7. LENGTH OF OBSERVATION	3. NUMBER OF OBJECTS	9. COURSE		Insufficient Data for Evaluation
1 1/2 min	one	E	0	Unknown
10. BRIEF SUMMARY OF SIGHTING		11. COMMENTS		
		The sighting was made in Aug 60, but ATIC did not receive report until Feb 61. The report contains insufficient data for a valid conclusion, and the time lapse between the sighting and receipt of the report is too long for an investigation to be initiated. Therefore, this report is evaluated as insufficient data.		

ATIC FORM 329 (REV 26 SEP 52)

AIR MAIL

ontario, Camada

Thank you for your letter describing your observation of the flight of an illuminated object on the night of August 25, 1960. As you may know, a number of similar observations have been reported for which there is no particularly satisfactory explanation. This agency has neither the assignment nor the facilities to investigate such occurrences. We have, therefore, forwarded your letter to the Department of the Air Force which has the primary responsibility for investigating this type of phenomena.

Very truly yours

James A. Hootman, Secretary Inventions and Contributions Board
