7 Apr 56. Amn Simer spoke with Colonel Crandall of McCoy AFB,
Fla. extension 8250 regarding UFO report from 4 Apr 56 (landing)
No one went out and investigated the area. The report was taken
completly over the phone. They did not go out and investigate
because the person calling in said there were no impressions of
any sort. Did not leave any trace on the ground. They did
not check for radio activity. The Road is sparsely traveled,
gravel road, farm road. Northing was on radar. No photos taken.
Person who deserved object sounded completely honest. He had
heard about weird sightings before but never believed in them.
He does nortw though. Didn't check with the Sheriff as to reliability.
There were no other witnesses.
