Police report small a/c. with  
flashing advertising lights flying over  
Dayton & vicinity.

Major J. Hankins  
Duty officer

May 28, 1962

Post Commander  
Wright Patterson Air Force Base  
Dayton, Ohio.

Dear Sir:

This letter is in reference to  
a U. F. O.

My name is [REDACTED]  
and I am 38 years old. All of  
my senses are in perfect order and  
I consider myself a responsible  
person.

On the evening of May 25, 1962  
at 9:35 P.M. I saw an object  
at a distance of about one to  
one and a half city blocks away.

My position was north of the  
object and I was on a hill.

The object was rising vertically  
at a rate of about four or  
five feet per second with a  
slight easterly drift. I saw  
this object when it was about  
100 ft off of the ground and it  
slowly went into a mist or fog

at about 250 ft off of the ground. The size of the object I estimate to be about 75 ft in length (from the angle which I saw it) and about 30' to 40' thick. There were two lights clearly visible on either end. The left end had a red light and the right end had a white light. These two lights looked like ordinary tracking lights. In the lower center portion of the object however was another lighted area which is difficult to describe. This area seemed to be about 15' to 18' high and about 20' to 28' in length. It was redish orangish with vertical ripples showing. This area seemed to diminish ~~to~~ as it went higher into the fogged area. The red and white lights were the last to be seen. There was no noise. Being in the position where I was, the possibility

of reflections are out. There was definitely an object there.

At first sighting the object, the first thing that came into my mind was a zeppelin. Realizing that this was so remote the only practical thing I could compare it to was a helicopter because of its vertical ascent. It was much too large for a helicopter however and there was no noise. When I went on to my destination which was right under the fogged area I asked the people if they had heard any noise and they answered "no". I saw no other movement except rippling.

The weather conditions were clear to the north (behind me) and to the south it was clear except for the fog area to my left but where the sighting was first noted it was absolutely clear.

The sighting took from 40 to 45 seconds approximately. My wife also saw this as she was in the car with me.

Sincerely Yours,

Port 40, Ohio
