PROJECT 10073 RECORD CARD

1. DATE: 27 Jul 61	2. LOCATION: Oakland, Calif.	12. CONCLUSIONS ☐ Was Balloon ☐ Probably Balloon ☐ Possibly Balloon ☐ Was Aircraft ☐ Probably Aircraft ☐ Possibly Aircraft ☐ Was Astronomical ☐ Probably Astronomical ☐ Possibly Astronomical ☐ Other ☒ Insufficient Data for Evaluation ☐ Unknown
3. DATE-TIME GROUP Local 813 PM PDT GMT 28/0537Z	4. TYPE OF OBSERVATION ☒ Ground-Visual ☐ Ground-Radar ☐ Air-Visual ☐ Air-Intercept Radar	
5. PHOTOS ☐ Yes ☐ No	6. SOURCE: Civilian	
7. LENGTH OF OBSERVATION	8. NUMBER OF OBJECTS: 1	9. COURSE: N

10. BRIEF SUMMARY OF SIGHTING: Bright silver objt observed overhead on S to N course. Speed estimated 200 MPH, altitude 7-10,000' wings not visible. Shaped like L with short leg up and to front. No exhaust or contrail and no sound size about passanger plane.

11. COMMENTS: Only 2 statements of sighting in objt addresses not included for follow up No duration of sighting or distance objt travelled. Sounds like possible a/c sighting However, evidence not conclusive. Case listed as insufficient data.

ATIC FORM 329 (REV 26 SEP 52)

C O P Y

7-27-61

At approximately 8:13 PM PDT, I observed a bright, silvery object overhead on a south to north course. It appeared to be flying about 200 mph at an altitude between 7-10,000 ft. As it passed overhead it did not appear to have any wings. It was "L" shaped with the short leg of the "L" pointing straight up and moving in a direction so that the short leg was on the front of the craft.

Its apparent size was approximately that of an index finger nail on an extended arm. There was no sign of any exhaust gasses or moisture trails and there was no noticeable sound.

July 27, 1961

Approx. 8:15 PM my husband and I observed an unusual object flying above us. It appeared to be about the same size as the passenger planes who go over preparatory to landing at S. F. or Oakland but must have been much larger and at a proportionately higher altitude as it seemed to be of an irregular shape but too far up for me to distinguish just what shape. The most unusual feature was its lack of noise. It traveled from south to north above us.
