[redacted]
Lansing, Michigan 48906
March 30, 1966

Dear Sirs:

In the Lansing State Journal this evening I read an article about your study of unidentified flying objects. That and all the recent publicity given them reminded me of an exoerience I had nearly two years ago. Perhaps you would like to add this to your collection.

We were living in the northern part of Owosso, Michigan in the fall of 1964. It was late in the season and all the leaves were off the trees. On this particular evening I had just returned from downtown. It was nearly dark and the stars had already come out.

I got out of the car and glanced above me at the sky to see what the weather was going to be like that night. As I was looking, a falling star came out of the stars. I saw it when it started and it did come out of the stars. I watched it and soom realized it must be a meteor because it didn't burn out.

It was coming down terribly fast. I've never seen anything like it. It was also coming almost straight down towards me, it seemed. Now what amazed me was the fact that it suddenly stopped in the air. I am not very good at expressing feat but I can say it was about as high as a small plane when you can still see its windows plainly. A lot of them went over our house so I know.

Astro (meteor)

The object, whatever it was, didn't stop dead still . It sort of quivered and went down a few feet and then hesitated again. All this took only a minute or so.

Then very slowly, it started down at an angle. I was suddenly overcome with cuiousity and I jumped back into the car and followed it. I was able to follow it nearly to the Owosso Memorial Hospital before it disappeared downword. As near as I could estimate it landed about ½ mile behind the hospital near the river. (Shiawassee)

I began to be a little afraid to follow it back there so I turned around and went home. I considered calling the police but I thought about how rediculous it would sound so I didn't. That night I guess the impact of what I saw hit me because I got scared stiff and never did report it.

I might add that while it fell it was a blinding white, but when it stopped it seemed to change from a pale orange-white to a greenish and blue-white. It looked round and I couldn't see any definite lights on it.

I still feel rather silly about it but the paper said you collect these things. Now I'd just as soom forget it because if you think about it much it bothers you. I doubt if it was a ballon considering where it came from and I never heard of meteors stopping in mid air. I definitely wasn't marsh gas. If it was something you folks have made, what on earth are you wasting time with rockets for. I very definitely don't believe in flying saucers and such but it has bothered me a little every since.

I mentioned it to a few friends and most of them had a good laugh but I think I frightened a couple so I stopped talking about it.

Perhaps you can explain it but I don't really care. Now Maybe I can get the whole thing off my mind and forget it permanently.

My typing is not very good. I hope you will forgive all the errors.

Very Sincerely.

MAY 9 1967

Dear Miss [redacted]

Reference your recent letter regarding your unusual observation in August 1964.

A study of the submitted data did not reveal a positive identification primarily because of the date of the sighting. It is extremely important that an individual report his observation as soon as possible. This enables Project Blue Book's analysts to thoroughly investigate the particular sighting. The information will be filed for information purposes only because the sighting occurred over two years ago.

Thank you for reporting your observation to the Air Force. I have inclosed a report on Project Blue Book which I think you will enjoy reading.

Sincerely,

GEORGE P. FREEMAN, JR.

Dear Major Quintonella,

Before I get into what I want to say, I will introduce myself first. My name is J[redacted] I'm seventeen years of age and am in the 12th grade.

I have been doing research on UFOs since 1964 when myself, along with the rest of my family, spoted what appeared to be some sort of UFO. I call it a UFO because we were unable to identify it as any known aircraft we have ever seen. I know that I am no authority on the subject as you are, but as I told you before that I have been doing research on the subject and have not come up with any answers that fit the description of what we saw. I have read many articles on UFOs and am very interested on the subject. I have many UFO reports that I have taken in this area from many people. Some are very interesting and quite puzzling. Just last Thursday half the people in Pittsfield saw what I would call an AP. What we saw were three oblong clouds that change their color from red to blue to purle back to grayish white. Later we head that a weather station was doing experiments concerning clouds. So I guess those clouds we saw were the experiment.

But the reason I wrote this letter is to find out that what my family saw was a UFO or what. I will describe it the same way that I described it to NICAP(I haven't received a letter from them as yet). On August ?, 1964 the family of Mr. [redacted], saw what appeared to be a UFO. It is hard to tell the size or distant because it was too far away. We first noticed the object around 9:30P.M. It was my mother who called our attention to it. She came in and said to all of us, "you won't belive it, but there is somesort of silver object in the sky. Come out and see it so that I'll know I'M not imagining it." Upon seeing this object we were all quite amazed, especially my father who thinks as many people do about UFOs, That they are nothing but peoples imagination running away with them. But to this day, even after seeing what we all saw, does not believe in UFOs. So back to the main topic, the opject was very bright, and was traveling on what appeared to be a course. It stoppedfor about five minutes then just vanished. There was no noise what so ever.

Please if you can tell us what we saw. We would appreciate it greatly. I know that you are head of project Blue Book and that your opinion will be most greatful.

Thank you very much,

[redacted]

"Those that don't believe are those that don't see."

MRS. [redacted]
[redacted] Dr.
SAN Jose, CALIF. 95132

DEAR BORN OBSERVATORY
Northwestern University
Mr. William T. Powers
Dear Sir!

I am sincerly happy to answer your questions, and tell you everything as I saw it happen with my own eyes.

First and foremost my Son [redacted], aged 12 years old and [redacted] years old, one of my Neighbors Sons. were out side sitting on the Curb talking; and watching the stars that evening. Visabilty was Clear at that time. They both Came running into the house excited and said to Come see the flying saucer they had seen just land on the Mountain.

I went out side with them and we waited Some 15 or 20 Minutes or at least it seemed that long all the time watching for it up on the Mountain. When, I did see it, It raised straight up from the ground, and

hovered over the Mountain, we
watched it there Maybe 10 or 15
Minutes befor it moved on.
It looked to be round with
white and red lights on it. More
white light than red. and to me
it looked like two red light and
that it kept rotating, Then it Came
almost over us and you Could hear
a whining noise, one that no
airplane would make, almost like
a humming, all the time you Could
see these lights going around on it.
It Passed over at an angle
and suddenly put on one very
bright light. It was traveling at
a high rate of speed which, I do
not think anyone without the proper
equipment Could judge at all
When it put this bright light
on it turned like this ⌐, and I
know of no airplane which Can take
a square Corner, Then it just kept
going and disappeared out of sight.
It was kind of hard to
believe we actualy saw this flying
saucer. But it was there in the sky
and I only wish I Could have

Taken pictures of it.
We Came into the House to
Call about it being an unindentifyed
flying object. a (U.F.O.) flying saucer.
I Called the information
phone operator to get the right No.
to Call.

And I let [redacted] get
through the Call I talked to the Man
also [redacted] told his Number. So the
Man Called back and said to Call
him right back. So his Mother
Came over and told me to Call him
back. This man gave me another
phone number to Call at Moffet
field and they kept [redacted] on
My phone for one hour and it
Cost me [redacted] $1.15 cents for that
one phone Call

The people at Moffet made
me feel that they thought we were
just pulling Their leg. We, my husband
and I have spotted it since 2 or 3
times around 3 + 4 Oclock in the
Morning, But never Called again
or bothered to watch it to see where
it went, Because we felt that we

There are other people that work with my Husband and they said that they were made to feel foolish when they reported a sighting around there home.

Dan T.V. They tell you to call when you see something like this But when they do call, and are made to feel reduced to the size of a child, or told they are just seeing things, well they begin to just not Care.

I would say that this flying Saucer is at least 25 ft around, I Could be Wrong. But this is my guess.

I hope this information may be of some help to you, I've told all I have seen and heard.

Sincerly yours

OFFICIAL U.S. AIR

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

Day	Month	Year
	AUG	1964

2. Time of day: 09 Hours 35 Minutes

(Circle One): (A.M.) or P.M.

3. Time Zone:

(Circle One): (a. Eastern) b. Central c. Mountain d. Pacific e. Other _____

(Circle One): (a. Daylight Saving) b. Standard

4. Where were you when you saw the object?

Nearest Postal Address	City or Town	State or County
Corner of State Rd. & Snow Rd.	PARMA	Ohio

5. How long was object in sight? (Total Duration) APPROX. Hours 4 Minutes _____ Seconds

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? By a look in A Sinclair Service station window

5.2 Was object in sight continuously? Yes ✓ No ____

6. What was the condition of the sky?

DAY	NIGHT
(a. Bright)	a. Bright
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you b. In back of you c. To your right (d. To your left) e. Overhead f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, jul 61, which is obsolete.

FORCE UFO FORM

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight—pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

(a. Clear sky)
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

(a. Dry)
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

(a. Solid)
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

_____

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
(c. Sharply outlined)
d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	(Yes)	No	Don't know
b. Suddenly speed up and rush away at any time?	(Yes)	No	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change ~~brightness~~ color?	(Yes)	No	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	Yes	(No)	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

64

Official U.S. Air Force

14. Did the object disappear while you were watching it? If so, how? Yes, they came down to EARTH

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound No sound

b. Color when the objects were stationary they were dark & when the moved they were bright

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

I couldn't say. There were is a long time.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

Page 2

ORM

UFO form continued

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No) very very fast

IF you answered YES, then what speed would you estimate? They were out of site in seconds

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c.) Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b.) In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One) I was riding a Bicycle

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) (Yes) No

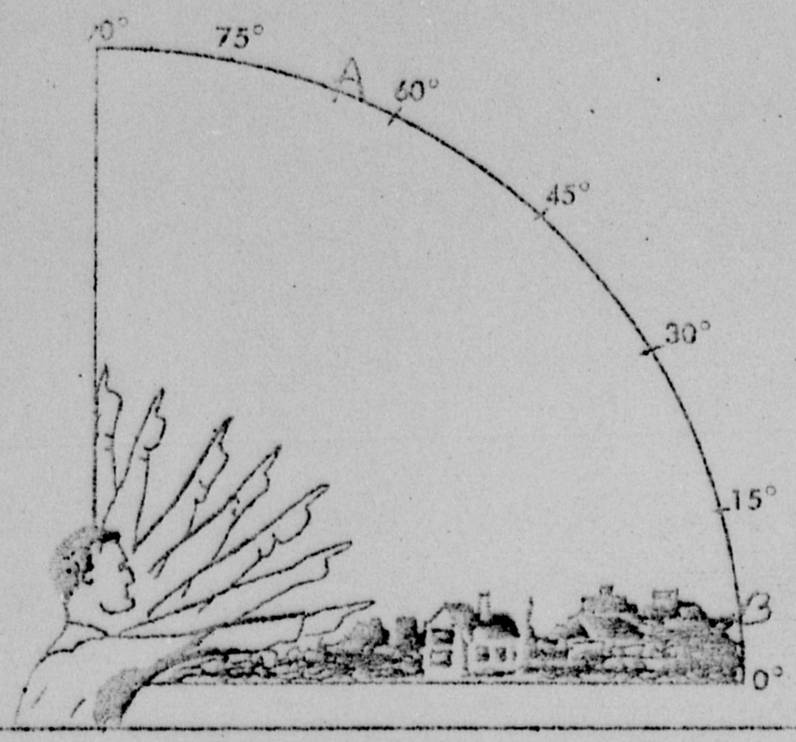
25. Did you observe the object through any of the following?

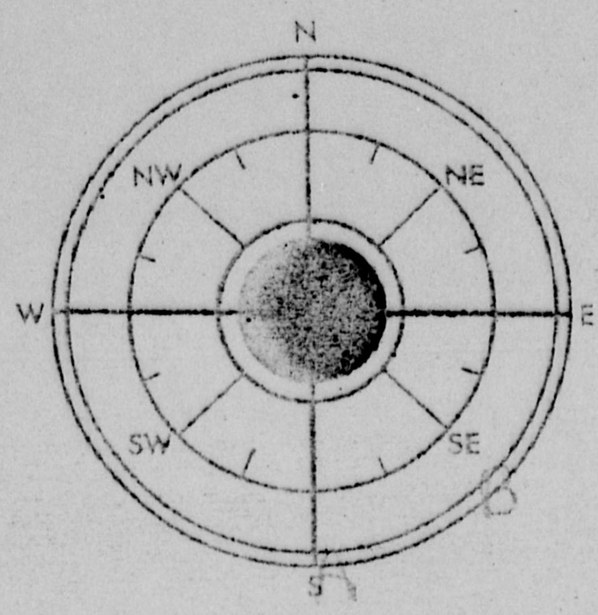
a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Official U.S. Air Force

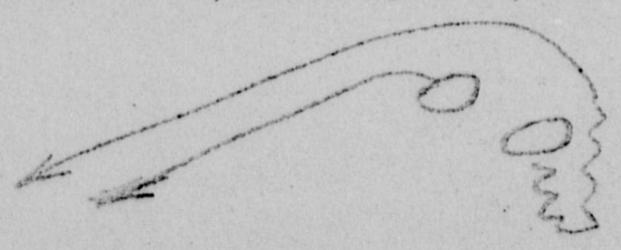
...tch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object ...orizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was ...izon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the com- ... you *last* saw the object.





28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? Two (2)
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.



UFO form continued

30. Have you ever seen this, or a similar object before. If so give date or dates and location. NO

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes (No)

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [redacted] (Last Name) _____ (First Name) _____ (Middle Name)

ADDRESS [redacted] (Street) PARMA (City) 34 (Zone) Ohio (State)

TELEPHONE No. [redacted] AGE 20 SEX Male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

AIRMAN Second Class
DAVIS - Monthan A.F.B.
Tucson, Ariz

[redacted]

33. When and to whom did you report that you had seen the object? I Reported to no one

_____ (Day) _____ (Month) _____ (Year)

because I doubted if anyone would believe me.

Official U.S. Air Force

34. Date you completed this questionnaire: 23 (Day) MAR (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I realize this report is
3 years old but maybe
there is something in it
that may aid you.
The two saucers were
a great surprise to me.
Although I believed in them
I never thought I'd believe in
them.
they changed color as
I have stated & one of them
emed to have a stability
blem as they hovered.
or hovered quite a long
If You have seen

UFO form continued

the film "Earth VS flying Saucers" you saw that the scientists developed a weapon that upset the ships magnetic field so that that tended to wobble in air. This is exactly what I use to discribe the stability problem.

this was no hoax. You can believe what you can, but I know it that what I saw was real.

If You wish any additional information you know where You can find me.

August 1964
Quebec, Canada

Rash of Sightings In Quebec

In the first part of August 1964 many residents of the Province of Quebec, Canada, reported unidentified objects. Although no exact dates were given the French language weekly, Le Nouveau Samedi for 8 October 1964 reported three sightings for a period of 10 days preceding the 8th of August.

At Compton (about 90 miles ESE from Montreal) Emilien Nadeau reported he had heard a strange explosion while watching TV at about 9:30 p.m. He ran outside and saw a ball of fire speeding towards the ground. At about 300 feet altitude "a piece of fire detached itself from the object and the larger body continued its flight until out of sight. Others also witnessed the sight.

Another report came from Mrs. Aime Perreault, in Repentigny, 5 miles from the Northern tip of Montreal Island.

Also in the early part of August Mrs. P. (no time) saw a round flat object with a dome on top which came from the west and disappeared toward Barthier. Five other people also observed the craft.

On the third many citizens of Montreal called police and military authorities to report a brilliant object speeding from southwest to northeast. The RCAF tower at St. Hubert and the Control Tower at Dorval International Airport saw nothing unusual on that night and officials admitted they were unable to give a plausible explanation for the citizens' observations.

. Friday Morning, August 7, 1964

'Thing' Sighted Over San Angelo

It's unidentified flying object time again.

Reports are getting a little more frequent, said Merlin Hurt of the Federal Aviation Agency tower at Mathis Field here.

This came in response to a sighting reported by four San Angeloans Thursday night of an object that came out of the south "at tremendous speed."

"It stopped in midair about the time it got over San Angelo," said Frank Kashinsky of 1350 State, a Goodfellow enlisted man. "Then it made right angles, circles, squares . . ."

Kashinsky said he and another Goodfellow airman, Earl Moore, and their wives were eating barbecue in the Kashinsky backyard shortly after 9 p.m. Thursday when they saw the object.

They watched it about 10 minutes before it appeared to be "going out into space," grew dimmer and no longer was visible.

How big was it?

"About the size of a star," said Kashinsky, meaning his description of the relative size appearance in the sky. He couldn't determine how far away the object was, he said.

But it definitely was noticeable, he said, brighter than a star. It had a "sort of burnt orange" light.

"It moved at tremendous speed," said the airman. There was no noise, and Kashinsky and his wife discounted the possibility of the object's being a plane or helicopter.

"It might be a balloon," said FAA man Hurt. Goodfellow has balloon squadrons, and his assumption was that some kind of weather balloon was in use, maybe testing winds at high elevations. Wind at 30,000 feet, he said, has about 45 miles-per-hour velocity, and a balloon traveling at that height and at that speed might give the illusion of tremendous speed. Such a balloon, he said, might have a light dangling from it so trackers can keep up with it.

But Goodfellow officials said the squadrons here had no balloons in the air Thursday night.

"Last week and week before last along about 1 o'clock in the morning about three nights in a row we got calls from people over there (Goodfellow neighborhood)," said Hurt. They reported unidentified lights over the air base.

"Every time it blinked," said the amazed Kashinsky, "it made a turn, like the blinker lights had something to do with the controls."

LUBBOCK MAN GIVES HIS VIEW OF 'THINGS'

A Lubbock amateur astronomer has offered an explanation for the unidentified flying objects reported over San Angelo and other West Texas towns recently.

What they probably see, said J. W. Stevens, president of the South Plains Astronomy Club, are meteors and satellites.

He said the earth passes through the Perseid meteor belt about this time of year. Also, both Echo I and Echo II satellites have been and will be making passes within visual range.

Stevens said the Perseid meteors will be most numerous on or about Wednesday.

Anyone who wants to take the time, he noted, can view the meteor shower during the next few nights — maybe seven or eight bright flashes an hour of the "shooting star" or fireball" variety.

1 August 1964
Portage Lake, Ohio

BOY CAMPERS?

Portage Lakes Area . . . August 1, 1964 . . . Rumors reaching FSIC had it that a UFO had come down in the Rex Lake area and was seen by at least 60 persons, among them boys at the Masonic Boy's Camp. A direct line to the Pentagon was provided by FAA officials, according to the rumor factory.

So Moyers, Candusso and Davis (Medina) cranked up their Geiger Counters and flew off to a date with destiny. These are the facts as we found them.

At 1:00 A.M. on August 6, Larry Chase, a KSU student, and Victor Eshelman spotted a reddish-orange object moving overhead from NE to SW. It was out of sight in 1 to 1-1/2 minutes. No sound or trail. It was about 4 times the size of a bright star.

They told Mr. Charles White, the Masonic Camp director, about it when they arose. A call was made to Akron-Canton Airport, and they were put in contact with FAA. Hours later FAA notified Mr. White that they could not account for the object seen by the boys. We talked to Victor Eshelman and he was convinced that what he saw was not a conventional aircraft.

LOCAL FOLKS REPORT SEEING UFO

The first report of the Unidentified Flying Object (UFO's) in this area the past few weeks came from Mrs. Winton Weydemeyer, who called the News office on Sat. July 25 about 10 p.m. to say they had been watching it. Residents of Western Montana in particular have reported many sightings of moving flying objects in the past few weeks.

Mrs. Weydemeyer said her husband glanced up at the Big Dipper Thursday night, July 24, and was surprised to see an extra star in the constellation. As he watched, the light moved across the sky and directly over Therriault Pass. Saturday night they saw it again, and it went over the mountain to the northeast, and out of sight about 10 p.m. Ross McKenzie told the Weydemeyers he had also seen the object.

8 August 1964
Massillon, Ohio

FORMATION OF ELEVEN

August 8, 1964 . . . 9:30 P.M. . . . Three parachutists had just completed a jumping exhibition at North School on S. R. 93, just north of Massillon, Ohio.

Two of the wives were present, too, when one of the party pointed overhead. The sight that held their attention is still not believed by one of the observers.* There, against the clear sky was a formation of bright white star-like objects. They were formed into a triangular formation containing 11 objects.

One of the objects in the formation moved forward as shown. After about 4 minutes they took off in a body and went directly NW at a speed compared to that of a jet. No change of color, no sound, trail, etc., no other lights, stationary position.

Mr. and Mrs. Lee Hammock, Mr. and Mrs. Ben Wolfe and Lonnie Massey.*

Police Chief Views UAO

James Sculley, Chief of Police at Hamilton, Montana, observed a bright unconventional aerial object while camping near Painted Rock Reservation on Sunday August 9, 1964.

Sculley and his family were camping above the Slate Creek Campground about 50 miles south of Hamilton when they were wakened by their dog barking excitedly at about 12:30 a.m. When he investigated the cause, Chief Sculley saw a very large bright object hovering next to the large mountain a few miles beyond the camping area.

"It was like trying to look at the morning sun," he said, and stated that the light from the object was so bright that it illuminated the logging road and trees on the mountain adjacent to the object. The object projected two beams, each at a 45 degree angle from either side, which lit up a 100-foot area. Sculley estimated the diameter of the object to be at least 25 feet. The lights went off and the area was plunged into darkness immediately. The object had apparently left.

PROF. MANEY AND UFOs

The Professor sent us articles on UFOs carried by Crescent-News of Defiance, Ohio (August 1 and 13). These reports were given to Prof. Maney by residents and by letter writers.

One report concerns two young boys, John Dodson, 15, and Frankie John Jiminez, 14, of Defiance. It happened on August 11.

The boys were walking near the railroad tracks S of S.R. 281 between 5 and 6 P.M. The sky was overcast and it was relatively dark for that time of day. Frankie suddenly saw a strange object in the sky above the General Motors (foundry) water tank. The object appeared to be about one-half the diameter of a full moon. It was dome-like with a flange base and was rotating slowly. It had lights arranged horizontally and bright enough to illuminate the area. It moved horizontally at moderate speed and then shot up vertically at greater speed and disappeared. They said it gave off a "high-pitched continuous whirling or hissing sound." Its color was "whitish."

Maney Reports Boys' Sighting

Prof. Charles Maney, APRO member in Ohio, forwarded the following information:

John Dodson, 15, Frankie Jiminez, 14, of Defiance Jr. High School, Defiance, Ohio, were taken to talk to Professor Maney of the Department of Physics, Defiance College, after they confided an experience to a friend:

The boys said they were walking near the railroad tracks south of State Route 281 between 5 and 6 p.m. on 11 August, 1964, approaching the overpass beyond the General Motors Foundry when they sighted a strange object above the General Motors Water Tank. Frankie first spotted the object which was dome-like with a flange base and appeared to be about half the diameter of the full moon. It seemed to be rotating slowly.

"It had lights arranged horizontally" and was bright enough to illuminate the area, the boys said. It moved horizontally at a moderate speed and then shot up vertically at greater speed and disappeared, according to the boys. They described the noise as a "high-pitched continuous whirling or hissing sound"—and the color was "whitish".

Royal City, Wash
13 August 1964

August 13; Royal City, Wash.: A very strange story occurred here when a group of motorists were driving on Highway 26 near Royal city when they saw 300 to 500 strange looking grey spheres come over a crest of a mountain and soar toward the highway. They came so close to the cars that the motorists thought they were going to be hit by the objects. "One landed on the gravel at the side of the road; a glowing spot appeared for a few seconds and then there was nothing there!" exclaimed a woman driver.
