## PROJECT 10073 RECORD CARD

9 Feb 61 3. DATE-TIME GROUP Local 2100 GMT 092000Z  5. PHOTOS	4. TYPE OF OBSERVATION  Ground-Visual  Air-Visual  6. SOURCE	N Ground-Rodar  Air-Intercept Rodar	12. CONCLUSIONS	
7. LENGTH OF OBSERVATION	8. NUMBER OF OBJECTS		Other Unknown	
30 Min.  10. BRIEF SUMMARY OF SIGHTING Yellow, circular objt size of half dollar at arms length. Observed 20° angle to horizon, 225° az. Disappeared 7° angel to horizon, 270° as. Appeared to rotate. Faded to W.		distance traveled by objt is suggestive of an astronomical body. Planet Venus was found to have been in position reported. Strange appearance was probably due to it being close to horizon where witness was looking through much more of earth's atmosphere when observing it.
