U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

30 (Day) 11 (Month) 1966 (Year)

2. Time of day: 5.00 and 45 (Hour / Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern, b. Central, c. Mountain, (d.) Pacific, e. Other _____

(Circle One): a. Daylight Saving, (b.) Standard

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) San Pedro (City or Town) California (State or County)

5. How long was object in sight? (Total Duration) 0 (Hours) 5 (Minutes) 10 (Seconds)

(a.) Certain
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? _____

5.2 Was object in sight continuously? Yes ____ No X

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a.) Bright
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you, b. In back of you, c. To your right, d. To your left, e. Overhead, f. Don't remember

FORM

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
(b.) A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
(b.) Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

(a.) Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

(a.) Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
(d.) As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

(a.) Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

about as bright as the moon, but smaller,

12. The edges of the object were:

(Circle One): (a.) Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	(Yes)	No	Don't know
b. Suddenly speed up and rush away at any time?	(Yes)	No	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	(Yes)	No	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	Yes	(No)	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

14. Did the object disappear while you were watching it? If so, how? yes, it slowly started to fade away.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

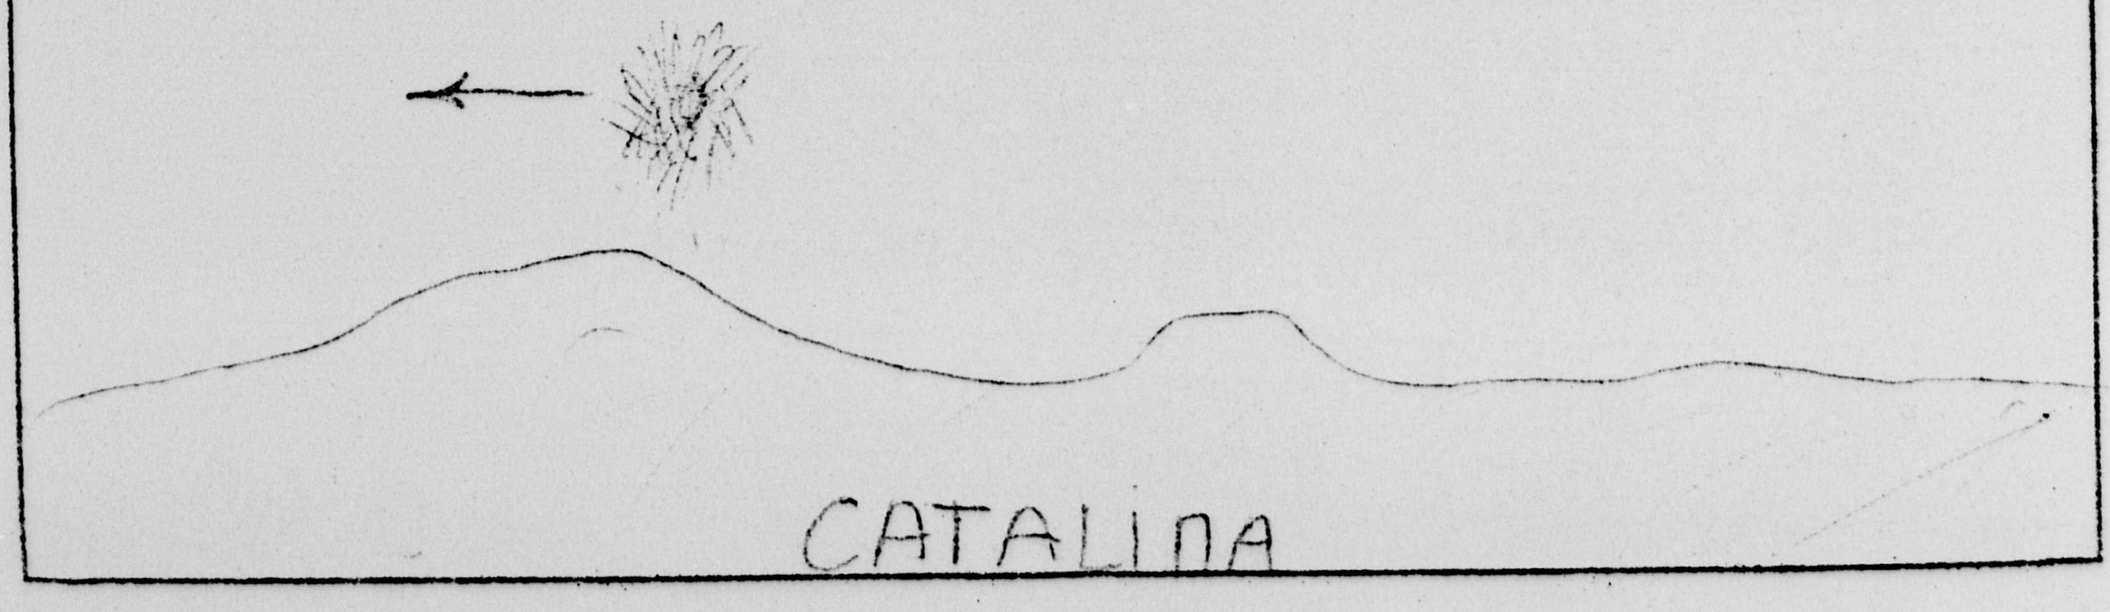
a. Sound none

b. Color It was white with a red center.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head? it covered the whole match head

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.



20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? 25

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c.) Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b.) In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

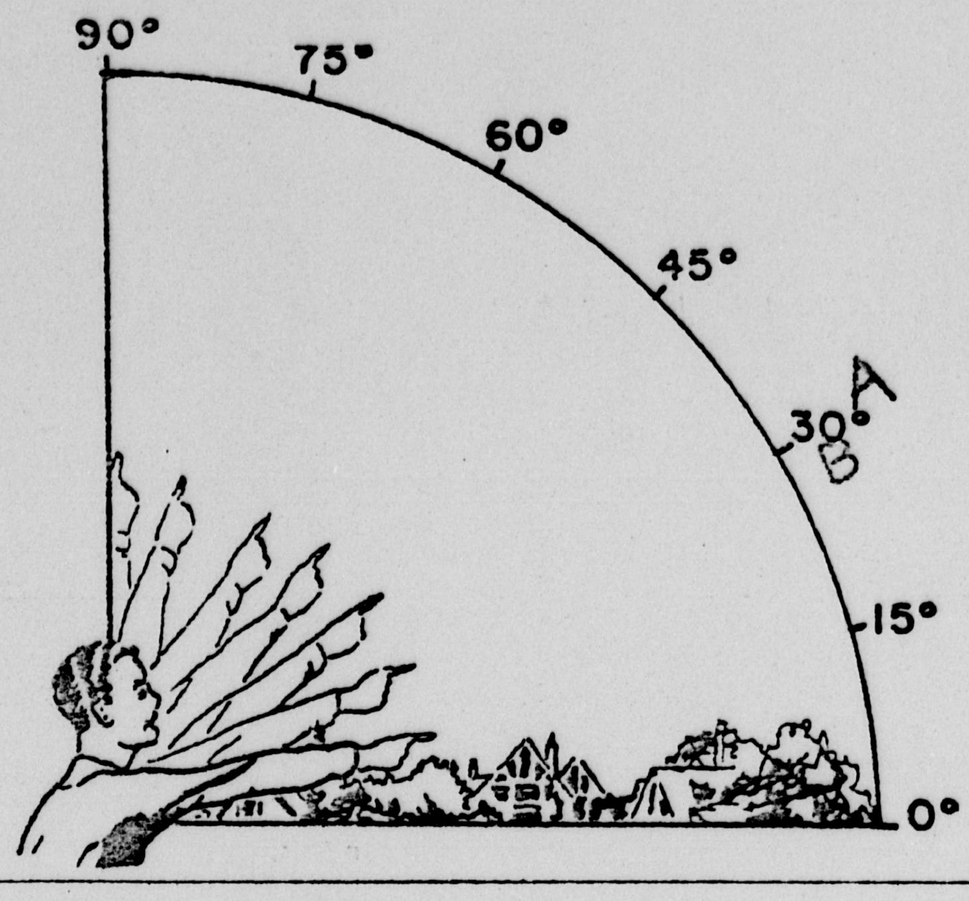
25. Did you observe the object through any of the following?

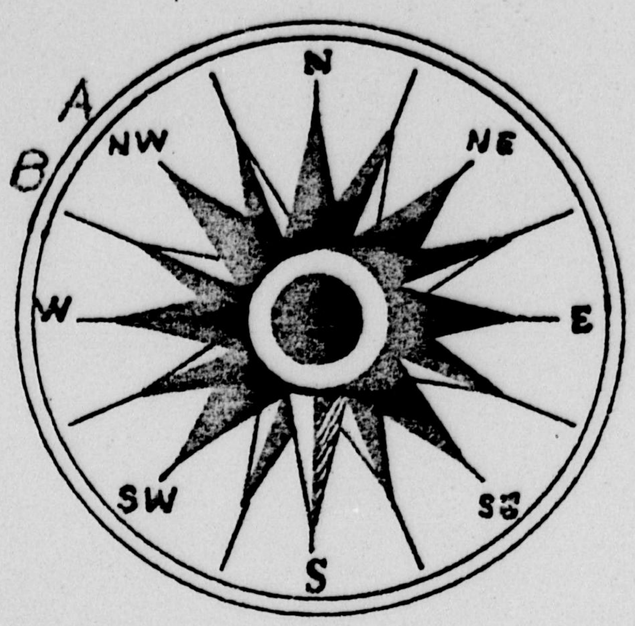
a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

a giant size red hot coal, with strong flood lights

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.





28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? NONE
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes No

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

My brother, [redacted]

32. Please give the following information about yourself:

Dears Sirs,

I have recieved your Project Blue Book. I and my brother, would like to tell you about the U.F.O. we have spotted. We spotted a big bright white light over Catalina, on November 30, 1966. The time was precisely 6:29 P.M.

We live right on the coast of California in a city called San Pedro. I know there is not any kind of star above Catalina from our new point. It was ~~of~~ 40° degrees above Avalon Bay, Catalina. Facing toward Catalina it would be at 11 o'clock, like they would say on 12 o'clock High. It was hovering about 1 mile high above the Island. It was hovering until an airplane came to 2 miles east of it. Then it disappeared to a little red glow, similar to a red hot coal. It was surrounded by a ring of smoke.

This is about all the information I could give you at this time.

I thank you for your time and cooperation.

Sincerely,

NICAP MASSACHUSETTS INVESTIGATING SUBCOMMITTEE

SUBJECT: UFO SIGHTING - Beverly, Massachusetts - 11/15/66

DATE: 18 December 1966

FROM: Raymond E. Fowler
Chairman: NICAP MASS SUBCOM

TO: NICAP
Washington, D.C.

cc: AFSC-FTD (TDETR)
Congressman W.H. Bates

ATTENTION: Richard Hall
Assistant Director

SIGHTING BACKGROUND:

I met Mr. Richard Symmes after lecturing to a group at the First Congregational Church, Swampscott, Massachusetts. Later I dispatched Investigator Gary Storey to interview him. Mr. Symmes filled out the standard NICAP UFO FORM and signed it. A copy is attached to this memo.

SIGHTING ACCOUNT:

Mr. Symmes and Mr. Durkee were hunting duck in a small boat off the coast of Marblehead. Looking over in the direction of Beverly, Mr. Symmes spotted two strange-looking objects seemingly hovering over the Beverly area about six miles away from them in the Northwest. Mr. Symmes alerted Mr. Durkee stating that what they were observing must be UFOs. They watched off and on for about 15 minutes while hunting and then while looking away, the objects apparently vanished. Mr. Symmes eliminated balloons or aircraft due to the shape and non-motion of the objects. He insisted that they were solid objects.

EVALUATION:

It is hard to say just what was observed. Neither observer saw the objects arrive or leave and they seemed to hover with no motion whatsoever. The wind was blowing at a good 20 knots, NE so clouds would have moved quite a distance in fifteen minutes. The lower object seemed to be shimmering while the smaller object above it seemed non-reflective. It is possible that some type of mirage was witnessed. In itself there is insufficient evidence to indicate that the report involves an authentic UFO. It is submitted for information purposes. It might serve as supplementary evidence if other reports are received for that time and date.

Respectfully submitted,
Raymond E. Fowler

Dear Sir:

About the same hour that the B-52 blew up at Stone Lake, Wis. I went out to let my police dog in and I noticed in the sky North by East a shiny red glowing object in the sky not very high above the tree line. It was moving back and forwards. I that it was my vision that caused the moving so I set my eye on the corner of my house and it seemed to be trying to hold steady in a wind.

Two or three years ago I noticed the same kind of object over my neighbors home a half a mile north of me. My neighbor [redacted] is an ex service Sargeant and a Member of the Communication workers Union a Communist riddled union. I have that he was a Communist. He doesn't send his children to Sunday school and he is not a church member.

It is my belief that they have used some kind of rays to explode the B 52.

Another fact is that my seeing the object over this house about 8:30 P.M. on Saturday and the B52 exploded around 7 P.M. Friday. Paul Olson works in Minnesota east of Duluth. He comes home Friday afternoon and goes back to work Sunday afternoon. So he was in the area at the time of the explosion.

Spot of paint on the sky was still there but it was gone.

Have they Mustard gravity?

Sincerely,

[redacted]

Dear Sirs,

On November twenty second at seven o'clock p.m. I was standing on the beach when I noticed what I thought were two 'stars'. These 'stars' were quivering in a horizontal motion. As I stood there watching these 'stars' one of them began to jump vertically and it came straight at me at a tremendous speed. When it seemed no more than a hundred or so yards away, I started running.

A few minutes later I was down on the beach again, but with some friends. One of the stars, the one which hadn't moved, moved straight up and out of sight. The star that had charged me was back in its original position but it was jumping all around. Farther south from where we were, another 'star' appeared but it didn't do much.

As a crowd gathered on the beach, the 'stars' did less and less jumping around. Finally, as the crowd was leaving, I noticed another 'star' coming in from the north at about the speed that a satellite appears to move at from earth. I called the crowd and pointed it out to them and immediately after this, the 'satellite' shot straight up at an believable speed and was out of sight in a fraction of a second.

After this, very little happened and, finally everyone, including me, left.

The 'stars' seemed to be flashing lights of red, blue, yellow, and green. There was no,

indeed, there was no sound at all. Enclosed is what the 'star' looked like to me at close range.

Sincerely,

[redacted]

P.S. I am fifteen years old and in the ninth grade. These objects were sighted over the Persian Gulf in front of our recreational center at Ras Tanura.

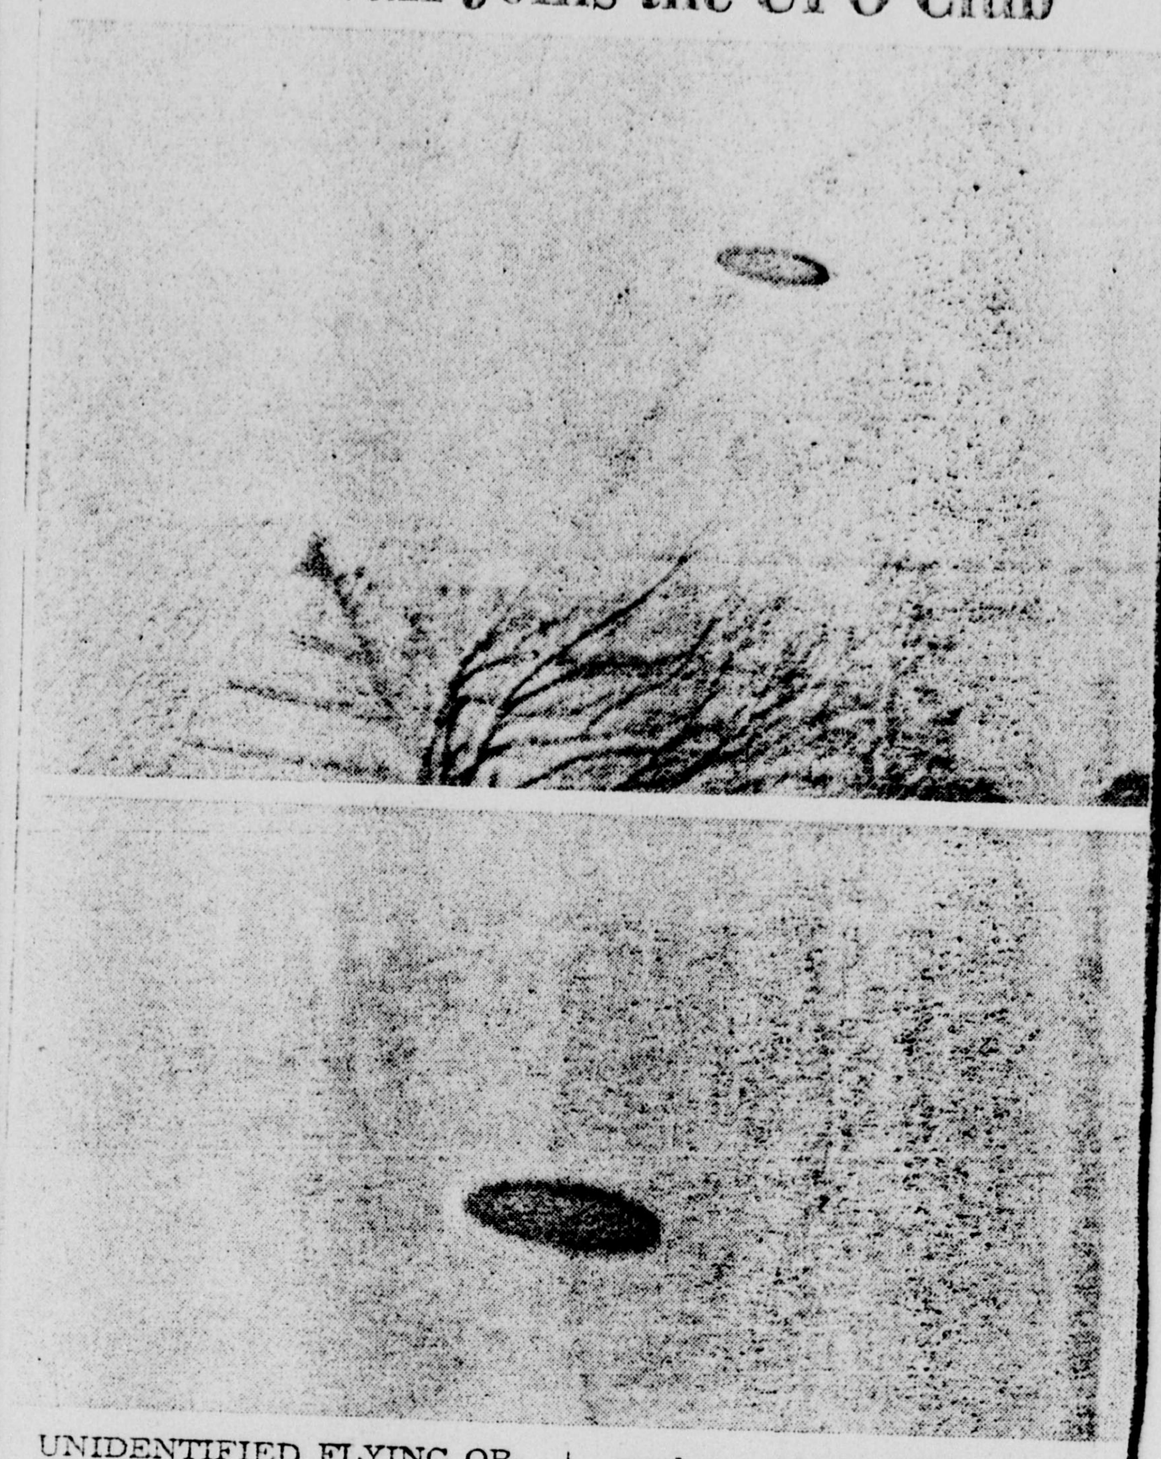
DEPENDING ON ANGLY SIS

Cornwall Joins the UFO Club



UNIDENTIFIED FLYING OBJECT PHOTOGRAPHED—Peter Kaemmerlen, 15, who lives off Wilson Place, Cornwall, is believed to be the first person in town to have sighted and photographed a UFO. Above is the proof, substantiated by Paul Wilson of Cedar Lane, who also saw the flying object. Top photo shows the disc approaching the Daniel Neal home on Wilson Place and the bottom is an enlargement. Peter told The Cornwall Local reporter that he was taking pictures with his Argus Instamatic camera and standing in a lot below the LeRoy Wilson home at 3:30 p.m. Friday when he was startled by a flying disc coming towards him from tre vicinity of the Hudson River. As it approached the Neal home it seemed to pause momentarily, long enough for him to merlen said the UFO appeared to be about 18 feet across, flying at a height of some 50 feet and was blueish gray in color, but did not glow as some of the flying saucers were reported to do where they were sighted in the Warwick and other areas. After he got his shot of the flying object he said it slowly turned south and then with incredible speed took off and disappeared over the Storm King Mountain horizon. The youth did not mention his experience to anyone until he developed the film in his darkroom and made prints of the UFO in the Cornwall Central High School darkroom, so that he would have photographic proof to show. Pete vows it was the real thing and not a garbage can lid tossed in the air, as some of his classmates jokingly charged.

I SIRST NOTICED IT IN THE NITE SKY BECAUSE IT WAS SO MUCH BRIGHTER THAN THE SURROUNDING STARS. I POINTED IT OUT TO MY PARENTS AND ASKED THEM IS THEY KNEW WHAT IT WOULD BE. THEY SAID "NO," BUT WERE CURIOUS OF IT BECAUSE OF ITS BRIGHTNESS. WE CONTINUED TO WATCH IT AND SUDDENLY IT MOVED TO ANOTHER POINT IN THE SKY, AND REMAINED THERE FOR SEVERAL SECONDS. THIS ACTION WAS REPEATED SEVERAL TIMES IN THE TEN MINUTES WE WATCHED IT BEFORE IT DISAPPEARED OVER THE HORIZON.

DURING THIS TIME WHEN IT MOVED ABOUT IT WOULD SOMETIMES MOVE VERY FAST, AND AT OTHER TIMES RELATIVELY SLOW. THE BRIGHTNESS OF IT ALSO CHANGED. SOMETIMES VERY BRIGHT, AND SOMETIMES QUITE DIM. BOTH OF THESE ACTIONS DID NOT SEEM TO HAVE ANY SET PATTERN.

BOTH MY PARENTS AND MYSELF ARE DESINEATELY SURE IT WAS NOT A CONVENTIONAL AIRCRAFT.

Dear Sirs,

On November twenty second at seven o'clock p.m. I was standing on the beach when I noticed what I thought were two 'stars'. These 'stars' were quivering in a horizontal motion. As I stood there watching these 'stars' one of them began to jump vertically and it came straight at me at a tremendous speed. When it seemed no more than a hundred or so yards away, I started running.

A few minutes later I was down on the beach again, but with some friends. One of the stars, the one which hadn't moved, moved straight up and out of sight. The star that had charged me was back in its original position, but it was jumping all around. Farther south from where we were, another 'star' appeared but it didn't do much.

As a crowd gathered on the beach, the 'stars' did less and less jumping around. Finally, as the crowd was leaving, I noticed another 'star' coming in from the north at about the speed that a satellite appears to move at from earth. I called ~~to~~ the crowd and pointed it out to them and immediately after this, the 'satellite' shot straight up at an believable speed and was out of sight in a fraction of a second.

After this, very little happened and, finally everyone, including me, left.

The 'stars' seemed to be flashing lights of red, blue, yellow, and green. There was no engine sound at all that ~~was~~ I could tell,
