U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass where you last saw the object.

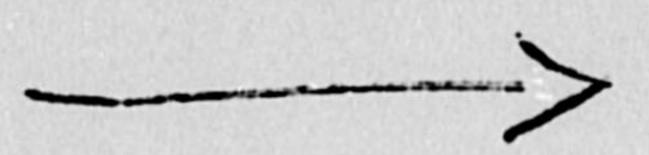

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? <u>about 15</u>

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

Public Information Officer, I would like to request some information on some strange objects the sew in the sky last month on April 23 vod about 9:00 12.00. I can explain them only as large mist, formations outlined by a V-formation of white fairth glaving misses. They seemed to be about 2 miles up and much larger the planes. There was no nuce infushed and they were I would say the saw about thenty of them and they were trucking (send 164)

from south to math, except we did see one going from west to last. I have wead that there are such things as "morn hinds" but it didn't give a cles cription of the phenomena. Since what we saw were mist, V-phapes I thought malphe this land he an eliphantin. We would very much like to hear from you as to what they chald possible he.
