

PROJECT 10073 RECORD CARD

1. DATE 14 June 62		2. LOCATION Pueblo, Colorado		12. CONCLUSIONS ☐ Was Balloon ☐ Probably Balloon ☐ Possibly Balloon	
3. DATE-TIME GROUP Local _____ GMT 15/0217Z		4. TYPE OF OBSERVATION ☒ Ground-Visual Optra Glasses ☐ Air-Visual ☐ Ground-Radar ☐ Air-Intercept Radar		☒ Was Aircraft ☐ Probably Aircraft ☐ Possibly Aircraft ☐ Was Astronomical ☐ Probably Astronomical ☐ Possibly Astronomical	
5. PHOTOS ☐ Yes ☒ No		6. SOURCE Civilian		☐ Other _____ ☐ Insufficient Data for Evaluation ☐ Unknown	
7. LENGTH OF OBSERVATION 3 min		8. NUMBER OF OBJECTS		9. COURSE	
10. BRIEF SUMMARY OF SIGHTING Objt dimmer than stars appearing as light only, white with white vapor trail approached fm E then turned N and NW. Gave impression of being smaller than a/c. No change in altitude during flight. No sound.				11. COMMENTS Witness insists objt not a/c/ Firm believer in flying saucers. Nothing in report indicates that this was anything other than an a/c with contrail. Flight characteristics, speed as indicated by distance covered and duration of sighting are consistent with a/c speeds. Case evaluated as a/c.	

U.S. AIR FORCE TECHNICAL INFORMATION SHEET

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

14 Day June Month 1962 Year

2. Time of day: 2 Hour 17 Minutes

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern
b. Central
(c.) Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b.) Standard

4. Where were you when you saw the object?

Pueblo
Nearest Postal Address

Pueblo
City or Town

Colorado
State or Country

Additional remarks: Down back yard

5. How long was object in sight?

Hours

3 Minutes

? Seconds

5.1 How was time in sight determined?

(a.) Certain
b. Fairly certain

c. Not very sure
d. Just a guess

6. What was the condition of the sky?

DAY

(a.) Bright
b. Cloudy

NIGHT

a. Bright
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
(b.) In back of you
c. To your right

d. To your left
e. Overhead
f. Don't remember

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight — pitch dark
- d. Don't remember

9. The object appeared:

(Circle One): ☒ a. As a light b. Shiny c. Dark d. Don't remember

10. If it appeared as a light, was it brighter than the brightest stars?

There weren't any stars but the stars are brighter than object.

11. Did the object:

(Circle One for each question)

- | | | | |
|---|--------------------------------------|-------------------------------------|------------|
| a. Appear to stand still at any time? | Yes | ☒ No | Don't Know |
| b. Suddenly speed up and rush away at any time? | Yes | ☒ No | Don't Know |
| c. Break up into parts or explode? | Yes | ☒ No | Don't Know |
| d. Give off smoke? | ☒ Yes | No | Don't Know |
| e. Change brightness? | Yes | ☒ No | Don't Know |
| f. Change shape? | Yes | ☒ No | Don't Know |
| g. Flash or flicker? | ☒ Yes | No | Don't Know |
| h. Disappear and reappear? | ☒ Yes | No | Don't Know |

12. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what
It moved behind: _____

13. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes ☒ No Don't Know. IF you answered YES, then tell what
In front of: _____

14. Did the object appear: (Circle One): ☒ a. Solid b. Transparent c. Vapor d. Don't Know

15. Did you observe the object through any of the following?

- | | | | | | |
|-----------------|--------------------------------------|----|--|-----|----|
| a. Eyeglasses | ☒ Yes | No | e. Binoculars | Yes | No |
| b. Sun glasses | Yes | No | f. Telescope | Yes | No |
| c. Windshield | Yes | No | g. Theodolite | Yes | No |
| d. Window glass | Yes | No | ☒ h. Other <i>Opera Glasses</i> | | |

16. Tell in a few words the following things about the object.

a. Sound None

b. Color White with a white vapor trail

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

← went east then came back toward us going North-Northwest

The object was too far away to distinguish exact shapes.

18. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other _____

19. IF there was MORE THAN ONE object, then how many were there? There weren't

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

21. How large did the object appear to you as compared to an object with which you are familiar?

From the distance seen, it was smaller than an airplane.

22. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

A thumb was held up and $\frac{1}{2}$ was covered. All of the object seen would have been covered because of the distance.

23. Did the object disappear while you were watching it? If so, how?

yes, We just couldn't see it for a few seconds and then there it was again.

24. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

a golf ball would probably look like it because at the distance we saw it from we really couldn't say if it was round, square, soccer shaped or what. As for the trail, nothing would be like it, not even exhaust from a jet or the trail of a comet.

25. Where were you located when you saw the object?
(Circle One):

- a. Inside a building
- b. In a car
- ☒ c. Outdoors
- d. In an airplane (type) _____
- e. At sea
- f. Other _____

26. Were you (Circle One)

- a. In the business section of a city?
- ☒ b. In the residential section of a city?
- c. In open countryside?
- d. Near an airfield?
- e. Flying over a city?
- f. Flying over open country?
- g. Other _____

27. What were you doing at the time you saw the object, and how did you happen to notice it?

I was playing with my dog and happened to glance up and noticed it. I watched a little but then called my mother, who watched it with me the rest of the time it was visible.

28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

28.1 What direction were you moving? (Circle One)

- | | | | |
|--------------|--------------|--------------|--------------|
| a. North | c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |

28.2 How fast were you moving? _____ miles per hour.

28.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

29. What direction were you looking when you first saw the object? (Circle One)

- | | | | |
|--------------|--|--------------|--------------|
| a. North | ☒ c. East | e. South | g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |
| | | | i. Overhead |

30. What direction were you looking when you last saw the object? (Circle One)

- | | | | |
|--------------|--------------|--------------|--|
| a. North | c. East | e. South | ☒ g. West |
| b. Northeast | d. Southeast | f. Southwest | h. Northwest |
| | | | i. Overhead |

31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North (thru east) and also the number of degrees it was upward from the horizon (elevation).

31.1 When it first appeared:

- a. From true North _____ degrees.
- b. From horizon _____ degrees.

31.2 When it disappeared:

- a. From true North _____ degrees.
- b. From horizon _____ degrees.

I don't know a single thing about angular direction. Sorry, I know that this is important in helping you but I'd really mess things up if I tried.

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it.

33. In the following larger sketch place an "A" at the position the object was when you *first* saw it, and a "B" at its position when you *last* saw it. Refer to smaller sketch as an example of how to complete the larger sketch.

34. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One)

- ☒ a. Clear sky
 b. Hazy
 c. Scattered clouds
 d. Thick or heavy clouds

WEATHER (Circle One)

- ☒ a. Dry
 b. Fog, mist, or light rain
 c. Moderate or heavy rain
 d. Snow
 e. Don't remember

35. When and to whom did you report that you had seen the object? *I reported it to my Mother*
14 June 1962
 Day Month Year

36. Was anyone else with you at the time you saw the object?

(Circle One) ☒ Yes No

36.1 IF you answered YES, did they see the object too?

(Circle One) ☒ Yes No

36.2 Please list their names and addresses:

(Mother) Mrs. [REDACTED]
 Pueblo, Colorado Pueblo, Colorado

37. Was this the first time that you had seen an object or objects like this?

(Circle One) Yes ☒ No

37.1 IF you answered NO, then when, where, and under what circumstances did you see other ones?

*at night, June 12, 1962, at about 8:20 P.M. MST.
 I was outside and glanced up and there it was.
 Called Mother to see it (I thought it was a
 shooting star, but it wasn't Mother told me). It disappeared
 after a while too.*

38. In your opinion what do you think the object was and what might have caused it?

*Being so firm believed in the flying saucer theory, I
 think that that is what was. It certainly didn't look like any
 aircraft I've seen before.*

39. Do you think you can estimate the speed of the object?

(Circle One)

Yes

No

IF you answered YES, then what speed would you estimate? _____

40. Do you think you can estimate how far away from you the object was?

(Circle One)

Yes

No

IF you answered YES, then how far away would you say it was? _____

41. Please give the following information about yourself:

NAME

[REDACTED] Last Name

[REDACTED] First Name

[REDACTED] Middle Name

Address

[REDACTED]

Pueblo City

Zone

Colo. State

TELEPHONE NUMBER

[REDACTED]

Age

15

Sex

Female

Indicate any additional information about yourself, including any education, which might be pertinent.

42. Date you completed this questionnaire:

14 Day

June Month

1962 Year

U.S. AIR FORCE TECHNICAL INFORMATION SHEET (SUMMARY DATA)

In order that your information may be filed and coded as accurately as possible, please use the following space to write out a short description of the event that you observed. You may repeat information that you have already given in the questionnaire, and add any further comments, statements, or sketches that you believe are important. Try to present the details of the observation in the order in which they occurred. Additional pages of the same size paper may be attached if they are needed.

DATE

14 - 6 - 62

At about 7:15 M.L. (P.M.) I went out to play with my dog on June 14, 1962. After throwing his ball I glanced up and saw this strange object - I immediately recognized it as being identical to an object I saw at about 8:20 P.M. Monday, the 11th of June. At that date I first thought it was a shooting star and called Mother as I wanted her to see it too. She informed me that it wasn't because it would have been gone by the time she got there if it were. So we watched it until it disappeared. It was about the same distance and every thing else I have thus far reported of the object seen on the 14th of June, 1962. It was identical down to the last detail. But it didn't disappear like the one on 14th June, 1962. It went like this:

I watched the object seen on 14th June, 1962 for about 30 seconds and then called Mom and she also recognized as like the one

(next page please)

We saw the 11th. We watched it go East and then disappear and reappear going WNW. After about 3 minutes it was equal with some trees. They obstructed our view and we couldn't see it again. Its tail was approx. 20 times the objects size. I kept following it (the object) around at an equal distance all the time. It never quivered or changed in form at any time. On left the object and drifted away like a jet. The trail was smooth and it seemed like the smoke in the trail was the only smoke and that no more was exhausted from the object.

It couldn't have been a jet, it didn't look like one, it made no sound and the exhaust was not like that of a jet.

It was not the color of a comet and besides no comet was to be seen at that time or over that day, for that matter.

I doubt if I've helped you, but I know what I saw and it wasn't an airplane, jet, comet, cloud, meteorite, or etc. It was a flying saucer.

I don't care if you keep my opinion confidential or not. I'm proud of my opinion and you may use it for publication or any thing else you desire to use it for.
