| 10. BRIEF SUMMARY OF SIGHTING Round lights brighter than brightest star. They seemed to turn reddish then light, then out. No sound heard. Edges were fuzzy or blurred. Traveled N-S, then W, then N again; one followed other all the way. First one disappeared midway, then reappeared. Second did same at about same point. Speed about same as 4 engine plane.                                                                                                                                                                                              |  |                                                                                                                                                                                                       |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |  |
| 11. COMMENTS This young witness claims to see these UFO's every clear night. This is second rept made by him in about 2 weeks, both sightings made under same circumstances. Objts are reported to have moved N-S, then turned W, then N again. It is possible that witness meant objt was moving S-N instead of N-S. Objts were reported to be 2 miles apart, one following other. How he was able to determine distance between them is unknown, probably by speculation. A valid conclusion cannot be made as to the nature of the objt fm the info reported. |  |                                                                                                                                                                                                       |  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |  |

# U.S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

3 Day MAY Month 1961 Year

2. Time of day: 1000 Hour Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern  
b. Central  
c. Mountain  
d. Pacific  
e. Other

(Circle One): a. Daylight Saving  
b. Standard

4. Where were you when you saw the object?

Nearest Postal Address

SILVER GROVE  
City or Town

KENTUCKY  
State or Country

Additional remarks:

5. How long was object in sight?

Hours

10 Minutes

Seconds

5.1 How was time in sight determined?

a. Certain  
b. Fairly certain

c. Not very sure  
d. Just a guess

6. What was the condition of the sky?

DAY

a. Bright  
b. Cloudy

NIGHT

a. Bright  
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you  
b. In back of you  
c. To your right

d. To your left  
e. Overhead  
f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- ☒ c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- ☒ c. No moonlight — pitch dark
- d. Don't remember

9. The object appeared:

(Circle One):

- Round*
- ☒ a. As a light
  - ☒ b. Shiny
  - c. Dark
  - d. Don't remember

10. If it appeared as a light, was it brighter than the brightest stars?

*yes*

11. Did the object:

(Circle One for each question)

- |                                                 |                                      |                                     |            |
|-------------------------------------------------|--------------------------------------|-------------------------------------|------------|
| a. Appear to stand still at any time?           | <input checked="" type="radio"/> Yes | No                                  | Don't Know |
| b. Suddenly speed up and rush away at any time? | <input checked="" type="radio"/> Yes | No                                  | Don't Know |
| c. Break up into parts or explode?              | Yes                                  | <input checked="" type="radio"/> No | Don't Know |
| d. Give off smoke?                              | Yes                                  | <input checked="" type="radio"/> No | Don't Know |
| e. Change brightness?                           | <input checked="" type="radio"/> Yes | No                                  | Don't Know |
| f. Change shape?                                | <input checked="" type="radio"/> Yes | No                                  | Don't Know |
| g. Flash or flicker?                            | <input checked="" type="radio"/> Yes | No                                  | Don't Know |
| h. Disappear and reappear?                      | <input checked="" type="radio"/> Yes | No                                  | Don't Know |

12. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't Know.

IF you answered YES, then tell what

it moved behind: \_\_\_\_\_

13. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

☒ No

Don't Know.

IF you answered YES, then tell what

in front of: \_\_\_\_\_

14. Did the object appear: (Circle One):

☒ a. Solid

b. Transparent

c. Vapor

d. Don't Know

15. Did you observe the object through any of the following?

- |                 |     |    |                           |                                      |    |
|-----------------|-----|----|---------------------------|--------------------------------------|----|
| a. Eyeglasses   | Yes | No | e. Binoculars             | Yes                                  | No |
| b. Sun glasses  | Yes | No | f. Telescope <i>35 mm</i> | <input checked="" type="radio"/> Yes | No |
| c. Windshield   | Yes | No | g. Theodolite             | Yes                                  | No |
| d. Window glass | Yes | No | h. Other _____            |                                      |    |

16. Tell in a few words the following things about the object.

a. Sound no

b. Color Seemed to turn reddish then light then out

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

18. The edges of the object were:

- (Circle One):
- ☒ a. Fuzzy or blurred
  - ☐ b. Like a bright star
  - ☐ c. Sharply outlined
  - ☐ d. Don't remember

e. Other \_\_\_\_\_

19. IF there was MORE THAN ONE object, then how many were there? 2

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

From N to S then turn W, then N again  
One followed other all the way

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

21. How large did the object appear to you as compared to an object with which you are familiar? *Like a bright light on a bill board or large star.*

22. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

23. Did the object disappear while you were watching it? If so, how? *1<sup>st</sup> One disappeared midway. Then reappeared. 2<sup>nd</sup> did same at about same point.*

24. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

*Like brightest star & then have it move*

25. Where were you located when you saw the object?  
(Circle One):

- a. Inside a building
- b. In a car
- ☒ c. Outdoors
- d. In an airplane (type)
- e. At sea
- f. Other \_\_\_\_\_

26. Were you (Circle One)

- a. In the business section of a city?
- b. In the residential section of a city?
- ☒ c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other \_\_\_\_\_

27. What were you doing at the time you saw the object, and how did you happen to notice it?

*Was looking for it. Had seen it before. Started to see them 6-7 yrs ago. Saw them every decent night except about 3. One night 2nd ship left 1st and went SE and they didn't see 2nd for a couple of weeks. Continued to see one of them.*

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

- |              |              |              |              |
|--------------|--------------|--------------|--------------|
| a. North     | c. East      | e. South     | g. West      |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

28.2 How fast were you moving? \_\_\_\_\_ miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One)      Yes      No

29. What direction were you looking when you first saw the object? (Circle One)

- |              |              |              |                                               |
|--------------|--------------|--------------|-----------------------------------------------|
| a. North     | c. East      | e. South     | g. West                                       |
| b. Northeast | d. Southeast | f. Southwest | <input checked="" type="radio"/> h. Northwest |
|              |              |              | i. Overhead                                   |

30. What direction were you looking when you last saw the object? (Circle One)

- |              |              |              |                                               |
|--------------|--------------|--------------|-----------------------------------------------|
| a. North     | c. East      | e. South     | g. West                                       |
| b. Northeast | d. Southeast | f. Southwest | <input checked="" type="radio"/> h. Northwest |
|              |              |              | i. Overhead                                   |

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North (thru east) and also the number of degrees it was upward from the horizon (elevation).

31.1 When it first appeared:

- a. From true North \_\_\_\_\_ degrees.
- b. From horizon 45 degrees.

31.2 When it disappeared:

- a. From true North \_\_\_\_\_ degrees.
- b. From horizon 45 degrees.

39. Do you think you can estimate the speed of the object?

(Circle One)

Yes

No

IF you answered YES, then what speed would you estimate?

About speed of 4 engine plane

40. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

No

IF you answered YES, then how far away would you say it was?

2 1/2 miles or less

41. Please give the following information about yourself:

NAME

[REDACTED]  
Last Name

[REDACTED]  
First Name

[REDACTED]  
Middle Name

ADDRESS

[REDACTED]  
Street

SILVER GROVE  
City

[REDACTED]  
Zone

KY  
State

TELEPHONE NUMBER

[REDACTED]

Age

13 1/2

Sex

M

Indicate any additional information about yourself, including any education, which might be pertinent.

42. Date you completed this questionnaire:

3  
Day

May  
Month

1961  
Year

34. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One)

- ☒ a. Clear sky  
 b. Hazy  
 c. Scattered clouds  
 d. Thick or heavy clouds

WEATHER (Circle One)

- ☒ a. Dry  
 b. Fog, mist, or light rain  
 c. Moderate or heavy rain  
 d. Snow  
 e. Don't remember

35. When and to whom did you report that you had seen the object?

Day

Month

Year

36. Was anyone else with you at the time you saw the object?

(Circle One) ☒ Yes ☐ No

36.1 IF you answered YES, did they see the object too?

(Circle One) ☒ Yes ☐ No

36.2 Please list their names and addresses:

~~REDACTED~~ LAKEVIEW TRAILER COURT  
 " " "  
 FORT THOMAS, KY  
~~REDACTED~~ SILVER GROVE, KY

37. Was this the first time that you had seen an object or objects like this?

(Circle One) Yes ☒ No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

Follow similar path most times a week ago went from  
N to S and out of sight tonight they went  
back to N again

38. In your opinion what do you think the object was and what might have caused it?

Don't know

U.S. AIR FORCE TECHNICAL INFORMATION SHEET  
(SUMMARY DATA)

In order that your information may be filed and coded as accurately as possible, please use the following space to write out a short description of the event that you observed. You may repeat information that you have already given in the questionnaire, and add any further comments, statements, or sketches that you believe are important. Try to present the details of the observation in the order in which they occurred. Additional pages of the same size paper may be attached if they are needed.
