ATIC FORM 329 (REV 26 SEP 52)

## U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?	2. Time of day:	2 AND 2:10
1. NOV. 1962  Day Month Year	(Circle One):	A.M. or (P.M.)
3. Time Zone:  (Circle One): a. Eastern b. Central c. Mountain d. Pacific e. Other	(Circle One): a.	Daylight Saving Standard
4. Where were you when you saw the object?		
	Johurn	MASSACLUSette
Nearest Postal Address	City or Town	State or County
5. How long was object in sight? (Total Duration)	Hours Minutes	Seconds
a. Certain	c. Not very sure	
b. Fairly certain	d. Just a guess	
5.1 How was time in sight determined? By	Awatch	
5.2 Was object in sight continuously? Yes	No	
6. What was the condition of the sky?		
a. Bright 54112 b. Cloudy	NIGHT a. Bright b. Cloudy	
7. IF you saw the object during DAYLIGHT, where	was the SUN located as you	looked at the object?
(Circle One): a. In front of you b. In back of you c. To your right	d. To your left e. Overhead f. Don't remember

14. Did the object disappear while you were watching it? If so, how?
It vanished while watching it, FASTER THAN MY EYE COULD FOLLOW IT. IN THE DISTANCE STRAIGHT UP.
15. Did the object move behind something at any time, particularly a cloud?
(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind:
16. Did the object move in front of semething at any time, particularly a cloud?
(Circle One): Yes No Don't Know. IF you answered YES, then tell what in front of:
17. Tell in a few words the following things about the object:
a. Sound No Sound
b. Color Golden Orange with Black Estwalk around
18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?
10 of 1 millowed thousands of the tip
19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.  Place an arrow beside the drawing to show the direction the object was moving.
Colden Orange
CH CHENT
Golden Destden

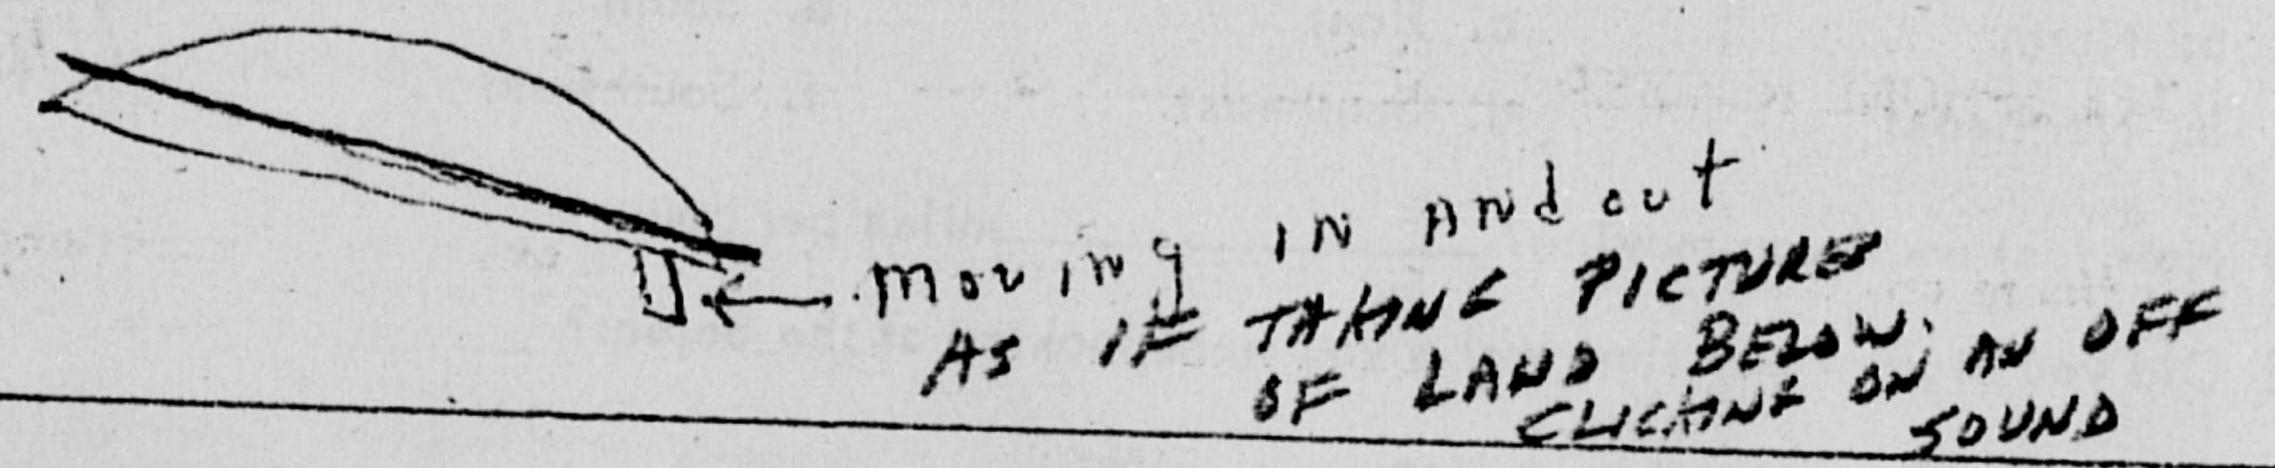

20.	Do you think you can estimate the speed of the object	?
	(Circle One) Yes (No)	Ne speed no All
	IF you answered YES, then what speed would you esti	mate:
21.	Do you think you can estimate how far away from you	the object was?
	(Circle One) (Yes) No	
	IF you answered YES, then how far away would you so	ay it was? PpRAX. 2,000 Teel
22.	Where were you located when you saw the object?	23. Were you (Circle One)
	(Circle One):	a. In the business section of a city?
	a. Inside a building	b. In the residential section of a city?
	b. In a car	c. In open countryside?
	c. Outdoors	d. Near an airfield?
	d. In an airplane (type)	e. Flying over a city?
	e. At sea	f. Flying over open country?
	f. Other On Tap of a building	g. Other In part of business
	a. North b. Northeast d. Southeast  24.2 How fast were you moving?mi  24.3 Did you stop at any time while you were looking  (Circle One) Yes No	e. South f. Southwest h. Northwest iles per hour. at the object?
25.	Did you observe the object through any of the followin	ng?
		Binoculars Yes (No)
		Telescope Yes No
	c. Windshield Yes (No) g.	Theodolite Yes (No)
		Other Phair Fresight
26.	In order that you can give as clear a picture as possible object or objects which, when placed up in the sky, w	ole of what you saw, describe in your own words a common ould give the same appearance as the object which you saw.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass where you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there?

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

34. Date you completed this questionnaire:

Day

Month

Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

A band of Light Around the building which came from the hanging clicking perjection which extended in a cone shaped from the hanging perjection. Light Brighter Than the bright soulight.

1962

Massacinusetts, by a carpenter named Charles Kirk. He estimated that the UFO was 40 feet long, 30 feet wide and 15 feet in height. It was a golden orange in color, was flat on the bottom, and had a black band near its lower edge. It also had a projection or periscope hanging about 10 feet down from its bottom. Also had a projection or periscope hanging about 10 feet down from its bottom. A civil defense official found a slightly abnormal amount of backmiddles. A civil defense official found a slightly abnormal amount of backmiddles. A civil defense official found a slightly abnormal amount of backmiddles. A civil defense official found a slightly abnormal amount of backmiddles.

November 1—Golden-orange oval egg-shaped object hovered for 10 minutes over Woburn at a height of about 2,000 feet high. The object was flat on the bottom, feet high. The object was flat on the bottom, like an egg cut down the middle. It had a black ring around the lower edge and a projection hanging from around the lower edge and a projection hanging from its bottom, which clicked on and off at 15 second intervals as if it were taking photos of the ground intervals as if it were taking photos of the ground intervals as if it were taking photos of the ground below. It was reported by Machinist Charles F.Kirk below. It was reported by Machinist Charles F.Kirk of the wells Machine Company. It case a beam of light of the wells Machine Company. It case a beam of light of the wells Machine Company in background radiation confirmed a slight increase in background radiation that night. At present am checking on a report that that night. At present am checking on a nearby center.
