It was about 1:30 at night, me an my wife were in bed talking, all of a sudden we heard a noise coming from above our apt. We live upstairs. The object stop, ~~first~~ at our window, flashing a bright light, as though it was lowering. Then making a spinning sound and giving off a lot of smoke. So I ran down stairs to get a better look, but when I got there it was gone from sight, the light, sound, but the sky was full of smoke. In a few minutes the smoke cleared up.

SUBJECT: FLYING OBJECT

FROM: Mr. and Mrs. [redacted]

1. Mr. [redacted] stated he was hesitant to tell anyone about what he saw and heard until he read in the paper about the flying objects as reportedly seen by a group of people in Michigan last week.

2. "We were laying back on the bed watching the late show about 1 A.M. We heard this noise coming from above. The brightness of the lights lit up the whole apartment so fast. Nothing struck our apartment, but object continued to hover just above our window. The flashing lights were white and smokey, lots of smoke I would say. Not a howl, more like 'yen, yen! yen'. A different repeating sound from whirling helicopter, and all the time just above our window. It was blinking the brightest lights, white smokey color. My wife and I both jumped up to look out. So much smoke all around object and flashing lights. I pulled on my pants and when I got down the steps the outside air was still full of smoke. Object seemed to have gone straight up. Would guess the object was about five feet across and enveloped in smoke. No one else in the apartment saw or heard the object."

Analysis of Australian UFO Photographs

Hq USAF (SAFOICC)

1. Photo analysis has been accomplished on the attached photographs. A positive identification or description of the UFO is not possible with the photographic information available and without the original negatives. However, there are several comments which may prove relevant to the analysis.

a. The image does not appear to be the result of any processing effect.

b. It appears that the shutter speed used was considerably longer than the stated $\frac{1}{2}$ second. The distance covered by the vehicles during the time of exposure, as indicated by their light tracks, is much too high to have occurred in $\frac{1}{2}$ second. In fact, a speed far in excess of 100 mph would be indicated by a $\frac{1}{2}$ second exposure time. Speed calculations for the vehicles were made using an average distance of 80 feet between light poles. Had more exposures been available and had the image been more clearly defined, a broad approximation of rate of movement could probably have been derived.

c. It is noted that there is no reflection of the bright image on the water although it was stated to be only 20 feet above the water. The reflections of the street lights are quite evident. It is possible that some obstruction in the foreground could have blocked the view of a reflection from the image.

d. No measurements are possible due to the halation of the bright image.

2. Since there is no indication of threat to the security of the United States, it is felt that additional investigation into these photographs of alleged UFOs is not in the best interest of Department of Defense funds. Therefore, no further attempt will be made to evaluate the cause of the image on the attached photographs.

13 year old

Dear Sirs,

My name is [redacted] and I'm 13. I know you get many letters, but I'd appreciate it if you read this one. Two weeks ago Sunday night, Debbie ~~Dean~~ Denman looked out her window and saw "something". She drew a picture of it (enclosed) and showed it to her dad. The next day it was on the news. She must have seen it, or else she couldn't draw a picture of it. She drew it before it was on the news and decribed it. I think your doing a great job investigating and I know your being pressed for information, in fact your given out as much as you can! but I'd appreciate it if you could send a letter or something. By the way, what do you think of a Group called C.O.A.P. (Chicago. Observers. of Air. Phenamona) that's me and my boyfriends. Our aim is to get "proof" of U.F.O's and we try to stop quacks sending in ~~F~~ prank letters.

Mr [redacted] of WHIO called on 2 Mar 66. Does not want to report a UFO sighting, however was interested if we had any reports at approximately 145am, 2 Mar 66. He saw a light at low altitude, similar to aircraft, however, he did not hear any noise, it later turned red but he still did not here any noise, observed for five minutes, light was traveling east. If we have any reports at that time in the next couple of days would we please give a call - 848-4230, was just kind of interested to know if anyone else noticed it. (Sgt Moody later remarked that it was probably an aircraft).

The woman from Route 101 reported the "huge red ball" north of Clyde and traveling west. Mrs. Mason said she saw the object skimming over the tops of buildings south of Clyde, traveling east. She said it was just beyond the high school as it passed.

Mrs. Mason compared the size of the strange object to the village water tank. "It was red and it was huge," noted Mrs. Mason. She spotted the object when she let her eyes follow what looked like a falling star and suddenly there was the red ball. Mrs. Mason attempted to keep the moving object in sight as it traveled.

Both women reportedly stated the red ball just disappeared.

During the past year and a half I have kept an nightly watch out for U.F.O's I feel that I am capable of distinguishing a moving star or meteorite from a U.F.O's. I assure you that this is no kooish prank, and because of my interest in these phenomena, I would not waste your time and my time making up false stories.

From Australia to Michigan, a flurry of eerie UFO sightings

Call them what you will: flying saucers, Unidentified Flying Objects (UFOs), optical illusions, or the first symptoms of the silly season. They are back again—and seen by more people than ever before. Some are greenish and iridescent, like the mystery thing that swooped down over Perth, Australia several weeks ago (*left and below*). Others are football-shaped and aglow with pulsating lights. Last week the mani-

8:00 PM TO 8:02 PM, I IMMEDIATELY OBSERVED THE TIME.
AT APPROXIMATELY THE SAME TIME I HAD TO WATCH THE ROAD
AHEAD OF I, DATE 3-20-66. FIRST ~~my~~ I WAS HEADING SOUTH
ON I-35 TOWARD OLATHE KANSAS AT A SPEED OF 75 MPH.
THE STARS WERE BRIGHT, "VERY CLEAR NIGHT." I LOVE THE
STARS AND PARTICULARLY I LIKE TO OBSERVE. THEN 8:00 PM TO 8:02 PM
A BRIGHT OBJECT DEVELOPED IN FRONT OF I. AT FIRST WAS A
FAST FLASH OF LIGHT THEN HELD IT'S INTENSITY FOR 1 TO 3 MIN'S,
THEN BECAME MORE INTENSE IN LIGHT AND SIZE. AT FIRST
I THOUGHT IT WAS A FALLING STAR, I IMMEDIATELY ~~I~~ KNEW
IT WASN'T, A FALLING STAR AS I HAVE OBSERVED, THEY
HAVE SOME SORT OF TAIL PLUS LOSE INTENSITY AS THEY FALL
IT, "UFO, PHENOMENA," BECAME BIGGER IN SIZE, AS THOUGH IT WAS
COMEING TOWARD I, FROM THE SOUTH TOWARD NORTH. THEN AS
I WAS AT A DISTANCE OF APPX, "GIVE OR TAKE", SOME MILES, 5-TO 10
MILES IT STOPPED IN INTENSITY AND SIZE, HELD IT PLACE., AS I
OBSERVED THIS OBJECT IT CHANGED COLORS FROM WHITE, "INTENSE
WHITE", TO BLUE, TO LIGHT GREEN, TO MED. RED, ORANGE, BACK TO
WHITE, THEN AS I CONTINUED TOWARD THIS OBJECT AN SLOWED
DOWN AND OBSERVED MORE, IT BEGANE TO DECREASE IN SIZE,
THEN IT WAS AS BLACK AS THOUGH NOTHING WAS, OR HAD BEEN
THEIR AT ALL, IN OTHER WORDS, IT DISAPPEARED, AS FAST AS
IT HAD COME. I [redacted] GIVE YOU PERMISSION

REMARKS:

Wed. March 23 1966

On this date I went to [redacted] and spoke to Mr [redacted] and Mr [redacted] both of the chemistry Dept. They said they would check with several students while I waited. A short time later they came in with name of [redacted], age 18 of 141 North Ave [redacted] and I then spoke to this boy. He said that he and several other boys, not in Staples were sending up balloons with flares attached. He said that I should speak to William Eyler of 5 Yankee Hill Rd., Westport as he was the head of this group of boys. At 3:30 PM I spoke to [redacted], age 19 at his home at 5 Yankee Hill along with his mother. He said that he and [redacted], and [redacted] had been buying surpluss weather balloons in NYC and filling them with Hydrogen gas and attaching a flare with a 2½ minute fuse and sending them aloft during the evenings. He had one unused one in his cellar which he gave to me. They were paying $1.50 apiece for them. The flares were purchased at Barkers and the fuses were bought at the hobby shop. The bottled gas was purchased at the Conn. Gas Co. in Bpt. The original baldonn sent up was just an experiment but when they ~~xxx~~ read in the paper about the unknown object in the sky they decided to keep sending them up. They were told to stop sending these up and told that a warrant may be issued for them.

Dear Major Quintanilla:

The photos inclosed belong to Life and were lent to one of our people by one of theirs as a personal favor with this stipulation - we must return them quickly.

At the same time, we are still committed to Congress to analyze these photos.

Would you make copies, return the originals (which are really copies of the originals) as quickly as possible, and use your copies for your analysis.

Hopefully, Klass's theories, publicized lately, can explain these photos?

An hour after the sighting, a second object was seen (of the same shape) going from West to North-east. It travelled at a high rate of speed and suddenly disappeared. The object seen in the summer of 1956 in Tarara Beach, Cuba was of the exact, same shape. That time we saw it clearly. It was about 100 feet off the sea and stopped in the air also. This object was about 200 yards away from the house and came closer until it passed over us, no more than 80 feet above us. No sound was heard but a slow whistle or whine and nothing could be seen except a bright ball of light. The rays of light which looked like whiskers moved from side to side all the time, and sometimes ~~criss-cross~~ criss-crossing each other. My mother and aunt were witnesses.
