Dear Mr. [REDACTED]

Your recent card to the National Aeronautics and Space Administration has been referred to the Air Force.

Although your description of the sighting you witnessed sounds very much like a fireball (astronomical) more information will be required before a definite determination can be made. In view of this, I am enclosing three questionnaires. The additional forms are for other witnesses of this sighting whom you might know. You may return the completed questionnaires in the enclosed pre-addressed envelopes which require no postage.

Your interest in this matter is appreciated.

Sincerely,

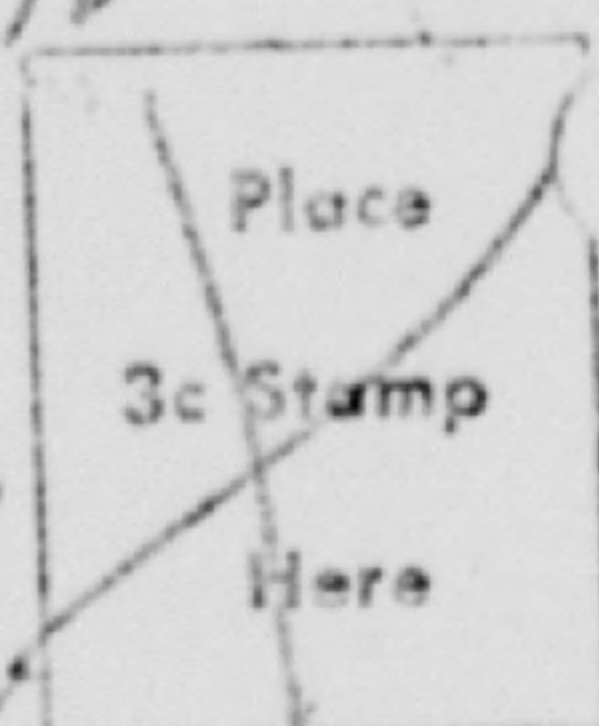

WILLIAM T. COLEMAN, JR.

AT EXACTLY 5 O'CLOCK IN THE MORNING ON
 JUNE 29, 1961, I OBSERVED WHAT APPEARED
 TO BE A OBLONG BALL OF FIRE IN THE SKY. AT
 FIRST I THOUGHT IT MIGHT BE A JET VAPOR
 TRAIL. BUT ALL VAPOR TRAILS I HAVE SEEN
 BEFORE WERE PROMINENT FOR SOME TIME. THIS TRAIL
 DISAPPEARED QUICKLY, AS A BALL OF FIRE MOVING
 RAPIDLY. I WAS ON MICHIGAN ROUTE #223 A FEW MILES
 N.W. OF ROMECENTER, MICH. THE OBJECT WAS JUST
 WEST OF WHERE THE SUN ROSE A FEW MINUTES LATER, ABOUT
 30° ABOVE THE HORIZON + SEEMED TO^{BE} TRAVELING WSW
 (ERRADICALLY) ABOUT THE SPEED OF ECHO.
