The reason I have not reparted this

phenomeneous the I had no reason to do so

until I read the special essue of "Leoh" magazine

on flying saucere and noted that there was

an arganyation where such an incident could be

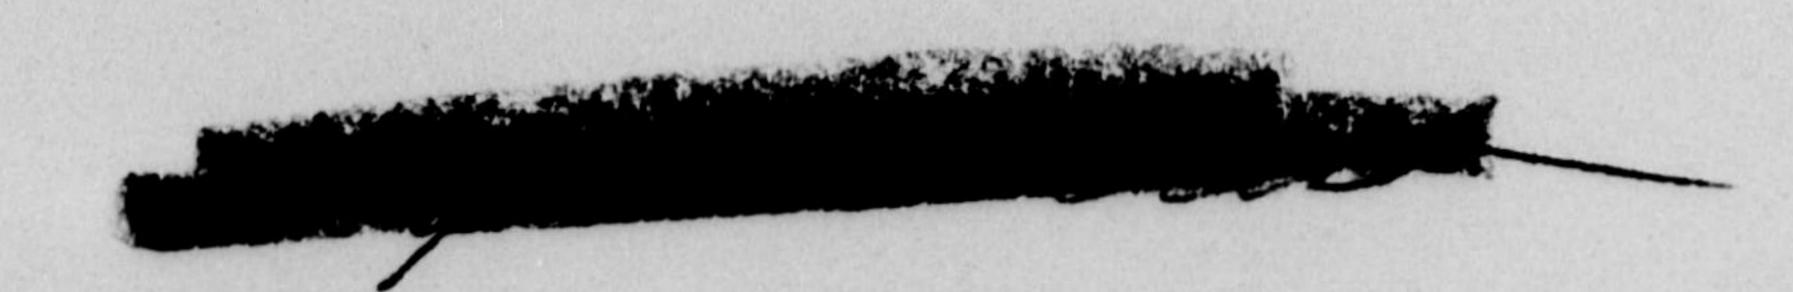

reported. I wrote to Seymour-Johnson Air Force

Base in nearly Goedsbord MC and was took that

this form FTD 164 was no longer used.

enfarcement personnel - what actual good would that clo? The general consenses of apinion is that people who report such things are suffering from hallucinations or an over acture imagination

I consider myself to we a practical mended person. I am employed by the Past Office Dyartment here in Paleigh where I have warhed for the past 14 years, except for 2/2 years in the army churry world war II. I consider myself to we truthful, and not given to emotionelizm.
