Dear Maj. L. L. Luntanilla,

My name is [REDACTED]

I am thirteen years old and live in
Park Meadows (housing plan). I spotted
a U.F.O. to the north of me. I do not
know the exact day but it was the
first week of November at nine o'clock.
When I was standing in my driveway
I noticed in the sky a ring of light.
This object was orbiting above some
point on the ground as it looked to
me. The object had a ring of rotating
light in the middle and had a plate
on the top and bottom. I lost sight
of it 10 minutes later. My friend,
reported to me that some lady
who lives on the hill of our plan,

said that an object of similar description
landed on the dirt road behind the
place. This is all of my information
on that object.

sketch ↑

I am interested in aeronautics and
I know of no design of earthly ^{aircraft} ~~air~~
like to that

About a week before I spotted this
U.F.O., my mother also spotted one hovering
over a diner at tree-top altitude.

(DINER: Barney's Place, Hermine - West Newton
Rd.) This saucer had similar description
to the sketch above. But I included
another sketch of my mother's description.

My Mother spotted this about one
week earlier than I spotted mine at
approximately 10:20 P.M. Please send
me a letter on your ~~the~~ conclusions. This
is all of the information I have to date.

Yours truly,

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I was standing in my driveway. Looking to the northern horizon I saw the object. I watched it as it moved in a elliptical orbit, it moved slowly as it appeared to me at a distance of about 1 mile. I stood and observed what it was doing. I called my mother, who was in our cellar, I pointed the object out in the sky and she said she saw it. She watched it for about a minute then my mother went indoors. I stayed out and watched the object. Then it just disappeared as if ~~the~~ the pilot had turned off the lights. This was the last I saw of it.
