Dear Sirs:

One morning on the morning of Feb. 4 on Friday I was sleeping. My brother said he heard something downstairs. So I got up and I went downstairs the stove timer was on. I could'nt have been on because I had turned the stove off that afternoon.

I went downstairs turned off the stove and something caught my eye as I passed the window. The UFO made me look right into it for a while. The UFO was gray or silver in color. It was holding me and I felt faint. The object moved back and forth four times and then headed toward the west and disappeared. The UFO was nothing like I had ever seen before.

I reported my UFO to Dobbins Air Force Base in Marietta, Georgia and the man that I talked to took my name my telephone number and said he would send someone to talk to me. I never heard from them again. I read in Reader's Digest last Night in the May Issue about Your research you people are doing. So I thought I would send you the information myself rather than let Dobbins Air Force Base I really don't think they believe me.

Please right back and tell me what you think of what I saw. I know that it was some flying object. It moved back and forth four times. On the other sheet of paper I have drawn what I saw.

Yours Truly,
[REDACTED]

It moved from west to east 3 times then went away.
I was looking at it then it was gone. (disappeared)

15. Did the object move behind something at any time, particularly a cloud?

(Circle One):

Yes

Don't Know.

IF you answered YES, then tell what

it moved behind:

it moved behind a tree - it went behind it and then out from behind it

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One):

Yes

No

Don't Know.

IF you answered YES, then tell what

in front of:

17. Tell in a few words the following things about the object:

- a. Sound humming real low - kept me looking at it
b. Color brighter than star (real light yellowish)

18. We wish to know the angular size. Hold a match stick at arm's length in-line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

The only part covered would be the match head.
It wouldn't have covered it except match head itself. It wouldn't have affected UFO.
Just a speck the match would be over the UFO.

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The object drew me in to look at it. I turned
 (buzzer) the stove off the day before (after midnight)
 (Feb 4) and my brother came in my room and
 told me he heard something downstairs. I went
 downstairs and turned the buzzer on the stove off.
 I looked out the window because you can't go in the
 kitchen without looking out the window and I saw
 it. I turned the stove off. It was still there still
 I looked at it, it drew me in it looking at it.
 then it moved back and forth and was gone.
 I got sick I nearly fainted I had to sit down.
 I told my family, my ^(friends) people at school, and
 (AFB) Debbie and everyone thought I was nuts, I really
 did see this. It made me faint nearly within
 seconds, it was nothing like I had ever seen before.

Please write back and tell me how the ^{evaluation} ~~evaluation~~
 came out.

It was like the thing wanted Thank You
 me to come downstairs to 

see it.
