Gentlemen:

On the night of Widnesday, February 3, 1965, on the 8100 block of Buselton Avenue I saw something I had never seen before.

It was a formation of white lights except for one red light on the left side of the middle portion.

At the object's middle portion, it was about 300 feet wide and at it's bottom section, about 500-600 feet wide. It was about 500-600 feet long. As it passed overhead, I heard a loud roar.

I do not think this is a plantet of any kind or a mirage.

Could you please send me any information about this and a list of any possible reports from 1945-1964. This would aid me in a report for science class.

Thank you very much.

Very truly yours,
