10. BRIEF SUMMARY OF SIGHTING Slightly elliptical. Size of grapefruit. Color similar to star. Seemed to be traveling in an oblique formation. Seemed that satellite Echo was being observed. 1st objt seemed to be coming on an az of 250°. After it broke away fm Echo Echo, it headed on a 215° az. 1st objt disappeared on a 25° heading; 2nd objt on a 150° heading. Both faded out.				11. COMMENTS Angular velocity of high flying jet a/c and of Echo are aprox same. It is quite possible that a passing a/c was sighted and due to excitement mis-identified or identified with Echo. Past reports fm witness in this case indicate that he becomes very excited when subjct is UFO's. It is concluded that objt of sighting was probably a high-flying a/c.

Report on Unidentified Flying Object (UFO)

1. Description of the Object:

- a. Shape - slightly elliptical
- b. Size - grapefruit
- c. Color - similar to a star
- d. Number - 2
- e. Formation - 2
- f. Tail or Trail - none, but the two objects seemed to be traveling in an oblique formation.
- g. Unusual Features - It seemed that the satellite Echo was being observed.

2. Description of Course of Objects:

a. When I first noticed the two UFO's at 1945 hours, 9 May 1961, at Capehart Housing, Tyndall AFB, Florida, azimuth 250° , the two objects seemed to be traveling in an oblique formation. I watched for a while to make sure they were not aircraft. I called T/Sgt Joseph T. Terlesky (Capehart) and asked him to observe the UFO traveling over the Gulf. In the meantime, I called Mr. [REDACTED], Panama City, Florida to see if he had seen Echo or the other object. He said he had seen Echo about the same time I did and he expected it to pass again at 2045 hours. I then called Captain Allan E. Aaronson about the Echo and the UFO. After Echo and the other UFO had disappeared I checked with TSgt Terlesky to find out what he saw. He noticed the UFO breaking away from Echo but he did not observe Echo because I only requested him to watch the UFO over the Gulf. Captain Aaronson and Mr. [REDACTED] only saw Echo. I saw Echo twice and the other UFO.

b. Angle or elevation and azimuth of the two objects: See attached sketch. Object A seemed to be coming on an azimuth of 250° . Object B seemed to be coming on an azimuth of 250° , after it broke away from Echo and it headed on a 215° azimuth.

c. Angle and azimuth of object seemed to disappear on an approximate heading of - Object A (Echo) 25° ; Object B 150° .

2624.1

d. Description of flight path and maneuvers of objects: The objects traveled as follows: Object A - southwest to northeast; Object B - southwest to southeast.

e. Manner in which objects disappeared: Faded out.

f. Length of time objects were visible: Object A, 20 minutes; Object B, I observed it for ten minutes and Sergeant Terlesky for five minutes.

3. Method used in observation:

a. Ground - visual

b. Optical Aid - none

c. Aircraft used - N/A

4. Time and date of sighting:

a. Object A - 1945 hours, 9 May 61

b. Object B - 1945 hours, 9 May 61

c. Light conditions - night.

5. Location of observer - Capehart Housing, Tyndall AFB, Fla.

6. Identifying information on observer:

a. Civilian - Object A, Mr. ~~N. H. [REDACTED]~~ Panama City, Fla.

b. Military - Object A, Captain Allan E. Aaronson. Object A and B, M/Sgt Henry J. Lacour. Object B, T/Sgt Joseph P. Terlesky.

7. Weather and wind: Fair and clear.

8. Additional remarks:

a. Echo was observed on the following dates: 2125 hours, 3 May 61; 1845 hours 4 May 61; 2145 hours 4 May 61; 2010 hours 5 May 61; 2210 hours 5 May 61; 1940 hours 6 May 61; 2140 hours 6 May 61; 2340 hours 6 May 61; 1945 hours 9 May 61 and 2100 hours 9 May 61.

b. Inclosed is a list of UFO's seen from September 1960 through 9 May 1961.

2200 9 May 1961	260	2215	35	Echo

On or about, 1945-9 May 61, I was expecting Echo to pass over Tyndall. As I look toward the Southwest, I notice a twin type object, moving simultaneously. I observed it a few minutes and called T/Sgt Joseph P. Terlesky to watch it. In the mean time, I called Mr. ~~████████████████████~~ 427 Magorahue, Panama City, Fla to see if he saw Echo and he did. I also called Captain Allene Aaronson and he also saw Echo after Echo had passed. I check with T/Sgt Joseph P. Terlesky what he saw. He notice the object; but being away in front of Echo - but did not see Echo, as he was observing the other object.

On or about 2000 hrs - 9 May 61 - Echo was due to pass again and it did. I did not bother anyone, as it was their bed time.

Analysis and Conclusions: THE ANGULAR VELOCITY OF HIGH FLYING JET AIRCRAFT AND OF ECHO ARE APPROXIMATELY THE SAME. IT IS QUITE POSSIBLE THAT A PASSING AIRCRAFT WAS SIGHTED AND DUE TO EXCITEMENT MISIDENTIFIED OR IDENTIFIED WITH ECHO. PAST REPORTS FROM THE WITNESS IN THIS CASE INDICATES THAT HE BECOMES VERY EXCITED WHEN THE SUBJECT IS UFO'S. IT IS CONCLUDED THAT THE OBJECT OF THIS SIGHTING WAS PROBABLY A HIGH FLYING AIRCRAFT.
