[redacted] and I were riding around the municipal center on our bicycles. We stopped to look at some planes that were in the area. As I was glancing at another plane, one of us had our attention called to a bright object, brighter than a light bulb a few inches away. We looked at it until it sank below the horizon. We thought it might have been a "flying saucer," so we rode back to my house and wrote to Project Bluebook. We wrote to Lubbock because I had read about it. Then, these forms came and we each filled out.

[redacted] and I were riding our bicycles across the Memorial Causeway when we noticed a large object in the sky. It was moving very slowly and appeared to be about the size of a large airplane. It was shaped like a cigar, with a bright, white light on the front. There was a dull, orange glow behind the object. It was traveling in a straight line and appeared to be about 5 miles high. A few minutes later we noticed three more objects following the first one. They were spaced about the same distance apart as the first three.

Note: 2 boys are brothers, they both saw the same sighting.
