Dear Mr. [REDACTED]

AUG 18 1967

I regret the delay in answering your correspondence; however, our present heavy workload has precluded an earlier reply.

Investigation revealed that you probably saw the star Capella; however, without an exact date, we are unable to identify positively what you observed. The description you submitted is consistent with that of an astronomical observation. Capella has, in the past, been responsible for numerous unidentified flying object (UFO) reports.

Thank you for reporting your observation to the Air Force; your interest is appreciated.

Proposed reply to [REDACTED] (Sighting February 1967)

Dear Mr. [REDACTED]:

Reference your recent correspondence requesting the Air Force evaluation on your February 1967 observation. I regret the delay in answering your initial correspondence; however, our present heavy workload has precluded an earlier reply.

Investigation revealed that you probably observed the star Capella; however, without an exact date, we are unable to positively identify what you observed. The description you submitted is consistent with that of an astronomical observation. Capella has, in the past, been responsible for numerous unidentified flying object (UFO) observations. Your case is being carried as insufficient data, since without a positive date, a definite conclusion is not possible.

Thank you for reporting your observation to the Air Force; your interest is appreciated.

Dear Sir,

I had the form you had sent me filled out. It was done by my sister's girlfriend Rita. She omitted one thing which I felt is very important. She claimed that every time a car passed the object is seemed to black out. She lives near the Wanague Reservoir, and near an Army Base.

I would very much like to thank you very much for sending me the useful information on your organization. It helped me very much on my project.

I would like to tell you that I made a model of a Flying Saucer. By the way I was wondering if you could send me another form - just in case.

By now. Thank You

Yours truly

Dear Mr. ~~W.P.~~

I recently asked you for some information concerning Project Blue Book and UFO's. The information sent to me was very interesting and very helpful. I am sent in the form which was sent to me. Have you yet decided what it is? If so let me know, I am very interested in the vertic.

As you should know by now I am very much interested in UFO's and I strongly believe in the existence of Flying Saucers. I am interested to the point that I want to publish my own Saucers Magazine.

I know you are extremely busy in your work, and I may be asking too much of you, but at least try to take time to listen. I have a plan as far as I know, no other editor of any other magazine has done. I want to set two sides of

sources righting, 1) the side of the people; 2) the side of the government. I will explain.

If I find any type of sources righting, in a magazine, paper, etc. I will send a copy to you. Then you will read it, evaluate, and send your verdict to me. I know this is asking quite a bit, almost impossible for a busy man like you.

If this is impossible for you to please let me know. If it can be done - Wow - need I say more. Whether you can do this favor for me (it is just a favor) or not, I will still think very highly of you.

Thank - You

Yours most sincerely,

~~XXXXXXXXXXXXXXXXXXXX~~

P.S. The name of the magazine is "Sources Unlimited."

It is a small club, and if you do the favor for no pay can be offered by I can and will give you a great deal of recognition in the magazine.

Thank - you

Dear Joseph:

This replies to your March 14 letter requesting a model of a unidentified flying object (UFO). I am afraid that I am not going to be much help. We have no models and know of none. A "UFO" is any aerial phenomenon or object which is unknown or appears out of the ordinary to the observer. Thus a model might take almost any form.

I have attached some information on the subject of unidentified flying objects which I think you will find helpful in preparing your science project.

Good luck.

Sincerely,

Dear Sir(s),

I am a boy of 13 years of age, and I'm very much interested in U.F.O.'s.

In May at Mark Twain School #3, a science fair will be held. For my science project I am working on U.F.O.'s. I have heard of your work and I was hoping that there was some information you can give me. Also I was wondering if you had any models of U.F.O.'s. If not would you know of any place from which I can purchase a model?

Thank You

Yours truly,

Dear Mr. ~~_____~~,

I wrote a letter concerning a saucer sighting. I also asked a question of you, which was not answered so I am writing again. I asked a favor of you concerning a saucer magazine I wanted to send out.

My idea was that any saucer sighting articles, stories, reports, ect, I could find I would send a copy of them to you. You in turn would evaluate them and send your evaluation to me.

In the magazine, the clippings, your evaluation, and what I thought of the article, would be printed.

Besides being of extreme interest to the
reader it would also give the Sir Force a
chance to express their views to the public.

I know for a busy man like you
this would be partly impossible. I know
this is quite a bit to ask you but I am
taking a chance. If you agree to do this,
it will be done only as a favor for me. The
most I could and would give you is a large
amount of recognition.

Thank You

Yours most sincerely

P.S. Please answer. If what I ask is not
possible let us still remain on the friendly
terms we are now.

Thank you
