~~██████████~~
~~██████████~~
Dayton, Ohio 45430

Dear ~~██████████~~,

I have reviewed the information which you provided on your observation of 12 June 1966. We feel that the star Altair was the probable cause of your sighting. Altair was on an azimuth of 100 degrees at an elevation of 25 degrees at the time of your sighting. Because of the stationary position and length of observation, Altair seems to be the probable stimulus for your observation.

page 300-301
The attached extract from Light & Colour in the Open Air, by M. Minnaert should explain why different stars appear to change their colors.

I hope you found the material which we forwarded to you on 28 June interesting. If you need further information, please feel free to write and ask us. Thank you for reporting your observation to the Air Force.

Sincerely,

H
HECTOR QUINTANILLA, Jr, Major, USAF
Chief, Project Blue Book

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

12 June 1966
Day Month Year

2. Time of day: 2150 —
Hour Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

Nearest Postal Address

Lower Creek
City or Town

OHIO
State or County

5. How long was object in sight? (Total Duration)

____ 30 +
Hours Minutes Seconds

a. Certain

b. Fairly certain

c. Not very sure

d. Just a guess

5.1 How was time in sight determined? _____

5.2 Was object in sight continuously? Yes ☒ No _____

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

NIGHT
a. Bright
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right

d. To your left
e. Overhead
f. Don't remember

N/A

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):

- a. None
- ☒ b. A few
- c. Many
- d. Don't remember

8.2 MOON (Circle One):

- a. Bright moonlight
- b. Dull moonlight
- c. No moonlight - pitch dark
- ☒ d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS (Circle One):

- ☒ a. Clear sky
- b. Hazy
- c. Scattered clouds
- d. Thick or heavy clouds

WEATHER (Circle One):

- ☒ a. Dry
- b. Fog, mist, or light rain
- c. Moderate or heavy rain
- d. Snow
- e. Don't remember

10. The object appeared: (Circle One):

- a. Solid
- b. Transparent
- c. Vapor
- ☒ d. As a light
- e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? (Circle One):

- a. Brighter
- b. Dimmer
- ☒ c. About the same
- d. Don't know

11.1 Compare brightness to some common object:

LIKE A STAR

12. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - ☒ b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

c. Other _____

13. Did the object:

(Circle One for each question)

- | | | | |
|---|--------------------------------------|--------------------------|----------------------------------|
| a. Appear to stand still at any time? | ☒ Yes | ☐ No | ☐ Don't know |
| b. Suddenly speed up and rush away at any time? | ☒ Yes | ☐ No | ☐ Don't know |
| c. Break up into parts or explode? | ☒ Yes | ☐ No | ☐ Don't know |
| d. Give off smoke? | ☒ Yes | ☐ No | ☐ Don't know |
| e. Change brightness? | ☒ Yes | ☐ No | ☐ Don't know |
| f. Change shape? | ☒ Yes | ☐ No | ☐ Don't know |
| g. Flash or flicker? | ☒ Yes | ☐ No | ☐ Don't know |
| h. Disappear and reappear? | ☒ Yes | ☐ No | ☐ Don't know |

14. Did the object disappear while you were watching it? If so, how?

NO STILL IN VIEW WHEN REPORTED
TO AIR FORCE

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes ☒ No Don't Know. IF you answered YES, then tell what
it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes ☒ No Don't Know. IF you answered YES, then tell what
in front of: _____

17. Tell in a few words the following things about the object:

a. Sound NONE

b. Color WHITE - RED

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

$\frac{1}{2}$ as much

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One)

Yes

☒ No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One)

☒ Yes

No

IF you answered YES, then how far away would you say it was? LONG WAY

22. Where were you located when you saw the object?

(Circle One):

a. Inside a building

b. In a car

☒ c. Outdoors

d. In an airplane (type)

e. At sea

f. Other _____

23. Were you (Circle One)

a. ~~In the business section of a city?~~

☒ b. In the residential section of a city?

c. In open countryside?

d. Near an airfield?

e. Flying over a city?

f. Flying over open country?

g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

N/A

a. North

c. East

e. South

g. West

b. Northeast

d. Southeast

f. Southwest

h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One)

Yes

No

25. Did you observe the object through any of the following?

a. Eyeglasses

Yes

☒ No

e. Binoculars

Yes

☒ No

b. Sun glasses

Yes

☒ No

f. Telescope

Yes

☒ No

c. Windshield

Yes

☒ No

g. Theodolite

Yes

☒ No

d. Window glass

Yes

☒ No

h. Other _____

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

LOOK LIKE A STAR BUT WHEN IT CHANGED TO RED
I CAME INTO CALL. HAVEN'T EVER SEEN SUCH A
RED STAR.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

N/A

29. IF there was MORE THAN ONE object, then how many were there? ONE
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? (Circle One) Yes No

31.1 IF you answered YES, did they see the object too? (Circle One) Yes No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME

Last Name

First Name

Middle Name

ADDRESS

Street

City

Zone

State

TELEPHONE NUMBER

AGE

SEX

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

Day

Month

Year

FTD DUTY OFFICER

No Case Info only

Summer 66
Rosville, Ga.

Proposed reply to letter from [REDACTED], 21 March 1967

Dear Mr. [REDACTED]

Reference your recent letter reporting an unidentified flying object observation of last summer. At this late date, it would be extremely difficult to make a comprehensive evaluation of the sighting. It is most important that we receive the reports at the earliest possible date.

The only possible explanation that I could give at this time would be that the sighting has the characteristics of an aircraft refueling mission. Such refueling exercises have been responsible for numerous UFO sightings in the past.

Inclosed is some information which should be of interest.

To old to investigate

Jun 66

Ploquesmine, La

Proposed reply to letter from [REDACTED], 9 February 1967

Dear [REDACTED]:

Please excuse our delay in answering your letter of 9 February 1967 in which you reported your observation to the Air Force. Without essential data such as angular velocity, flight characteristics, duration of the sighting, etc., a comprehensive evaluation cannot be undertaken. The form you sent to our office was of a June 1966 observation. If you had reported your June 1966 observation to the nearest Air Force Base, a detailed investigation would have been undertaken. It is extremely difficult to investigate a sighting which is more than a month or so old.

Thank you for reporting your observation to the Air Force.

2 Sforce 18 Apr 67

TDET/UFs official file copy

Dear Sirs:

Mar. 21, 1967

I do not remember exactly when I sighted the object, but I do remember that it was last summer.

My next door neighbor and I were camping out one night last summer. All of a sudden I noticed what looked like a very bright star which started at the horizon and began to move across the sky.

I knew something was funny because the object did not make any noise. We had my telescope out trying to look at it, but it was moving so fast to use the telescope. When it got directly over our heads, it looked as if it was in a triangle in shape. I also noticed that it had two small, (what appeared to be glowing stars) objects following close behind it. When they were directly over head the two small objects began to pick up speed and moved the larger object. After they vanished the larger object also. It all lasted about 5 min.

Thank You

P.S. Would you please read this and tell me what you think of it? I would also like you to send me your latest report on "Project Blue Book"

Thank You

JUNE 66

Perce

SAF-OICC/Mrs Cassel/bp/79079/21 Apr 67

APR 21 1967

Dear Mr. ~~XXXXXX~~:

Please excuse our delay in answering your letter in which you reported your observation to the Air Force.

Without essential data such as angular velocity, flight characteristics, duration of the sighting, etc., however a comprehensive evaluation cannot be undertaken. The form you sent to our office was of a June 1966 observation. If you had reported your observation to the nearest Air Force Base at the time, a detailed investigation would have been undertaken. It is extremely difficult to investigate a sighting which is more than a month or so old.

Thank you for reporting your observation to the Air Force. I have inclosed the 1967 report on Project Blue Book, the Air Force unidentified flying object program.

Sincerely,

GEORGE P. FREEMAN, JR.

Dear Sir AX,

What I have seen is true
Ploquemine,
La.

all details or for sure,
also on July of 65, I
saw a moving object, what
seemed to be a star moving
on a given course;
it was a bright ~~pink~~ silver
color and ~~was~~ was moving
from around the moon
coming down, ~~then~~ on then
it stopped and when sides
ways and moved on a
straight course to the southeast
and ~~then~~ went out of sight.

I have been seeing these things
for a good time now and
so now I ~~mean~~ want
to get some information

concerning your question on
this, also about a week
ago I saw another green
object like a fire ball
bright green in color, it
was traveling to the north
northeast I think but not
certain or sure, but it
was sighted for 3 minutes or
then it exploded without
any sound, so now

I have told you of every
thing I have seen concerning
these flying saucers I would
like you to see me
more about the question.

Thank you very much.

Form A

U. S. AIR FORCE TECHNICAL INFORMATION SHEET	
This questionnaire has been prepared so that you can give the U. S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes, and will be regarded as confidential material. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that, if it is deemed necessary, we may contact you for further details.	
1. When did you see the object? <u>SAD, JUNE 66</u> Day Month Year	2. Time of day: <u>9:00</u> Hour Minutes (Circle One): A.M. or <u>P.M.</u>
3. Time zone: (Circle One): a. Eastern b. Central c. Mountain d. Pacific <u>e. Other</u> (Circle One): <u>a.</u> Daylight Saving b. Standard	
4. Where did you see the object? <u>PLAQUEMINE, LA</u> Nearest Post Office City or Town State or Country Additional remarks: <u>IT WAS A GREEN COLOR</u>	
5. Estimate how long you saw the object. <u>20</u> Hours Minutes Seconds 5.1 Circle one of the following to indicate how certain you are of your answer to Question 5. <u>a.</u> Certain b. Fairly certain c. Not very sure d. Just a guess	
6. What was the condition of the sky? (Circle One): a. Bright daylight b. Dull daylight c. Bright twilight d. Just a trace of daylight <u>e. No trace of daylight</u> f. Don't remember	
7. IF you saw the object during DAYLIGHT, TWILIGHT, or DAWN, where was the SUN located as you looked at the object? (Circle One): a. In front of you b. In back of you <u>c. To your right</u> d. To your left e. Overhead f. Don't remember	

8. IF you saw the object at NIGHT, TWILIGHT, or DAWN, what did you notice concerning the STARS and MOON?

8.1 STARS (Circle One):
 a. None
☒ b. A few
 c. Many
 d. Don't remember

8.2 MOON (Circle One):
 a. Bright moonlight
☒ b. Dull moonlight
 c. No moonlight — pitch dark
 d. Don't remember

9. Was the object brighter than the background of the sky?
 (Circle One): ☒ a. Yes b. No c. Don't remember

10. IF it was BRIGHTER THAN the sky background, was the brightness like that of an automobile headlight?
 (Circle One) a. A mile or more away (a distant car)?
 b. Several blocks away?
 c. A block away?
 d. Several yards away?
☒ e. Other _____

11. Did the object:
 (Circle One for each question)

☒ a. Appear to stand still at any time?	☒ Yes	No	Don't Know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't Know
c. Break up into parts or explode?	Yes	No	Don't Know
d. Give off smoke?	Yes	No	Don't Know
e. Change brightness?	Yes	No	Don't Know
f. Change shape?	Yes	No	Don't Know
g. Flicker, throb, or pulsate?	Yes	No	Don't Know

12. Did the object move behind something at anytime, particularly a cloud?
 (Circle One): Yes ☒ No Don't Know. IF you answered YES, then tell what it moved behind: _____

13. Did the object move in front of something at anytime, particularly a cloud?
 (Circle One): Yes ☒ No Don't Know. IF you answered YES, then tell what it moved in front of: _____

14. Did the object appear: (Circle One): ☒ a. Solid? b. Transparent? c. Don't Know.

15. Did you observe the object through any of the following?

a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	☒ h. Other _____		

16. Tell in a few words the following things about the object.

a. Sound

no sound.

b. Color

green not round all the way but football shaped.

17. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

18. The edges of the object were:

- (Circle One):
- a. Fuzzy or blurred
 - b. Like a bright star
 - c. Sharply outlined
 - d. Don't remember

e. Other

like drawing above bright green glowing

19. IF there was MORE THAN ONE object, then how many were there?

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

20. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

only in one direction
west no other direction
was taken -

21. IF POSSIBLE, try to guess or estimate what the real size of the object was in its longest dimension.
30 feet, or more

22. How large did the object or objects appear as compared with one of the following objects held in the hand and at about arm's length?

(Circle One):

- a. Head of a pin
- b. Pea
- c. Dime
- d. Nickel
- e. Quarter
- f. Half dollar

- g. Silver dollar
- h. Baseball
- i. Grapefruit
- ☒ j. Basketball
- k. Other _____

22.1 (Circle One of the following to indicate how certain you are of your answer to Question 22.)

- ☒ a. Certain
- b. Fairly certain

- c. Not very sure
- d. Uncertain

23. How did the object or objects disappear from view?

like two get
or disappear but no sound
red light was not moving.

24. In order that you can give as clear a picture as possible of what you saw, we would like for you to imagine that you could construct the object that you saw. Of what type material would you make it? How large would it be, and what shape would it have? Describe in your own words a common object or objects which when placed up in the sky would give the same appearance as the object which you saw.

it ~~looked~~ looked like a
football in shape with on
one green light on top.
the light was not moving,
the object was of a bright

green like a glow -
i saw it about 10 minutes
and then it ~~disappeared~~ when
out of sight.

APPENDIX III ○ 265

Page 5

25. Where were you located when you saw the object? (Circle One): a. Inside a building b. In a car ☒ c. Outdoors d. In an airplane e. At sea f. Other _____	26. Were you (Circle One) a. In the business section of a city? ☒ b. In the residential section of a city? c. In open countryside? d. Flying near an airfield? e. Flying over a city? f. Flying over open country? g. Other _____
27. What were you doing at the time you saw the object, and how did you happen to notice it? <i>I was sitting outside on my front porch when it caught the object in sight.</i>	
28. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions: 28.1 What direction were you moving? (Circle One) a. North c. East e. South g. West b. Northeast d. Southeast f. Southwest h. Northwest 28.2 How fast were you moving? _____ miles per hour. 28.3 Did you stop at any time while you were looking at the object? (Circle One) Yes No	
29. What direction were you looking when you first saw the object? (Circle One) <i>not to sure</i> ☒ a. North c. East e. South g. West b. Northeast d. Southeast f. Southwest h. Northwest	
30. What direction were you looking when you last saw the object? (Circle One) a. North c. East e. South ☒ g. West b. Northeast d. Southeast f. Southwest h. Northwest	
31. If you are familiar with bearing terms (angular direction), try to estimate the number of degrees the object was from true North and also the number of degrees it was upward from the horizon (elevation). 31.1 When it first appeared: a. From true North _____ degrees. b. From horizon _____ degrees. <i>don't know</i> 31.2 When it disappeared: a. From true North _____ degrees. b. From horizon _____ degrees.	

32. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it.

33. In the following larger sketch place an "A" at the position the object was when you first saw it, and a "B" at its position when you last saw it. Refer to smaller sketch as an example of how to complete the larger sketch.
