List inclosures, including number of copies) The attached UFO report was given to this unit by Mr [REDACTED] of [REDACTED], Minnesota. The sighting being reported took place on 5 October 1959 while Mr [REDACTED] and his family were returning from a trip to Nebraska. Also included in the information given us by Mr [REDACTED] is a report of a sighting he made in May 1959 in the state of Nebraska. The information was reported to us on 12 October 1959, one week after the sighting. For this reason and for reasons stated in item F of the report, no detailed investigation was made. The narrative attached as inclosure two was prepared by Mr [REDACTED] to submit to a newspaper.

e. Location of Observer: One and One-half miles east of Garretson, S.D.

f. Identifying Information on Observer:

(1)

[REDACTED] Minnesota

Musician, Music Instructor, Music Store Operator

Estimate of Reliability: Unreliable - Police Chief in town of [REDACTED] and publicity seeker. Observer also wanted for passing bad checks in counties surrounding former residence of [REDACTED], Nebraska. Police report in addition that he is guilty of victimizing music students by taking down-payments for music lessons and then failing to give the instructions. Individual has just recently opened a small music store in [REDACTED], Minnesota and conversation with reputable citizens of that community lend credence to the fact that he is believed to have fabricated this entire matter to bring attention on himself and his latest venture in dealing with the public.

out above the fields
about 1000 feet above ground
gliding pretty along was
a what? Well your
guess is good as mine but
I'll try. It was a mass
of light with a tube light
like structure around the
ends.

By this time I had
my wife stop the car
and I crawled gently under
the wheel knowing this was
a mans job. Our excitement
had awakened our children
and for 7 miles I followed
the flying vehicle of light
My main desire
was to try to catch up
with it side by side.

Our littlest daughter
was crying Daddy please
dont get near it

My wife was saying
you know were low on
gas and I had my

+

I think we should be told.

At 20 min to 4 o'clock Monday morning my family of 4 children and wife were in our car. The car was moving. My wife was driving, and our location was about $1\frac{1}{2}$ mi east of Garretson So Dak - I was seated next to my wife and to all concerned half asleep.

We were out at this hour because of a hasty decision and trip to see my mother in Nebr. We were on our way home -

My wife's voice brought me out of my half wake half sleep conditioned - ~~that~~! what's that light there - I answered "just a farm light - ~~that~~" my nick name for my wife - She spoke sharply ~~that~~! look at it - it's moving. It did not take me long to come to? for there

It was about the size
of the side of a garage
but cast no reflecting light
and had me scared the
proverbial stiff.

I had made up my
mind to drive right under it
but lost courage at about
70 ft from it.

I then stopped my
car and stepped out with
a prayer on my heart
for help from the good
Lord - momentarily a
tube like structure shot
up from the top of the
mass of light and a
streak of blue green went
down the tubes length
following this a tube
like structure shot
down from the bottom and
followed the course of
the first tube however
they did not meet
in the middle.

hands full with a very dangerous road to drive to careless on.

I was glad this was happening for which gladness I will explain later. My boy said daddy its just like Saturn or a planet with a ring around it - I said honey speaking to my wife - do you realize what I were following do you see now dear - my statements were made at this moment to her for a reason because 6 months ago in the state of Nebraska I was coming down a lonely road one site when I ran smack into one hanging above the road about 20 ft from the ground - It was a mass body of light - suspended or hovering above the ground and pulsating like the function of the heart -

5

I think we should be told!

at that moment the thing disappeared leaving me quite bewildered and very all at heart. I drove up to the spot in the road got out of my car and gazed above me & nothing but nothing could I see. For days the incident left me - sick at heart - I could not explain it and my wife felt I perhaps should not report it - For fear public reaction would not be satisfactory. However I know that what ever the eye and mind see - ~~clears~~ an implant not what we imagine - I knew I had seen what I had seen.

Now here we were 6 months later and almost the same event was taking place but this time I was not alone 4 little kids were with me and an adult - they too were -

seeing a apparition of
light — after following
it for around 7 miles I
stopped my car and got out
we all watched it then
soar higher changing almost
to a cigar shape and
just like that it was gone
we headed back to the
highway and north toward
Jasper — My wife spoke
then it is again and
sure enough high in the
clouds was a light I
parked the car and we
watched it come out and
go back into the cloud
again — this ended
our experience and
we returned home —

My statement as
we should be told /
my children are 14
12 - 7 - and 3½ years
of age they are
in a free

I think we should be told

country - they were scared
at what they seen - 6 mo
ago I was terrified -

I believe our Government
owes us an explanation -
as a Father of 4 fine kids
I ask for one - I believe
what I seen was electrical
motivation in movement upon
light waves - a motivation that
needed close generating energy
from the earth - call me
cracked or what have you
but what is this in
our nuclear age or haven't we
a right to know?

of it. It must have
been about 400 to
500 feet up but
at first it was
right close to the
earth. It moved
at a rate of speed
around 20 to 30 miles
per hour and more
after we stopped. What
it was like is something
almost indescribable.
At first it was round
than and we kept
following it. It seemed
to go into cone shapes.
Maybe these cone
come every night to
visit our earth or
maybe these are

Monday and we were
on the highway when
my mother spotted
a light cloud in the
ground with the weather
but did not see it. We
then tried to follow it.
We followed it for
five miles when
we thought we
would turn out of
gas. As we stopped
the object disappeared right
before our eyes. Before
it disappeared I looked
at it and here is a
description of it: It is
a round structure with
a red ring like the
planet Saturn has
around the outside

swarmed platforms
floating in air.

This object which
we saw seemed to
get its power or
energy from the
earth's surface. When
it was close to the
earth it was brighter
than it was when
it got to about 400
feet above the earth.

As it disappeared we
started to go back to
the highway which
as I said before
was about 5 miles
back of us. When
we got to the highway
which led to Jasper
Island, and ~~the~~ Menn,

my mother and I then
noticed an unusually
lighted up cloud. At
first we paid no
attention to the
brilliantly lighted
up cloud. But soon
my mother and I saw
the unidentified object
we had seen before
increase from the
brilliantly lighted
up cloud. As soon
as we told my
father immediately
turned our heads
round and stopped
our motion fifty
feet back. Then
my dad quickly
pointed out to the

be being watched by
code programmed plate
forms in the sky.
For each and everyone
of us we might
have a secret but
the greatest secret
one could have is these
flying saucers. Maybe
Russia has something
to do with this
for one each day
something like this
happens Russia has
built up Rockets but
on this last one
Russia sent up a
rocket to the moon.
Is this the answer? Well,
the people of America
need our government

car and looking in
all directions but
we were too late
for it had returned
to the brilliantly light-
ed cloud. In about
2 to 5 minutes later
it appeared again
only coming closer
to us than the
first time. So
we quickly found
a turn into a
field of plowed earth
where we watched for
not more than a
minute and then
it disappeared. Could
it be that somewhere
or someplace and
this earth we could

to look for the
answer. What is
it?
