

PROJECT 10073 RECORD

1. DATE - TIME GROUP 3 Feb 67 072230Z 4/0125Z	2. LOCATION Woodbridge-Manassus, Virginia multiple
3. SOURCE Civilian & Military	10. CONCLUSION 1. Satellite(Echo II) 2. Aircraft(possible)
4. NUMBER OF OBJECTS One	
5. LENGTH OF OBSERVATION 1. 2½ minutes 2. 5 minutes	11. BRIEF SUMMARY AND ANALYSIS Different observers at different times saw a similar object. The object was silver colored and at times appeared to have a blinking red light. A second sighting was made ten miles some three hours later. Both observations were of a similar object. In both cases the object dropped out of sight beyond the horizon. Echo II was over the area at the time of the first sighting. It would be extremely difficult to determine if both objects were one in the same, just because they occurred during the same night within three hours of each would not prove that the same object was observed. There were aircraft in the area at the time but the exact position is not known.
6. TYPE OF OBSERVATION Ground Visual	
7. COURSE N/A	
8. PHOTOS ☐ Yes ☒ No	
9. PHYSICAL EVIDENCE ☐ Yes ☒ No
