U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?	2. Time of day: 4 45 Hour Minutes
Day April 1966 Month Year	(Circle One): A.M. or P.M.
3. Time Zone: (Circle One): a. Eastern Central c. Mountain d. Pacific e. Other	(Circle One): a. Daylight Saving (b) Standard
4. Where were you when you saw the object?	
Along Stra South of De Nearost Postal Address	City or Town State or County
5. How long was object in sight? (Total Duration)	Hours Minutes Seconds
(a. Certain c.	Not very sure
	Just a guess
5.1 How was time in sight determined? Bulova	Accident which with
5.1 How was time in sight determined! Durive	accurrent von
5.2 Was object in sight continuously? Yes	<u></u>
6. What was the condition of the sky?	
DAY	IGHT (4/
a. Bright	Bright except for The portion of the suf
b. Cloudy b.	Bright except for the portion of the sky Cloudy that had about correspon
7. IF you saw the object during DAYLIGHT, where was	
(Circle One): a. In front of you	To your left
(Circle One): a. In front of you d. b. In back of you e.	
c. To your right f.	To your left Overhead Don't remember

8. IF you saw the object at NIGHT, what did you	notice concerning the STARS and MOON?
8.1 STARS (Circle One):	8.2 MOON (Circle One):
a. None 60 A few c. Many d. Don't remember	Bright moonlight or bright pre-dawn sunlight b. Dull moonlight c. No moonlight — pitch dark d. Don't remember
9. What were the weather conditions at the time y	ou saw the object?
CLOUDS (Circle One): (a) Clear sky with cloud coverage sky b. Hazy in eastern portion of the sky	
c. Scattered clouds d. Thick or heavy clouds	c. Moderate or heavy rain d. Snow
	e. Don't remember
10. The object appeared: (Circle One): a. Solid b. Transparent c. Vapor (Circle One): a. Solid e. Don't rement	mber
	bout the same on't know
12. The edges of the object were:	
(Circle One): a. Fuzzy or blurred b. Like a bright star c. Sharply outlined d. Don't remember	e. Other
13. Did the object:	(Circle One for each question)
a. Appear to stand still at any time? b. Suddenly speed up and rush away at any c. Break up into parts or explode? d. Give off smoke? e. Change brightness? f. Change shape? g. Flash or flicker? Flicker slight. h. Disappear and reappear?	Yes No Don't know

14. Did the object disappear while you were watching it? If so, how?
15. Did the object move behind something at any time, particularly a cloud?
(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind:
16. Did the object move in front of something at any time, particularly a cloud?
(Circle One): Yes No Don't Know. IF you answered YES, then tell what in front of: It was noticed 4 observed between myself and the
cloud coverage in the eastern portion of the sky
17. Tell in a few words the following things about the object:
a. Sound Mine b. Color white light
b. Color White 11930
18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head? Probably all of it.
19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

	the object was?

f. Other 24. IF you were MOVING IN AN AUTOMOBILE or other value. 24.1 What direction were you moving? (Circle One) a. North b. Northeast 24.2 How fast were you moving? 24.3 Did you stop at any time while you were looking. (Circle One) 25. Did you observe the object through any of the follow. a. Eyeglasses b. Sun glasses Yes No	g. Other stationary over gen country vehicle at the time, then complete the following questions: (e) South (f) Southwest (h) Northwest miles per hour. g at the object? ing? e. Binoculars Yes No			

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass where you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

30.	Have you ever seen this, or a similar object before. If so give date or dates and location.
31.	Was anyone else with you at the time you saw the object? (Circle One) 31.1 IF you answered YES, did they see the object too? (Circle One) Yes No
	31.1 IF you answered YES, did they see the object too? (Circle One) No 31.2 Please list their names and addresses: I-1 N - USN
	H. Diverse LPHS San Francisco, Calif. 96601
32.	Please give the following information about yourself:
	NAME
	ADDRESS Drive North Little Rock Zone State
	TELEPHONE NUMBER SEX 117
	Indicate any additional information about yourself, including any special experience, which might be pertinent.
	Geologist - USDA, Soil Conservation Service Little Rock, Arkansac
	3 years experience as crypto-analyst in Army Security Agency 1952-55, with security clearances accordingly.
33	. When and to whom did you report that you had seen the object?
	Day Month Year
	U. S. Air Firce Base, Jackson ville, Ark.

34. Date you completed this questionnaire:

Day Month Your

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I believe I gave most of the essential details in my letter to the Air Force which was forwarded to you from the Jackson ville Air Force Base.

Dear Ma

Reference your unidentified observation of 12 April 1966. The information in your letter of 25 May 1966 was not sufficient for evaluation. Request you complete the attached FTD Form 164 and return it in the envelope provided.

We wish to thank you for reporting your observation to the Air Force.

Sincerely,

HECTOR QUINTANILLA, Jr, Major, USAF

Chief, Project Blue Book

U. F. O. Investigations Division United States Air Force Jacksonville Air Force Base Arkansas

Gentlemen:

I would like to report the tentative sighting of a flying unidentified object at approximately 4:45 A.M. on the morning of April 12, 1966, near Tichnor, Arkansas. We first saw the object while driving southward from Dewitt on State Highway 130 between 4:45 and 5:00 A.M. Later in the morning, about 6:30, it appeared to be stationary over (approximately) Section 18, Riw, T65 - approximately 91°07' Longitude and 34°07' Latitude.

I am not reporting this as a hoax or for any type of publicity or recognition. Insofar as I know, this should be considered as a reliable source of information. I have been working for the Soil Conservation Service, USDA, as a geologist for 8 years. If you wish to check further, I was in Army Intelligence (ASA) from 1952 until 1955. My serial number was RA14439404. My son, U.S. Navy, serial number 350 78 25, was with me at the time and made the same observations.

We were on our way to LaGrue Bayou for a turkey hunt, and we were both very sober. Driving southward and looking eastward there was a solid cloud cover over that portion of the sky. I suppose the clouds were cirrocumulus or stratocumulus clouds in a relatively thin, but complete, blanket. Strangely enough, it looked as if there was a bright star between the ground and the cloud cover, almost as high as the clouds. The cloud blanket was very high, and the atmosphere was very clear between the ground and the clouds. We were amazed, the cloud coverage would have obscured the vision of any star beyond the clouds. Later on, when we noticed it again at about 6:30 A.M. it was backed by a smaller separate cirrus cloud. The main body of the cloud coverage had broken up by that time.

S.F. Selection for the selection of the

need more wife to livetion of nighting from It was bright like a star or a light, but too far away to notice any sort of a shape, and the light from the object was strong and steady. After the sun rose I did not see it again. The light from the object seemed to be somewhat stronger than the light reflected by Venus. The object appeared to be stationary each time we saw it. Had it not been for the cloud coverage behind it, I probably would have dismissed it as an unusually bright star or planet.

Princeton. However, I live in North Little Rock, Arkansas, and would be glad to answer any questions that you may have about this incedent. But please - No publicity. I have no idea of the correct way to present this case to you through normal procedure, so I have taken the liberty to report it in this fashion. I do feel that the incedent was odd enough to justify reporting it.

U.F.O. Investigations Division United States Air Force Jacksonville Air Force Base Arkansas
