UNITED STATES AIR FORCE

A. Description of Object

- 1. Shape: Circular, disk shape with a dome on bottom.
- 2. Size: Silver dollar at arm's length in diameter
- 3. Color: Off object none; however, flushing green, red and white lights were seen with a possibility of blue, as well.
- 4. Number: 1
- 5. Formation: N/A
- 6. Features or details: dome on underside, light rotating as beacon.
- 7. Tail or exhaust none seen.
- 8. Sound: none
- 9. Other features: none

B. Description of course

- 1. First called attention to object by wife.
- 2. Angle of object when first observed: 30° to 40° above horizon in northwest.
- 3. Angle of disappearance did not disappear when he left it was at 10-150 above horizon in northwest.
- 4. Flight path: No maneuvers, slow movement, several large aircraft were seen near object.
- 5. How did the object disappear? Faded twice. Observer thought fading caused by atmosphere. Still visible when he went inside to watch T.V.
- 6. How long visible: Observered for 1 1/2 hours to 2 hours.

C. Manner of Observation

- 1. Ground-visual, air visual, possibility is being checked and will be sent to you if able to obtain.
- 2. Optical aids: 30 power binoculars "Bosch & Lomb".
- 3. Airborne unknown at this time.

- D. Time and date of sighting:
 - 1. Zulu time Group 0045-0230, 27 Sep 65
 - 2. Night
- E. Location: 41° 26' 35" N 74° 25' 40" W. In yard of Middletown, N.Y.

- H. Unusual activity. Cold front at surface.
- I. Aircraft were reported near object.
- J. Not now available.
- K. Roger B. Tyrrell, 1st Lt USAF, 4713th Def Sys Eval Sq

These people saw an object or light refraction of unknown cause. There have been no reports of any airborne sightings although Hugenot Vortac is in the location of object sighting. Hugenot Vortac is the intersection of several jet and low altitude routes. Inquiries, so far, have been negative as to air sightings. The length of time observed seems to possibly indicate an object of relatively fixed location. The sighting could be a refraction of sun's upper limb; however, if such, it should have risen on horizon instead of falling, as the shape of object would indicate reversed image.

Many people naturally are skeptical. They ask "Who are these people that have seen the objects, and how do we know they're not exaggerating?"

The truth of the matter is, too many people have seen the objects, including businessmen, policemen and other responsible citizens.

One such person is H. Kenneth Bayne a Middletown business executive, who lives at 18 Crescent Place.

Bayne and a group of neighbors watched the object hovering in the sky fer close to two hours Sunday night, beginning around 9. On Monday night, Bayne's wife Sally saw the object again.

Goodrich,

"I observed the object through binoculars," Bayne said. "It was a discshaped relolving object hovering above. It was noticeable at night because of the green, red, and white spinning lights."

Bayne said the lights resembled the spinning top light of a patrol car. He said at one point, the object seemed to be at a 45 degree angle.

Watching the object in a sort of circus-show with six other neighbors and some children Bayne said the object did not move at one point for about 20 minutes.

He said one of the neighbors called Stewart Air Force Base, and within a half-hour an aircraft approached and appeared to be on a collision course with the flying saucer object.

The plane, however, appeared to make a pass at the object and then flew away. When Bayne and his wife left at 11 p.m., the object was still visible.

Bayne who served in the Air Force, said he would discount the object was a star because it seemed to disappear and then reappear. He said he didn't think it was a reflection but obviously

Bayne said he saw many planes in the air Sunday afternoon, of the "flying Boxcar' type, which are heavy aircraft, and wondered if they had anything to do with the nightime activity of the flying objects -- or saucers, or whatever it was.

Bayne said he had an interest in the reports about flying saucers, and was naturally curious. He said, however, he was "thankful" he was not alone when he observed the object at length. He said it was something he has never seen before.

Republican Roundtable Luncheon At Orange Inn; Wilson to Speak

Charles Brooks Lauded By Monroe Republican Committee

The Town of Monroe Republican Committee had its annual organizational meeting September 18. Charles Brooks Chairman stated to the Committee that he would not be a candidate for reelection. He submitted the name of Alex N. Smith, Jr. as Chairman, and Mr. Smith was unanimously elected to that post.

Albert Mishkin was unanimously elected to the post of Executive Committee Member.

unanimously resolved as follows:

WHEREAS, Charles Brooks has faithfully served the Republican Party in the Town of Monroe, in one capacity or another, for forty years, the Town of Monroe Republican Committee gratefully acknowledges the past service and sacrifices of Charles Brooks and does. on behalf of all Republicans of the Town of Monroe, give its heartfelt thanks for the past efforts of Mr. Brooks and does further respectfully request that he continue to do so.

That only those of us involved with the intricacies of government can fully appreciate the work that Charles Brooks has done for political government during those forty years.

Ludlam Opens Campaign

James E. Ludlam, Jr., Republican candidate for Supervisor of the Town of Monroe, formally opened his campaign at a Republican meeting, September 18. Mr. Ludlam, for his first plank, proposes that the Town of Monroe should have three assessors instead of one. "In a town which has over 6.000 parcels of land, three assessors would be much more preferable to one'

1. Three opinions and judgments are Lecturer Ruth Storms presented a better than one in order to get the best possible equitable assessment.

Lieut. Gov. Malcolm Wilson will speak at the Republican Roundtable luncheon at the Orange Inn, October 8 at 12 noon it was announced today by William E. Doulin, county chair-

Wilson serves as assemblyman for 20 years from Westchester County before his election as Lieutenant Governor in 1958. He was re-elected in the 1962 election. He is a graduate of Fordham College and Fordham Law School and has been awarded honorary degrees by Alfred University, Brooklyn Law School, Canisius College, Fordham University, Pac College, St. Bonaventure University and Siena College.

The New York State Society of News-On motion of John Crozier, it was paper Editors accorded him its John Peter Zenger award "in recognition of his service to the Cause of Freedom of the Press and the People's Right to Know" in 1957.

It is expected that his audience on Oct. 8 will include all the Republican candidates.

Brush Hopes Residents Have Good Memories; Running For Councilman

I hope the citizens of the town of Woodbury have good memories.

Last year I went on record as being against the Town of Woodbury giving water to industries out side our water districts.

At that time I spent a lot of time questioning members of the Town Board on this issue. I also wrote several letters to our various newspapers in this locality. I am glad to see that some of the town beard members have come around to my way of thinking. Now is the time to come out against these things, there is an election coming up.

I am running for councilman of the town of Woodbury as a Conservative Party candidate. I would like to take this opportunity to ask the people of the town of Woodbury to vote for me so I can continue to question any matter which I helieve would not benefit our
