PREPARED BY George Takos

SUMMARY At 2300Z hours on 23 October 1962 observer was duck hunting in Farmington Bay Refuge Area (112° 0 minutes west, 40° 59 minutes north) when he heard what sounded like a flock of ducks coming over his position. Noticed a gray and silver round ball 3 feet in diameter approaching from the west at approximate speed of jet aircraft. Object was trailing what appeared to be gray or silver twine or cobwebbing with two knots trailing behind object. After passing over, object swerved to southeast and accelerated to a tremendous speed and disappeared in one or two seconds. Object was visible for approximate 20 seconds.

1. At 0336Z hours, 25 October 1962, Federal Bureau of Investigation, Salt Lake City, Utah, received a report of UFO sighting from Mr. [redacted] Salt Lake City, Utah, telephone [redacted]. Subject report was relayed by S/A Carter Jones, FBI, to Office of Special Investigations, then to Security and Law Enforcement Division, OOB, Hill AFB, Utah.

2. At 1400Z hours, 25 October 1962, a security specialist from the Security and Law Enforcement Division, Hill AFB, Utah, contacted Mr. [REDACTED] at his residence. When he looked west from his blind he noticed a gray and silver round ball 3 feet in diameter approaching him from the west at approximately the speed of a jet aircraft. The object was trailing what appeared to be a gray or silver twine or cobwebbing with two knots trailing behind the object. The object after passing over the blind swerved to the south east and accelerated to a tremendous speed and disappeared within 1 or 2 seconds. Object was visible for approximately 20 seconds. The following information and answers to questions is prefaced by paragraph number of items of information requested in paragraph 14, AFR 200-2, dated 20 July 1962.

14k The preparing officer is a Security Specialist, GS-7, Security and Law Enforcement Division, Hill AFB, Utah. Preliminary analysis indicates that the observer interviewed was a logical, mature person, and was convinced that he observed some tangible object, not identifiable as conventional type aircraft. No unusual meteorological or astronomical conditions were present which would furnish an explanation for the sighting. No missile test firings are conducted in the immediate area. With the completion of this initial report, no explanation has been developed for the object. No further action contemplated this station, unless follow-up report requested.
