ATIC FORM 329 (REV 26 SEP 52)

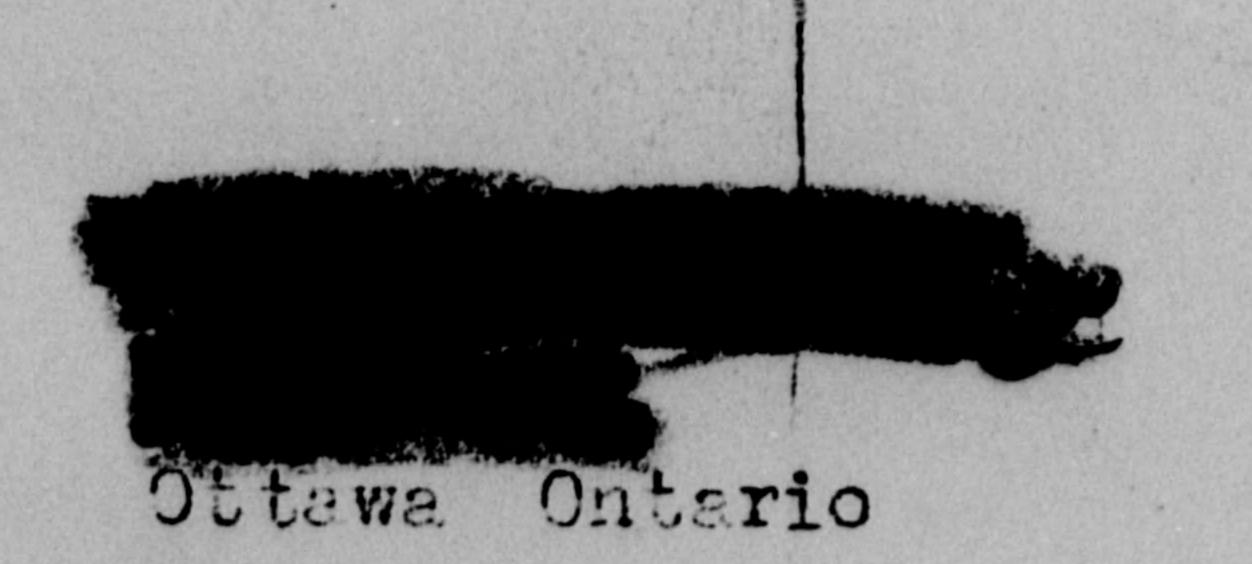

On Monday May 9, at approx. 2.15 A.M. while driving along the Ottawa River (East bound) I observed the following:

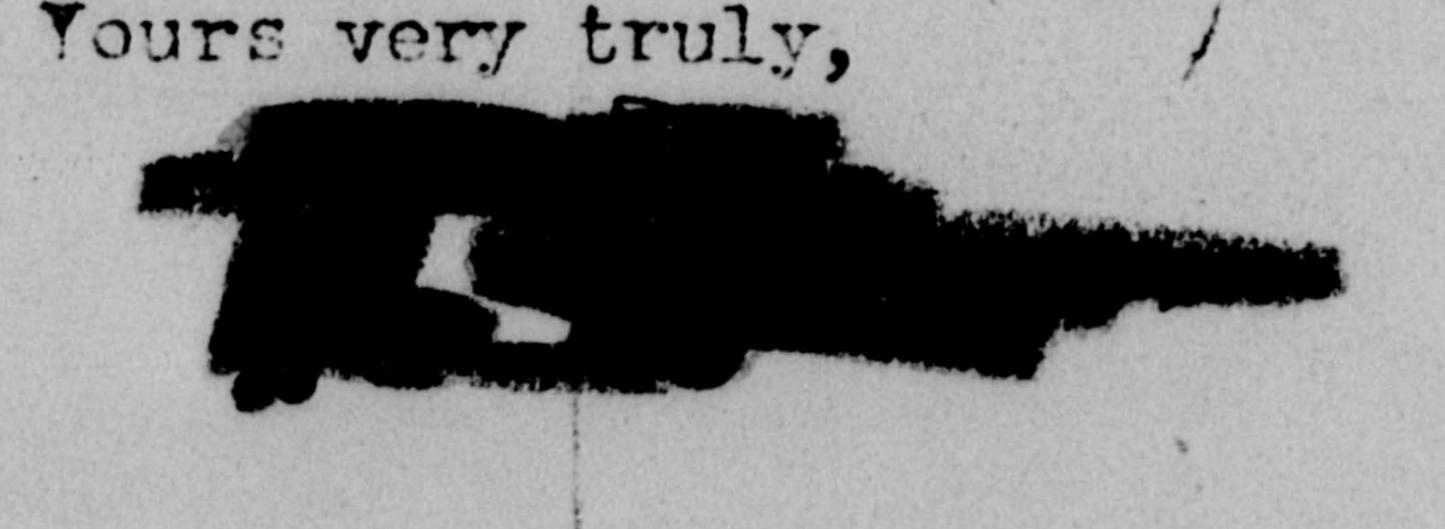

A light in the sky (Which I first thought to be an aircraft landing light) was approaching from the east towards Rockliffe airport. My attention was first drawn to the light when it suddenly made a short spurt sideways then continued on then repeating this movement. I stopped the car and myself along with a member of the air force who was a passenger in my car got out and stood on the street to watch it. When this object came closer it passed behind a cloud and when it did the light made a halo around the object. There was no sound at all and we stood there watching it until it disapeared out of sight. The light from the object was brighter than a star and the most remarkable thing about the object was the way it would dart dideways as it continued its course. The following morning I asked the control tower if any aircraft had been in the air at that time and I was told that there was not. I further checked with our local airlines and they also said that no flights had been in the vicinity. I spoke to one of our officers and he advised me to contact your office. I am employed by the National Defence Pept. R.C.A.F. Rockliffe (Dept of Construction and Engineering) and I am cuite familiar with aircraft and there movements and I am, sure that the object in question was not an aircraft.

Maving read considerable news reports about strange objects in the sky I have always been rather sceptical about such reports. If any explanation can be given for this sighting I would appreciate hearing from you at your convenience.

I am including a rough drawing of just what course the object took and the appearance which may be of interest to you.

May I thank you in advance for any information you can give me in regards to this object.

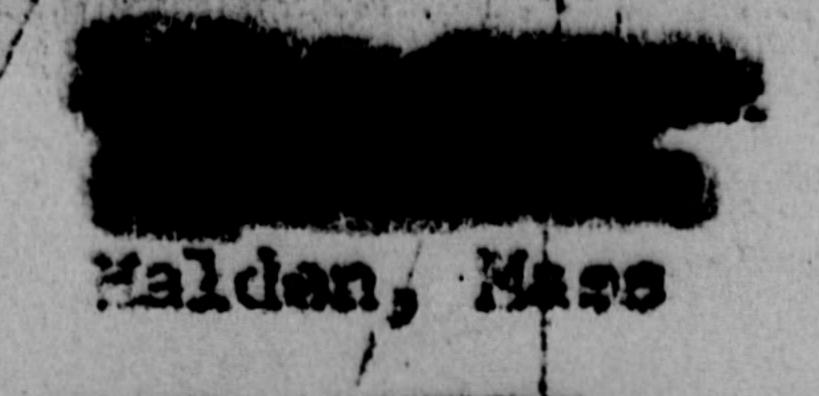

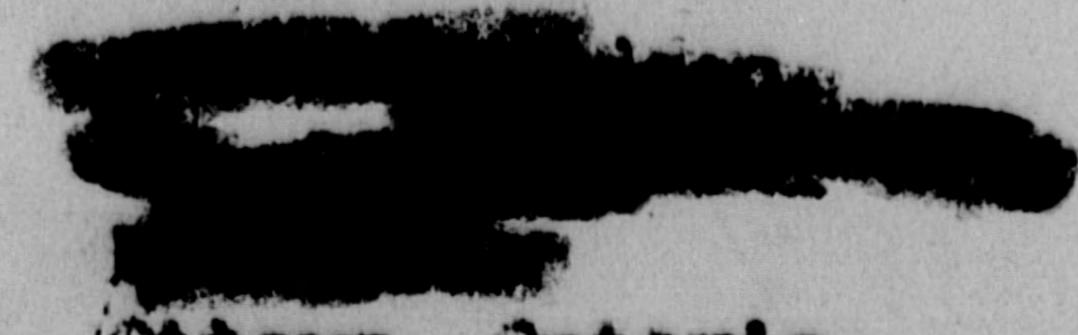

UFO Sightings

& June 60

SAFUL-3d (Maj Tacker)

Suggest standard UFO questionnaire be forwarded to the following:

Ottawa, Ontario

Copies of letters from these individuals are attached.

FOR THE COMMANDER:

PHILLP O. EVANS Colonel, USAF Deputy for Sciences and Components

Monday

Dear

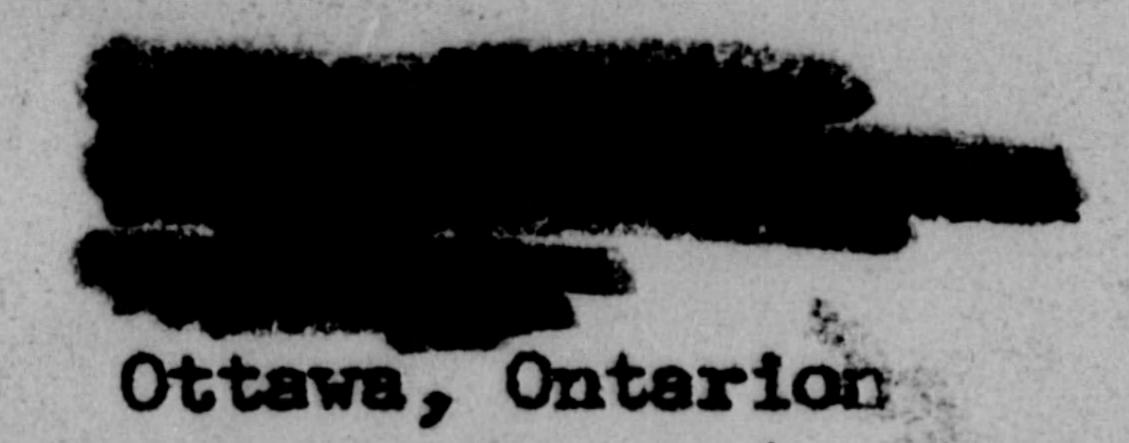

This is to acknowledge your recent letter regarding the sighting of an unidentified flying object.

Your letter contains insufficient information for a valid conclusion. Therefore, request you complete the attached Air Force Questionnaires in regard to the sighting and forward the completed paper to the Aerospace Technical Intelligence Center, Wright-Patterson Air Force Base, Ohio.

Sincerely,

Inclosure

LAWRENCE J. TACKER
