PROJECT 10073 RECORD

| Broomall, Pennsylvania (1 Witness)  CONCLUSION  Possible (AIRCRAFT)  data presented to indicate object could NOT have been A/C   |
|--|
| Possible (AIRCRAFT)  data presented to indicate object could NOT have been A/C   |
|  |
|  |
| Observer noted light which was brighter and more orange than full moon when still low in the sky. Object appeared to have  |
| 3 windows. Object moved toward the south and gained altitude. Then it seemed to turn and move toward the east, disappearing from view behind trees. As object turned the shape and color |
| changed, also two red lights were observed.  |

Dear Miss

Reference your unidentified observation of 4 August 1966. The information in your letter was not sufficient for evaluation. Request you complete the attached FTD Form 164 and return it in the envelope provided.

We wish to thank you for reporting your observation to the Air Force.

Sincerely,

MECTOR QUINTANILLA, Jr, Major, USAF Chief, Project Blue Book

## U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

| 1. When did you see the object?  | 2. Time of day: Approx. 11 15 Minutes          |
|--|--|
| Thurs. 4 August 1966  Day Month Year   | (Circle One): A.M. or (P.M.)                   |
| 3. Time Zone:  (Circle One): a. Eastern b. Central c. Mountain d. Pacific e. Other | (Circle One): a. Daylight Saving b. Standard   |
| 4. Where were you when you saw the object?  Recrest Postal Address                 | City or Town  Penna  Penna  State or County    |
| 5. How long was object in sight? (Total Duration)                                  | Hours V Minutes Seconds                        |
| b. Fairly certain  5.1 How was time in sight determined?                           | Not very sure  Just a guess                    |
| 5.2 Was object in sight continuously? Yes _i                                       |  |
|  | NIGHT Bright Cloudy                            |
| 7. IF you saw the object during DAYLIGHT, where wa                                 | s the SUN located as you looked at the object? |
| (Circle One): a. In front of you   | To your left Overhead Don't remember           |

| 8. IF you saw the object at NIGHT, what did you n   | otice concerning the STARS and MOON? |
|---|--------------------------------------|
| 8.1 STARS (Circle One):   | 8.2 MOON (Circle One):               |
| a. None   | a. Bright moonlight                  |
| b. A few  | b. Dull moonlight                    |
| c. Many   | C. No moonlight - pitch dark         |
| d. Don't remember   | d. Don't remember                    |
| 9. What were the weather conditions at the time you CLOUDS (Circle One):  | veather (Circle One):                |
|   |                                      |
|   | i. Dry)                              |
|   | . Fog, mist, or light rain           |
|   | . Moderate or heavy rain             |
|   | I. Snow                              |
|   | Don't remember                       |
| 10. The object appeared: (Circle One):  a. Solid b. Transparent c. Vapor  One (Circle One):  a. Solid c. As a light e. Don't remember | or windows                           |
| b. Dimmer d. Don't lil.1 Compare brightness to some common object   | ut the same<br>'t know               |
| 12. The edges of the object were:   |                                      |
| (Circle One): a. Fuzzy or blurred  b. Like a bright star  c. Sharply outlined  d. Don't remember                                      | c. Other It had 3 windows            |
| 13. Did the object:   | (Circle One for each question)       |
| a. Appear to stand still at any time?   | (Yes) No Don't know                  |
| b. Suddenly speed up and rush away at any tim   |                                      |
| c. Break up into parts or explode?  | Yes (No) Don't know                  |
| d. Give off smoke?  | Yes (No) Don't know                  |
| e. Change brightness?   | (Yes) No Don't know                  |
| f. Change shape?  | (Yes) No Don't know                  |
| g. Flash or flicker?  | Yes (No) Don't know                  |
| h. Disappear and reappear?  | Yes No Don't know                    |
|   |                                      |

| 14. Did the object disappear while you were watching it? If so, how?  Yes. It moved toward the south and gained altitude.  Then it seemed to turn (the shape and color changed)  and moved toward the east, disappearing trom view  behind trees and out of range of sight from window.   |
|---|
| 15. Did the object move behind something at any time, particularly a cloud?   |
| (Circle One): (Yes) No Don't Know. IF you answered YES, then tell what it moved behind: It disappeared from my sight behind trees. I locked for it from the east window but it did not reappear, the original sighting was trong a west window time, particularly a cloud?  |
| Delivered VES then tell what  |
| (Circle One): Yes (No Don't Know. If you diswered 123, mention wild in front of:  |
