Director of Operations,
Headquarters U. S. A. F., Pentagon,
Washington, 25, D. C.

Dear Sir;

At the request of your representatives at the Charleston Air Force Base, relayed to me by Mr. ~~XXXXXX~~ of the Charleston Evening Post, I should like to report the sighting of an object, unidentifiable to Mr. ~~XXXXXX~~ and myself. We are interested in the heavens and have a reasonably good knowledge of the stars and planets; read Natural History magazine with its star reporter; and are well acquainted with Echo. Most evenings we spend some time aboard our boat, tied in on the east shore of Battery Creek just south of Beaufort, South Carolina, gazing at the heavens.

7-50
On the night of May, fifteenth, at very nearly nine, I observed an area of glowing light, elliptical in shape, one third above the western horizon in a west-south-west direction. That area of the sky appeared cloudless but we searched the horizon for a source of light supposing it to be a searchlight reflection. No ground source was observable. We then used binoculars and saw several points of light within the area, as well as a cloudlike trail which varied from side to bottom. During a period of from twelve to fifteen minutes it remained in sight at the same height changing into the general appearance of a meteor before it faded, seeming to recede to the southwest. In our judgment it was in the atmosphere.

We would very much like to know what we saw. By its direction and the number of lights at first observed we ruled out Mr. ~~XXXXXX~~ in Faith Seven. We will appreciate your opinion.

Yours very truly,
~~XX~~
~~XX~~

Mrs. H. ~~XXXXXXXXXX~~

Case No. 10 - Although it may have been an aircraft we feel this is a bad case of insufficient follow-up. We evaluate it, therefore, IF. The youth of the witness and the fact that there was only one witness makes some of us feel that this should not be ranked as a first-class unidentified, but rather as "indeterminate" or "insufficient corroboration."

1. Reference the attached letters regarding UFO sightings. These letters are forwarded to your office for whatever action you deem necessary.
2. Mr. [REDACTED] sighting of 28 May is similar to many reported observations of aircraft contrails with the sun reflecting on them at dusk.
3. There are several White Sands sightings and no information can be forwarded unless a specific date is given. The movie "UFO" was a Green-Rouse production based on the Tucson photos, which were evaluated as seagulls, and the Mariana pictures, which were evaluated as two F-94 aircraft.
4. The sighting of Miss [REDACTED] has been evaluated as [REDACTED]. This satellite was over Wyoming at 7:38 PM on the night of 13 April and was heading southeast.
5. Mrs. [REDACTED] sighting of 15 May is now under study.

My dear Colonel Friend,

The timetable which you sent us for sighting Echo was greatly appreciated. Unfortunately, the evenings covered were, here in the Beaufort area, ones of near zero visibility. Our really thick weather seems to be passing now, however, and last evening just before nine o'clock we found our satellite again.

Although we have seen no more "things" in the sky, we have heard from other people in our area that they, too, have seen "things", from other locations and on different dates.

We are intensely interested in what conclusions, if any as yet, your department has come to in regard to UFO. We shall look forward to hearing from you further.

Cordially yours,
