as large green traffic light. I know that I was not to me who saw it, because almost immediately aftered out of my vision, searchlights from some lace in the west began to rake the skies. t night, August 3, th on the New York state ate Thruwey in an of south of ex ate _ as large as 1 9.10 a came efter it 8 p.m.

September 8th, 1958

Dearth E

Thank you for your letter of 4 August 1958 in which you reported the sighting of an aerial phenomenon. A check of our records does not show any other reports from that area for the time mentioned. We are, however, recording your report for use in our continuing study of aerial phenomena, and we appreciate your interest in the matter.

Sincerely yours,

DWIGHT R. DINSMORE
