Aug. 5, 1964

FTD

Dear Sir;

On the evening of Aug. 3, 1964 at about 10:15 A.M. four of my neighbors and myself saw an object about three times as bright as the brightest star. I was sitting on the porch looking to the west when way off to the west I saw this object. I called to the neighbors to look, it was as far west as we could see.

It was traveling at a tremendous rate of speed to the east and than I estimate as it was over about the vicinity of Watertown N.Y. about sixty miles west of here it started to make a turn to the North over Canada. It trveled over Canada to the North and out of sight.

Now I am not an astronomer or anything of this nature but I would estimate the height of this object to be as we we look at the distance of the stars from earth this object was about three quarters that distance, this is the best way I can explain it.

I would mainly like to emphasize that this object was traveling at a tremendous rate of speed for from the time it appeared way in the west to the time it dissapeared way in the North it only took about ten minutes, now this is fast.

I have heard of many people seeing such objects but this is the first I have seen and I am not a crack pot or my neighbors either. Every time people see these things the Air Force Dept. says that they have no report of any strange objects from thier official stations well by golly it seems very odd to me that if these objects are spotted many times how you people never see them or have radar readins.

I am writing this letter as an interested citizen and thought you should have this information for the record. I do not feel this is anything we have in orbit because of the many I ha ve seen that we have in orbit they never make a turn such as this object did, it made a direct turn as I said to the north . I would like to mention again that I think you should make a note of the speed in which it traveled.

You will find nothing in our local newspapers about this because I did not want people to think I was nuts.

I would appreciate a reply to this letter. Thank you

[redacted]

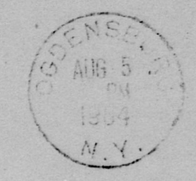

Ogdensburg, N.Y.

REPLY TO
ATTN OF: TDEW

SUBJECT: Request for UFO Information [redacted]

18 AUG 1964

TO: Hq USAF SAFOI PB (Mrs. Gaiser)

We have received a letter fro[redacted] Street, Ogdensburg, New York. Apparently there is some discrepancy in the tine of the sighting, as Mr[redacted]ates that it was "on the evening of 3 August 64, at [redacted] a.m. Apparently, a satellite sighting is also ruled out, due to the abrupt turn which the object took. It is suggested that a FTD Form 164 be forwarded to Mr.[redacted]clarify these two observation points; mainly, time of sighting and motion of object in order that we may evaluate his observation. It is also suggested that a fact sheet be enclosed with the letter to him.

YOU - THE NUCLEUS OF SECURITY!

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

3 (Day) Aug (Month) 1964 (Year)

2. Time of day: 2200 (Hour) 05 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a. Eastern) b. Central c. Mountain d. Pacific e. Other _____

(Circle One): (a. Daylight Saving) b. Standard

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) OGDENSBURG (City or Town) N.Y. (State or County)

5. How long was object in sight? (Total Duration) APRX. 4 MIN. (Hours / Minutes / Seconds)

a. Certain
(b. Fairly certain)
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? CLOCK ~~& WRISTWATCH~~ WATCH

5.2 Was object in sight continuously? Yes X No _____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a. Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you b. In back of you c. To your right d. To your left e. Overhead f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 154, jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (*Circle One*):

a. None
b. A few
(c. Many)
d. Don't remember

8.2 MOON (*Circle One*):

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
(d. Don't remember)

9. What were the weather conditions at the time you saw the object?

CLOUDS (*Circle One*):

(a. Clear sky)
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER (*Circle One*):

(a. Dry)
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: (*Circle One*):

a. Solid
b. Transparent
c. Vapor
(d. As a light)
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (*Circle One*):

(a. Brighter)
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

IT WAS ~~ABOUT~~ 3 TIMES BRIGHTER THAN THE BRIGHEST STAR WE HAVE.

12. The edges of the object were:

(*Circle One*): a. Fuzzy or blurred
(b. Like a bright star)
c. Sharply outlined
d. Don't remember

e. Other _____

13. Did the object:

(*Circle One for each question*)

a. Appear to stand still at any time?	Yes	(No)	Don't know
b. Suddenly speed up and rush away at any time?	Yes	(No)	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	Yes	(No)	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	Yes	(No)	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

14. Did the object disappear while you were watching it? If so, how?

We saw it as it appeared from the west and disappear into the north at a tremendous speed.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound None

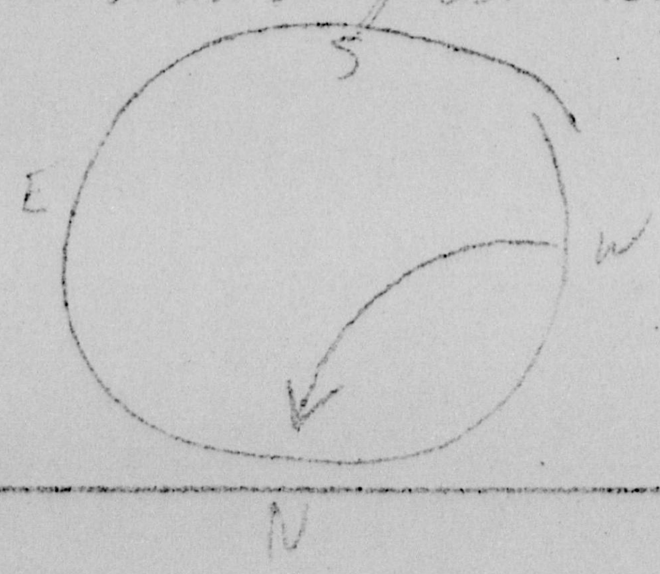

b. Color Like a star only 3 times brighter than brightest star

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

I would say about 3/4 of the object would have been covered.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

Don't have to draw picture I said it looked like a star only 3 times brighter than brightest star.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimare? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? 3/4 the height of regular stars.

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

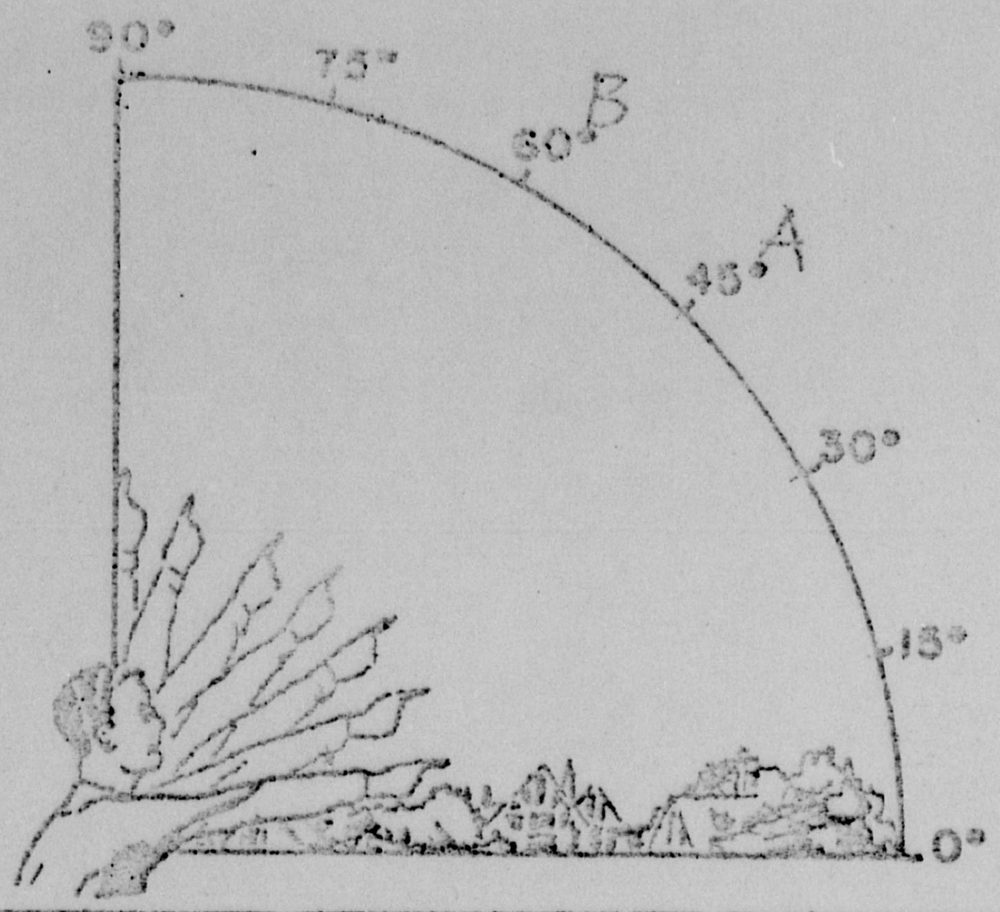

25. Did you observe the object through any of the following?

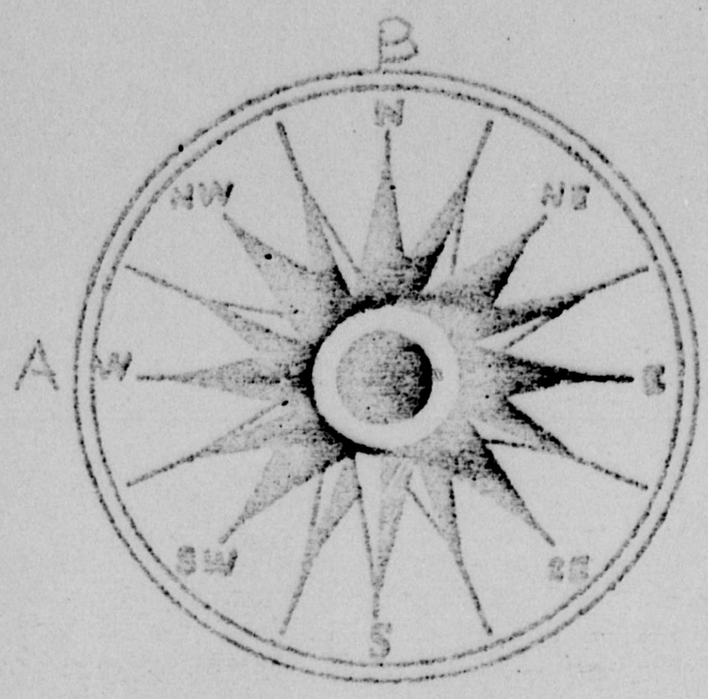

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

For the umpteen time a very bright star only three times that bright

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No

31. Was anyone else with you at the time you saw the object? (Circle One) (Yes) No

31.1 IF you answered YES, did they see the object too? (Circle One) (Yes) No

31.2 Please list their names and addresses:

MRS. [redacted] = WIFE

MRS. [redacted] = NEIGHBOR

MISS [redacted]

32. Please give the following information about yourself:

NAME [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] OGDENSBURG 13669 N.Y.
Street City Zone State

TELEPHONE NO. [redacted] AGE 32 SEX MALE

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

Day Month Year

I DONT REMEMBER THE DATE I NOTIFIED AF PENTAGON

34. Date you completed this questionnaire: 5 (Day) SEPT. (Month) 64 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I do not remember if it was August or July when I saw object. But I sent the letter to the Pentagon 3 days later so if they have my letter on file they can tell this way.

I would also like to say that the AF dept. was very slow getting in contact with me after I sent the letter. It's a good thing it wasn't something dangerous to our security.

I believe you should investigate these reports as very soon as possible, this I feel you did not do.

[redacted]

Wright-Patterson AFB, Ohio 45433
9 Dec 64

[redacted]
South Peabody, Massachusetts

Dear [redacted]

In review of our UFO cases for the year 1964 we find that we are unable to evaluate your sighting on the data presented. The duration of forty seconds seems inconsistant with the report. This indicates that the object was tracked through at least four degrees of arc per second with a telescope.

We would appreciate completion of the attached form 164 and answers to the following questions in the comments section:

1. The type of telescope used.

2. Particular positional data on the object as it passed from its initial observation to its disappearance and the angle of elevation as it passed overhead.

3. Estimation as to stellar magnitude, such as second, third or fourth.

4. How was the duration estimated and what are the possible extremes of this estimate, such as 35 - 45 seconds, 30 - 50 seconds, etc.

We are enclosing a self-addressed envelope for your convenience in replying.

Sincerely,

HECTOR QUINTANILLA, Jr
Major, USAF
Chief, Aerial PhenomenaBranch

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

14 (Day) Aug (Month) 64 (Year)

2. Time of day: 21 (Hour) 40 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a. Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

Arlington Rd (Nearest Postal Address) Kettering (City or Town) OHio (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) 5 (Minutes) _____ (Seconds)

a. Certain
b. Fairly certain
(c. Not very sure)
d. Just a guess

5.1 How was time in sight determined? Est

5.2 Was object in sight continuously? Yes ✓ No _____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a. Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):
a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM
FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (*Circle One*):

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON (*Circle One*):

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (*Circle One*):

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER (*Circle One*):

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: (*Circle One*):

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (*Circle One*):

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

As bright as North Star

12. The edges of the object were:

(*Circle One*): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other _____

13. Did the object:

(*Circle One for each question*)

a. Appear to stand still at any time? — 5 secs	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

No

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

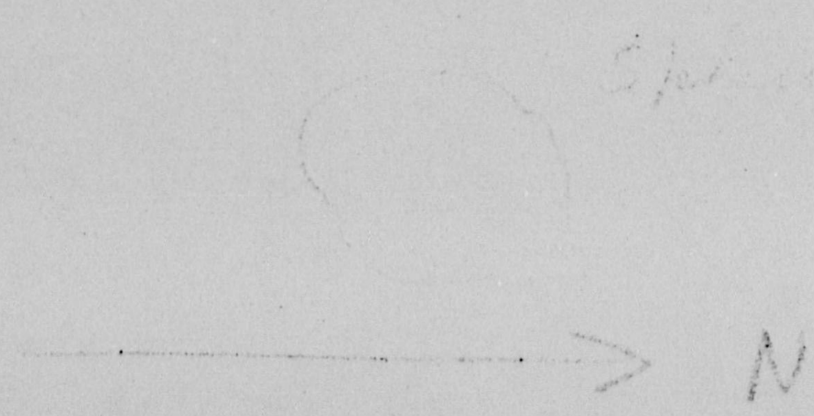

a. Sound None

b. Color White Light - like STAR

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

Covered entirely

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? Very high rate - JE Jet

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? Extremely high Alt

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

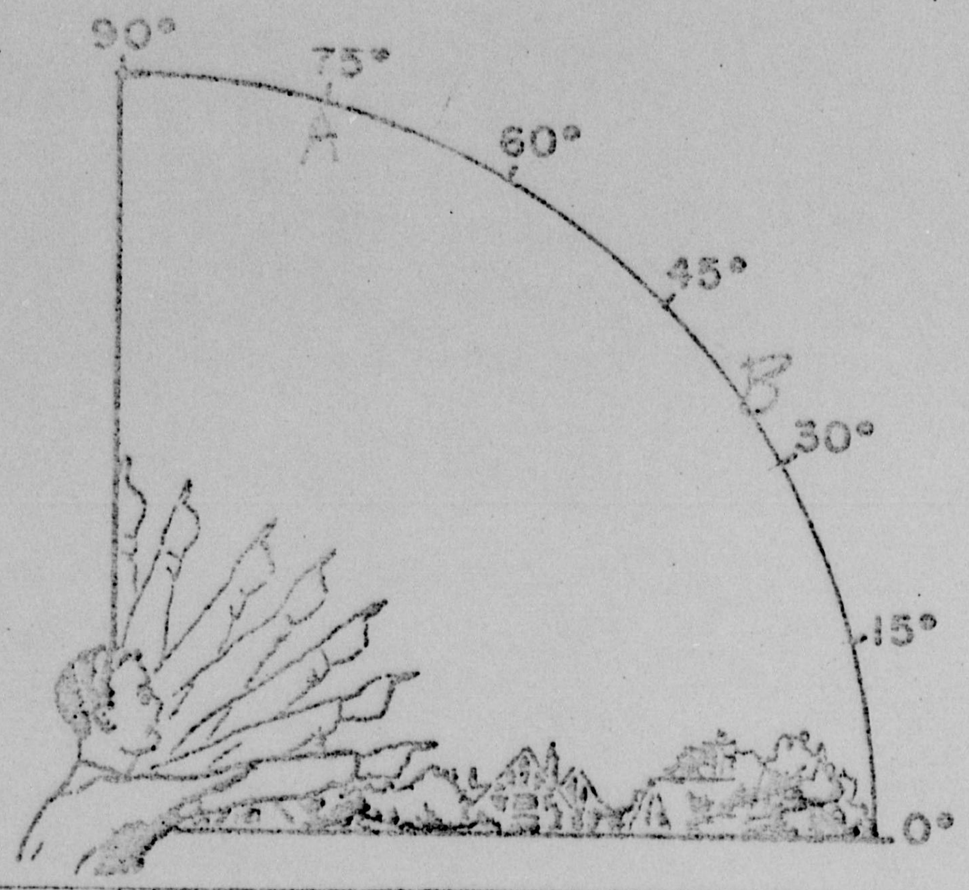

25. Did you observe the object through any of the following?

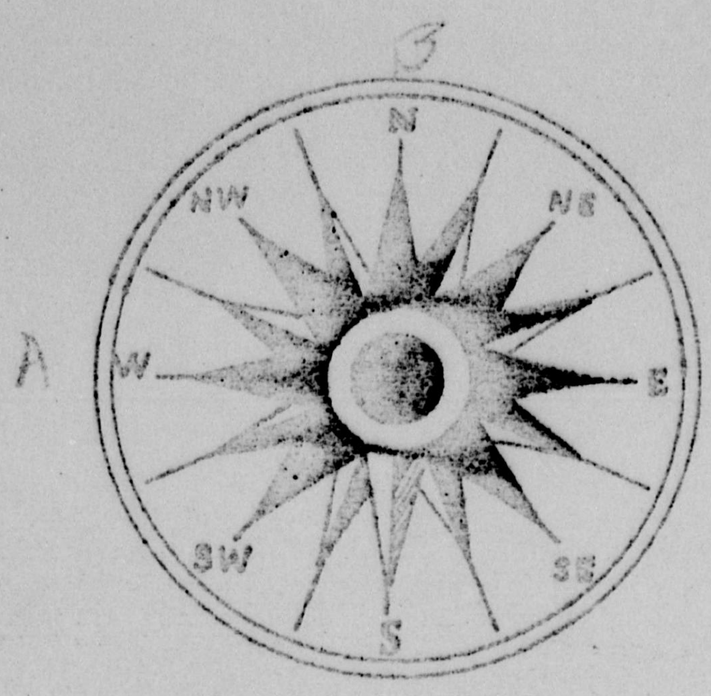

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

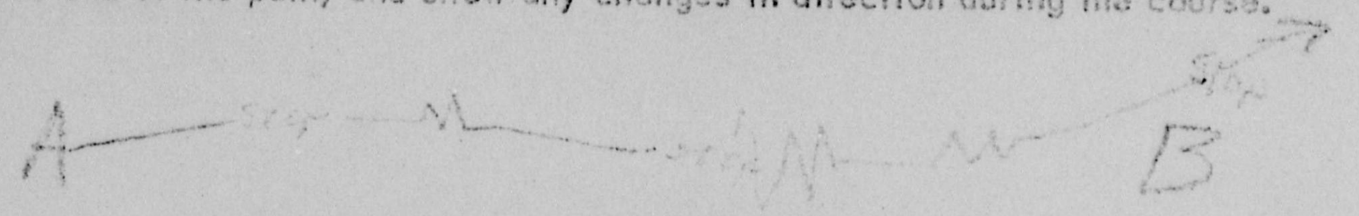

Bright Star

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? N/A
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes No

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

[redacted] - wife

[redacted] Cincy, 32, Ohio

32. Please give the following information about yourself:

NAME [redacted] [redacted] [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] Cincinnati 32 O
Street City Zone State

TELEPHONE NUMBER [redacted] AGE 23 SEX M

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

14 May 64
Day Month Year

34. Date you completed this questionnaire: 14 (Day) 8 (Month) 64 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Object moved in a jerky fashion, stopping for periods as long as 5 sec. At times the object moved in jerky motions perpendicular to the direction of flight.

1. DATE - TIME GROUP	2. LOCATION
3. SOURCE	10. CONCLUSION
4. NUMBER OF OBJECTS	
5. LENGTH OF OBSERVATION	11. BRIEF SUMMARY AND ANALYSIS
6. TYPE OF OBSERVATION	
7. COURSE	
8. PHOTOS ☐ Yes ☐ No	
9. PHYSICAL EVIDENCE ☐ Yes ☐ No

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

14	Aug	64
Day	Month	Year

2. Time of day: 20 (Hour) 20 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a. Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

[redacted] R.D. | Kettering | Ohio

Nearest Postal Address | City or Town | State or County

5. How long was object in sight? (Total Duration) _____ Hours 5-10 Minutes _____ Seconds

a. Certain
(b. Fairly certain)
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? _____

5.2 Was object in sight continuously? Yes ✓ No _____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. Bright
b. Cloudy	b. Cloudy

twilight

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid bright
b. Transparent
c. Vapor
d. As a light
e. Don't remember

trail - vapor

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter as bright
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

—

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

No

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

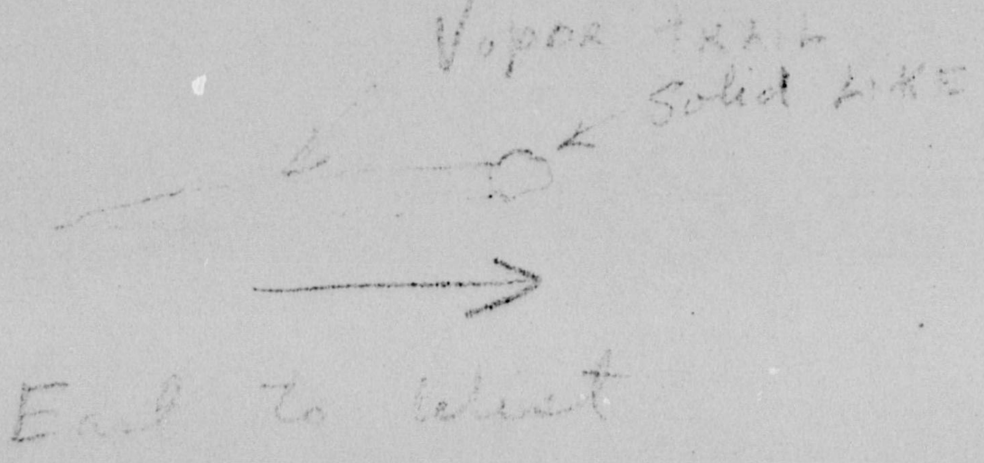

a. Sound Now could hear any

b. Color white - like star

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

Entire object

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? Not guessing

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

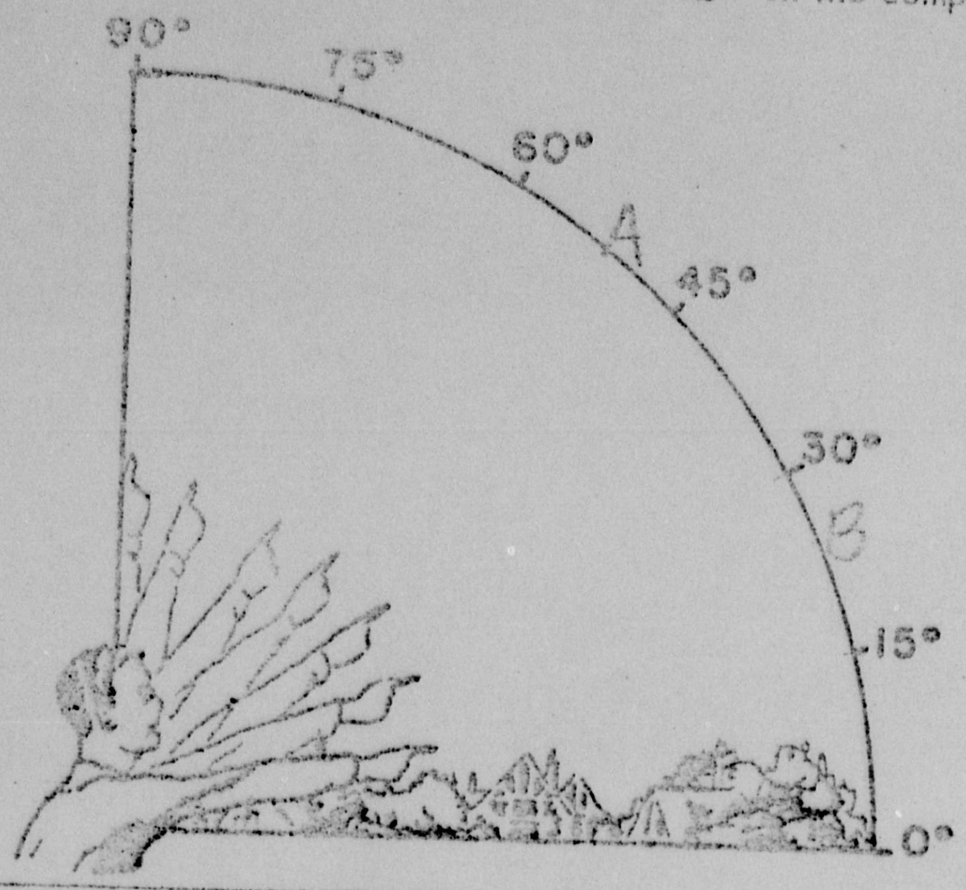

25. Did you observe the object through any of the following?

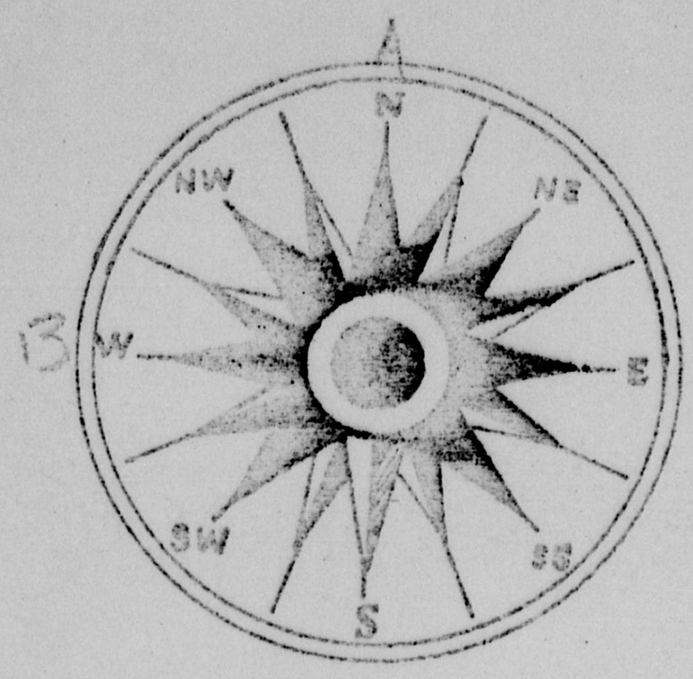

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Like star with some sort of contrail trailing

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

Kept going straight at same speed

29. IF there was MORE THAN ONE object, then how many were there? Only one
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes (No)

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [redacted] [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] Kettering Ohio
Street City Zone State

TELEPHONE NUMBER [redacted] AGE [redacted] SEX Female

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

Day Month Year

34. Date you completed this questionnaire: 1st (Day) Aug (Month) 64 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

1. DATE - TIME GROUP 24 [illegible] 1965 MT/0625Z	2. LOCATION [illegible]
3. SOURCE Civilian	10. CONCLUSION Astronomical (SCO I)
4. NUMBER OF OBJECTS One	[illegible] Iowa City, Iowa, 1 SW, Dec 24, viewing Southern during [illegible] observation. Classified as SCO I.
5. LENGTH OF OBSERVATION 10 Minutes	11. BRIEF SUMMARY AND ANALYSIS [illegible] Object was [illegible] Object had a [illegible] color. Object was [illegible] object high in sky, and slightly to the South-West. Second [illegible] of object. 1st observer did not see this. Object covered a distance of about 1/4 of the sky [illegible] observation.
6. TYPE OF OBSERVATION Ground-Visual	
7. COURSE SE	
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No

U.S AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

14 (Day) August (Month) 1964 (Year)

2. Time of day: 11 (Hour) 25 (Minutes)

(Circle One): A.M. or [P.M.]

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. [Mountain]
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. [Standard]

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) Brigham City (City or Town) Utah (State or County)

5. How long was object in sight? (Total Duration) 0 (Hours) 10 (Minutes) 0 (Seconds)

a. Certain
b. Fairly certain
c. Not very sure
d. [Just a guess]

5.1 How was time in sight determined? Estimation

5.2 Was object in sight continuously? Yes ✓ No ____

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

NIGHT
a. [Bright]
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. [Many]
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight -- pitch dark
d. [Don't remember]

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. [Clear sky]
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. [Dry]
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. [As a light]
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. [About the same]
d. Don't know

11.1 Compare brightness to some common object:

I would say about the same as the ECHO satellite on a clear night.

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. [Like a bright star]
c. Sharply outlined
d. Don't remember

e. Other It was like a bright star, but it didn't flicker like a star.

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	[No]	Don't know
b. Suddenly speed up and rush away at any time?	Yes	[No]	Don't know
c. Break up into parts or explode?	Yes	[No]	Don't know
d. Give off smoke?	Yes	[No]	Don't know
e. Change brightness?	[Yes]	No	Don't know
f. Change shape?	Yes	[No]	Don't know
g. Flash or flicker?	Yes	[No]	Don't know
h. Disappear and reappear?	Yes	[No]	Don't know

14. Did the object disappear while you were watching it? If so, how?
Yes, the object did disappear. Toward the end of the observation it began to grow dim then would brighten up again. It did this three times, then it dimmed and went completely out.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes [No] Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No [Don't Know.] IF you answered YES, then tell what in front of: It's path may have crossed some stars, but I don't really know.

17. Tell in a few words the following things about the object:

a. Sound None.

b. Color It was a very bright yellow.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?
The head of a match stick would have covered the object completely.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.
Place an arrow beside the drawing to show the direction the object was moving.

This, of course, is an enlargement upon what the object actually looked like. A bright star in comparison would appear #/# about the same size.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes [No]

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes [No]

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
c. [Outdoors]
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. [In the residential section of a city?]
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

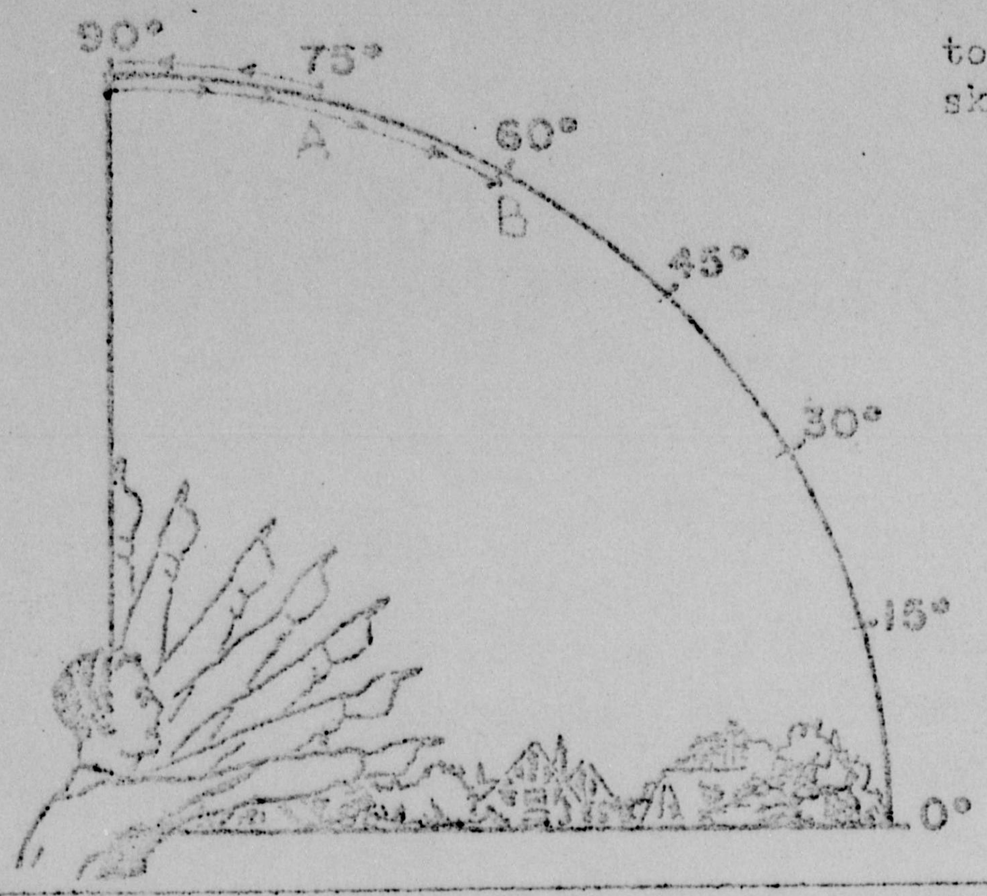

a. Eyeglasses	[Yes]	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other _____		

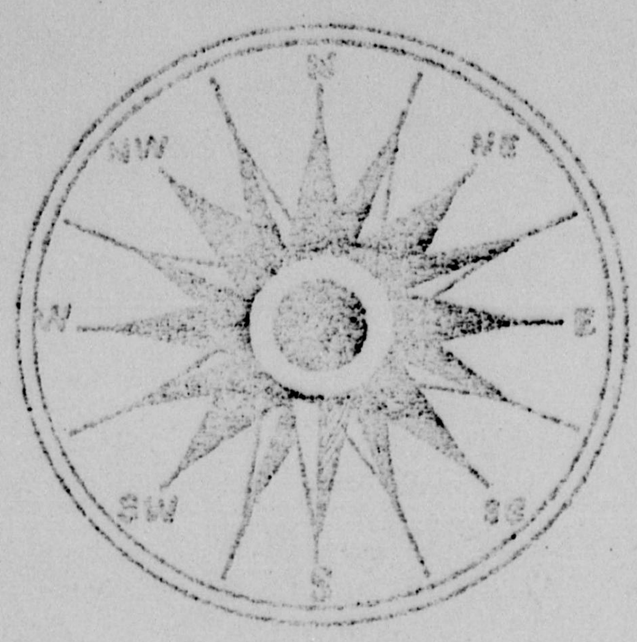

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Again I would say the ECHO satellite.

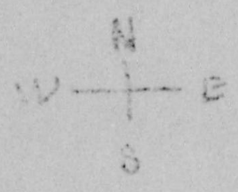

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

I first saw it high in the sky, and slightly to the west, and last saw it still high in the sky, but now slightly to the south east.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____

Draw a picture of how they were arranged, and put an arrow to show the direction that they were travelling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? (Circle One) Yes No

31.1 IF you answered YES, did they see the object too? (Circle One) Yes No

31.2 Please list their names and addresses: [redacted]

Brigham City,
Utah

32. Please give the following information about yourself:

NAME [redacted] [redacted] [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] St. Brigham Utah
Street City Zone State

TELEPHONE NUMBER [redacted] AGE 17 SEX MALE

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

Day Month Year

34. Date you completed this questionnaire: 17 (Day) August (Month) 1964 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

My friend, [redacted] and I had just put out our sleeping bags in his back yard and had gotten into them, and began to talk. The night sky was clear as a bell. As we talked it occurred to me that I hadn't looked up at a night sky for a long time, and I began to casually scan the stars. Often times when I look at the stars I get the feeling thatthe larger ones are moving. I had this feeling or impression about a certain object(which at the moment I thought was a star) in the sky and slightly to the west. I was amazed to realize that the object was moving. I pointed it out to Dennis, who has 20 20 vison. Myself, I wear glasses. The object seemed to move in a jerky motion. It would hesitate, but not completely stop, then move on again. The intervals of these hesitations were about 1 second apart. As we watched the object Dennis said that he could see what he called "sparks" flying from the rear of it. I, myself, did not see these "sparks". By now the object was directly above us, and it began to change coures from due East to South East. Also by this time Dennis had called his sister and brother out to see the object. I asked his sister to see exactly what time it was, and from this estimated that I first spotted it at 11:25. We all gazed at it a while longer when it started to dim. It brightened then dimmed again twice, then it finally went out for good. During the total time the object was in view(about 10 min.) it covered a distance of about 1 fourth of the sky. In this questionnaire I have said the the object we saw about the size and brightness of the ECHO satellite. One important thing is that it moved much slower then the ECHO(Ihave seen the ECHO several times, and could tell the difference). For about a half an hour after it had disappeared I watched the sky but saw nothing of it again. I hope I have covered everything possible. When your investigation is finished would you please send me information as to what it might have been(Of course I will understand if this is not possible)?

Sincerely,

[redacted]

ECHO I

June 20, 1963

Dear Sirs,

I've been doing some research, for an article I would like to write, on the topic "UFO" or "Flying Saucers", and to date I haven't come up with much of value. Most of the material I have found is clearly false. However, I do have one book on rockets and the like (Space Flight by Lloyd Mallan) which seems to be factual. The last chapter is on "Flying Saucers", and tells of the governments interest in the subject. So, I am wondering if you could send me any information you might have on the subject. Also, could you send me "UFO" questionnaires Form A and Form B.

I will be very pleased if you came send the requested material. Thank you very much.

Sincerely,

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

20 (Day) Aug (Month) 1964 (Year)

2. Time of day: 0430 Z (Hour) _____ (Minutes)

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

ACE - LAKEVIEW (Nearest Postal Address) WACO (City or Town) TEXAS (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) _____ (Minutes) _____ (Seconds)

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? _____

5.2 Was object in sight continuously? Yes ___/___ No _____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. Bright
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):
a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM
FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

see section 3 5

11.1 Compare brightness to some common object:

_____

12. The edges of the object were: see section 3 5

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object: see section 3 5 *(Circle One for each question)*

a. Appear to stand still at any time?	Yes	(No)	Don't know
b. Suddenly speed up and rush away at any time?	Yes	(No)	Don't know
c. Break up into parts or explode?	(Yes)	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	(Yes)	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	(Yes)	No	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

14. Did the object disappear while you were watching it? If so, how?

see section 3

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound No sound

b. Color see section 3

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

see section 3

20. Do you think you can estimate the speed of the object? see section 35

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? At 50,000 feet or higher

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

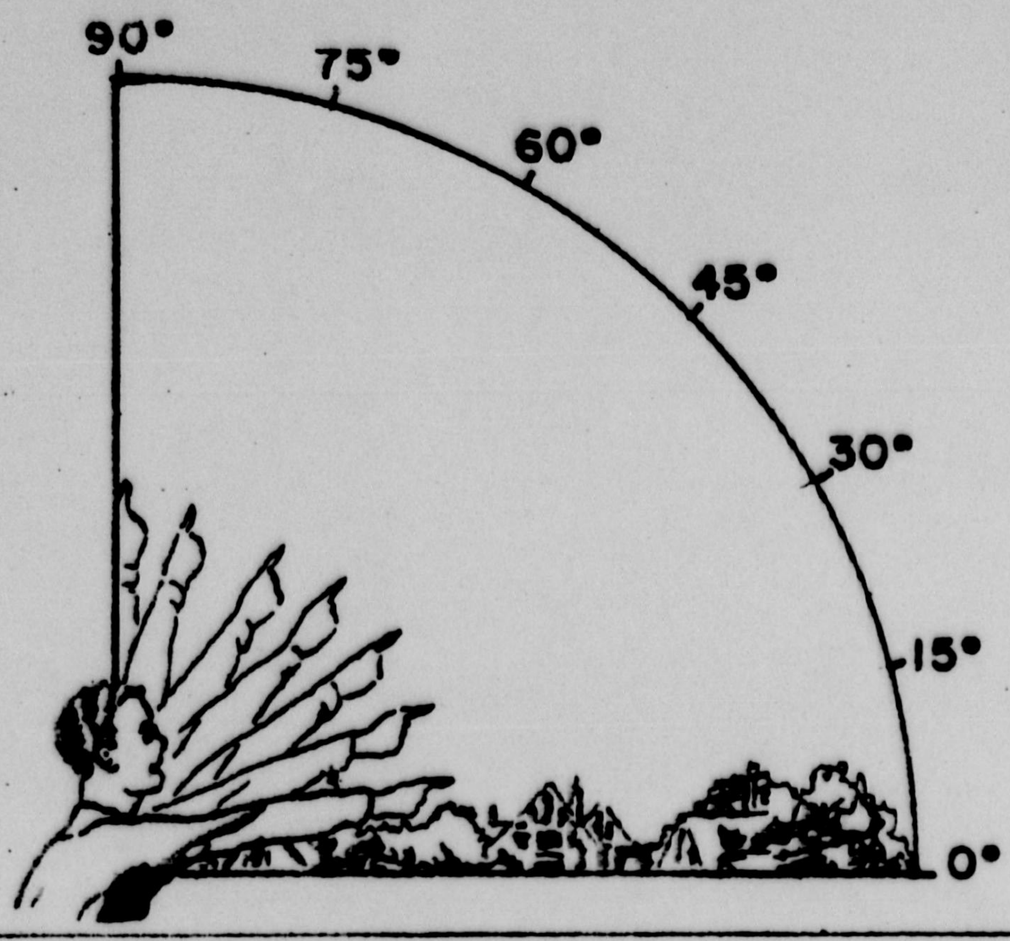

25. Did you observe the object through any of the following?

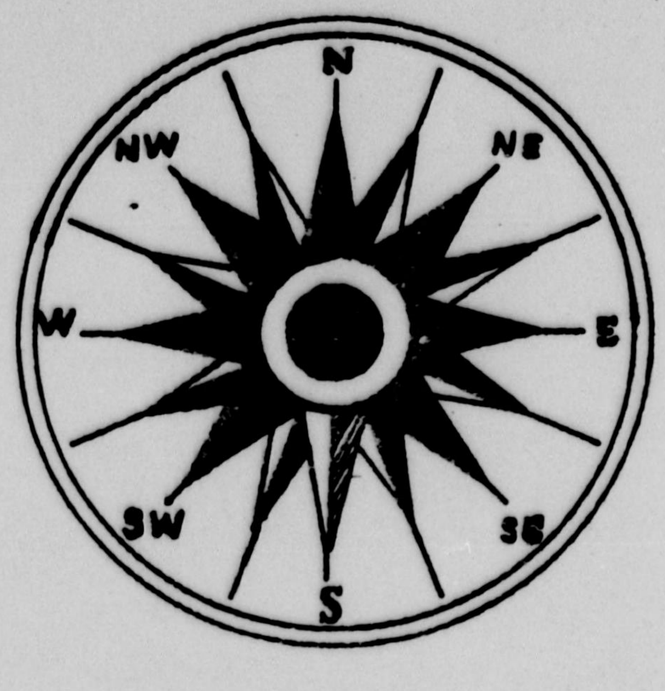

a. Eyeglasses	Yes	No	e. Binoculars	(Yes)	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

see section 35.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

see section 3.5

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

see section 3.5

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes No

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [redacted] (Last Name) _____ (First Name) _____ (Middle Name)

ADDRESS CAGEY-LAKEVIEW (Street) WACO (City) ___ (Zone) TEXAS (State)

TELEPHONE NUMBER _____ AGE _____ SEX MALE

Indicate any additional information about yourself, including any special experience, which might be pertinent.

Observer is a retired Air Force Master Sgt. who served as a crew chief while on active duty.

33. When and to whom did you report that you had seen the object? Last week 3-5

Day _____ Month _____ Year _____

34. Date you completed this questionnaire: 20 (Day) Aug (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

Lt/Col Lack called from AF Command Hdqt
at 0810E 20 Aug 67 to report UFO observation
at Waco, Texas. Information in the report
was obtained from him not from observer.
James Conally AFB, Texas will submit final
report in accordance with AFR 200-2.

Narrative explanation obtained from Lt/Col
Lack is as follows: At 0430E 20 Aug 67
observer Mrs. Hyde let dog outside in back
yard at Waco, Texas via 3 or 4 bright lights.
Looked like objects the appeared to be
green and red lights. In addition to
the 3 or 4 lights, there were numerous smaller
lights which made movements in
regard with the larger lights. The
larger lights broke away from the
main group and began erratic movements
in all directions. There was no set pattern to the
movements of the smaller lights. Object
were observed through binoculars at 50,000
feet or high. Smaller lights not visible
without binoculars. No sound was heard
and kept the lights and Mrs. Hyde
dog kept the lights in sight for
approximately one hour.

[redacted]

September 2, 1964

Dear Mrs. [redacted]

This is in reply to your letter of August 28, 1964, in which you reported the sighting of an unusual object over Webster, Massachusetts on August 27th.

We appreciate your advising Westover Air Force Base and this Headquarters of this sighting. The Base is investigating possible causes for the sighting; however, since it is often necessary to do extensive research for information on an Unidentified Flying Object report, the evaluation in this case may necessitate a little time. As soon as the report is received by this Headquarters, we will advise you further.

Sincerely,

MASTON M. JACKS
Major, USAF
Public Information Division
Office of Information

Mrs [redacted]
[redacted]
Webster, Massachusetts

Dear Mrs [redacted]

1. We are in receipt of your unidentified flying object report. We are forwarding an FTD Form 164 for completion in order that we may determine a possible cause for your sighting. In addition to the questions on this form the following data is desired:

a. The statement "disappeared rapidly to the West and returned to hover at high altitude for approximately one hour" needs clarification. In particular we should like to know:

1. How long the object disappeared prior to its return?

2. Was there any difference in the appearance of the object during its motion to the West, its disappearance and its appearance during that portion of the sighting when the object hovered?

3. As the object hovered, did the edges appear sharp or fuzzy?

4. Was there any color to the object?

5. As the object hovered, was there any motion?

6. Did the object appear to change in shape or size?

7. Did the object appear to change in brightness or intensity?

8. What was the total duration of each phase of the sighting? That is how long was the object in flight to the West, how long did it disappear, what portion of the time was consumed in its return, and what portion included in hovering.

9. Was the object observed to disappear?

10. Was any effort made to photograph the object or observe it through binoculars or other optical aids?

11. Were any additional witnesses called to look at the object?

b. If possible, try to determine the elevation and azimuth of the object as it hovered by use of a magnetic compass and protractor.

2. This information may be forwarded to Major Hector Quintanilla in the attached envelope. We will notify you on completion of our evaluation.

Sincerely,

HECTOR QUINTANILLA, Jr
Major, USAF
Chief, Aerial Phenomena Branch

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

27	Apr	64
Day	Month	Year

2. Time of day: 10 Hour 30 Minutes

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

	Dayton	Ohio
Nearest Postal Address	City or Town	State or County

5. How long was object in sight? (Total Duration) _____ Hours 3 Minutes _____ Seconds

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? _____

5.2 Was object in sight continuously? Yes ✓ No _____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a.) Bright
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (*Circle One*):

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON (*Circle One*):

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (*Circle One*):

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER (*Circle One*):

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: (*Circle One*):

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (*Circle One*):

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

2 to 4 stars

12. The edges of the object were:

(*Circle One*):
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object: (*Circle One for each question*)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

n/a

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound None

b. Color green

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

(a.) Inside a building
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b.) In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____miles per hour.

24.3 Did you stop at any time while you were looking at the object?

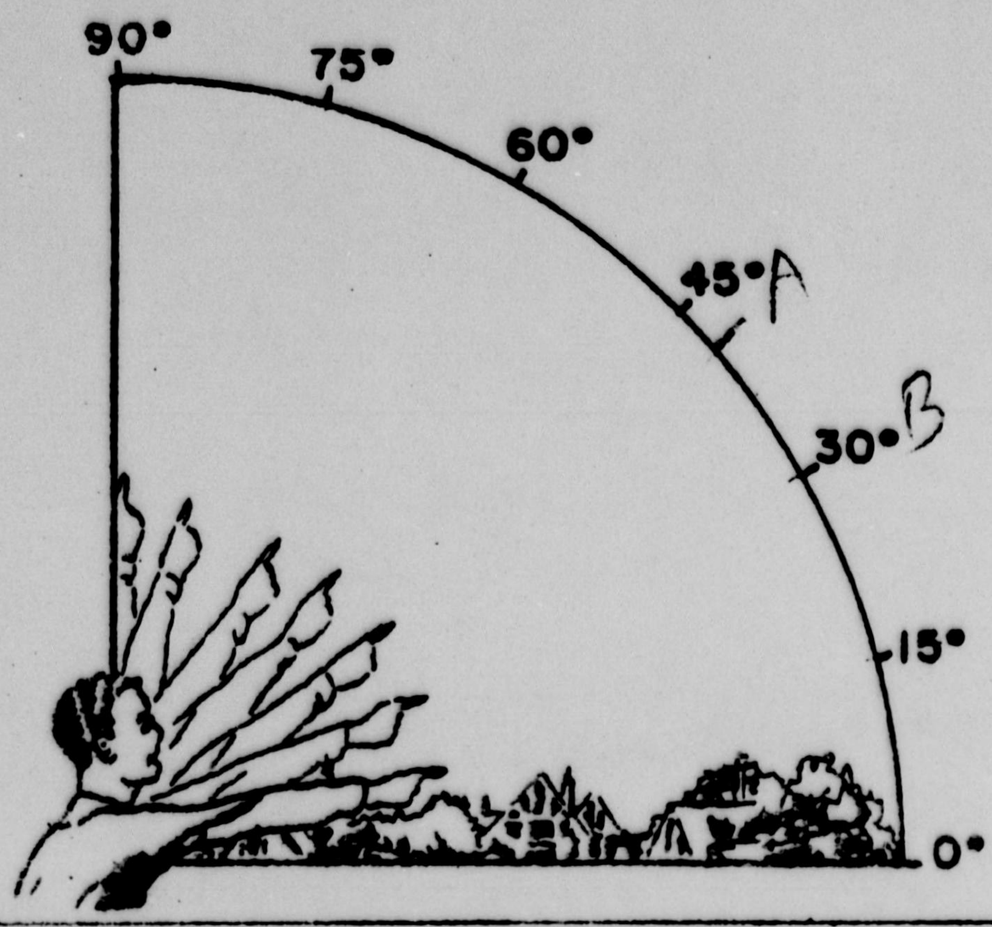

(Circle One) Yes No

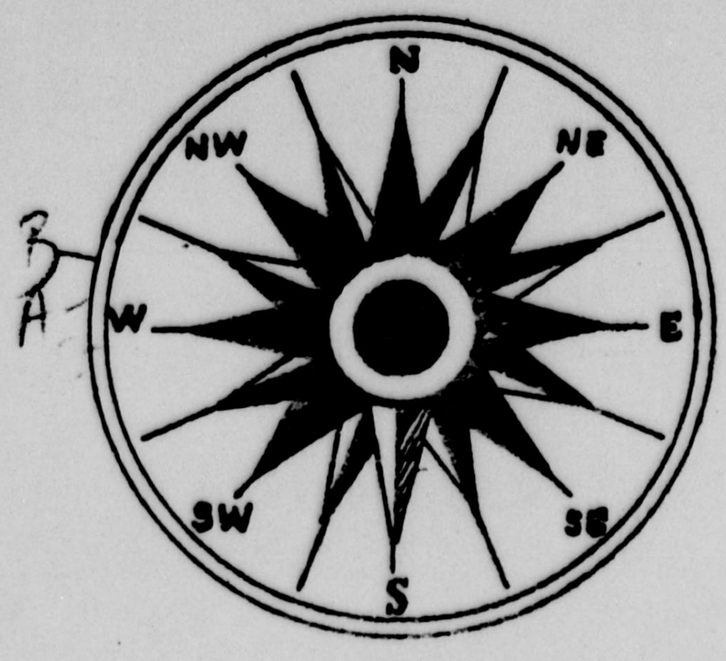

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	(Yes)	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes No

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

wife

32. Please give the following information about yourself:

NAME [redacted] [redacted] [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] Dayt. 40 Ohio
Street City Zone State

TELEPHONE NUMBER [redacted] AGE 38 SEX M

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

BLUE BOOK - ATIC

UFO REPORT # 6/28-29/64

WITNESS: Mr. [redacted]
Vallor Drive,
Littleton, Mass.

AGE: 37
OCCUPATION: A & E Mechanic
United Airlines

PLACE: Junction of Harwood Avenue and Rt # 495, Littleton, Mass.

DATE: 28th or 29th August, 1964 TIME: 10:05 EST PM

SIGHTING:

Mr. [redacted] had just left Harwood Avenue and entering onto super highway Route # 495 when a large bright yellow ball leaving a fiery exhaust crossed the highway up ahead of him. He could not tell how far away it was but because of its size and flat trajectory he did not think it was a meteor. Its apparent size was compared to that of a quarter held at arms length. Its real size appeared to be about 10 feet in diameter. Its brightness was compared to that of an automobile headlight about 1/2 mile away. It seemed to change shape and flickered but its edges remained steady like a bright star. The object appeared to be solid. Duration of observation was an estimated 6-8 seconds. No sound could be heard. It was observed through the windshield of his automobile. Its speed was estimated to be 700 mph. It disappeared behind trees and a hill. It was first seen at 100° elevation in the east and last seen at 160° in the southwest. The size in trajectory as it disappeared from sight seems to rule out a meteor.

EVALUATION:

Although the above sighting could be attributed to a large meteor I feel that it should be reported because it was seen in the same area as the low-flying UFO reported on 25 August and because the witness is familiar with aircraft and meteors and considered the object to be something unusual. Because of the quality of the observer and other UFO activity in the area I personally believe that what was observed was not a meteor but a low-flying UFO.
