Major Hector Quintanilla, Jr.
Air Force Research and Development Command
Wright-Pattison Air Force Base
Dayton, Ohio

This is a report in which myself, my brother, and friend saw a UFO. We have included all the facts best we could. We would like your official answer when true. Thank you very much.

Sincerely yours,

[redacted]

U F O Report

Date February 10, 1967
Time Friday nite 11:28 - 11:36
Object in sight It lasted 8 min. Time was judged by my watch.

Discription of object - Appeared to be a plane and me, my brother and I, pushed it ~~off~~ aside as a plane. It made a turn, rising alittle, and then stopped. It remained stationary for 2-3 minutes. It began to climb again to about 35°. When first saw it it was low in North Eastern horizon, about 15°. I noticed a dim star which the object approached, so I focused my sight on the dim star, and noticed that the dject was circling the star. It stopped above and to the right of the star, and became stationary again. It was stationary for 2-3 minutes again. Then I saw it. The bright dject began to drop a sparkler like thing from its bottom. I yelled for my brother to come out of the garage, because he was getting my telescope. He looked & we both saw the dject drop more sparkle "things". The "things" didn't last long, just a few seconds. [redacted] our neighbor friend came out and saw the dject drop "things" too. It was only about 10-15 seconds that the dject dropped these "things". I reached to look for it in my scope, but when I looked to sight it, it was gone. The other two said it just dimmed out & was gone.

Note on "Things" The "things" which dropped from the dject, burnt up almost immediately. But before the dject despended these "things" its bottom began [redacted] Then the "things" I was to tell how it was [illegible]

like sparklets which sometimes fall from meteor or falling star, but th dojet was no meteor.

Shape - The shape was like a light and star. The yellow white light was a solid light, not ~~flas~~ blinking or sparkeling.

Weather Conditions - Temp. was around ~~fif~~ fifty degrees. Very slight wind, and it was slightly cloudy.

About the object Color was yellow-white. No sound. It dimed once & became bright again. Using the match at arms length method, th dojet would almost be covered. Other two say color was orange-white.

Speed & Altitude - Both unpredictable. We say rather high, very high. Speed unknown, but when we watched it th light always moved slow.

Distance - Propably far off. Unknown mostly.

We were at - our house outside in backyard. In th residential section. Only saw dojet with our eyes.

Comparing - The dojet looked like our everyday plane or jet preparing for its approach th San Francisco Airfield, 25 mi. north of here, with its landing lights on. It circular path gave us this idea, but its stationa actions changed our minds.

Other Sky bodies - ~~No~~ No moon was up, and it was not

Brightness - Was as bright as the bright star Bootes. Object appeared between the Big Dipper handle and the star Bootes.

Compass reading - North East horizon

People Involved; [redacted] Redwood city, Calif. Corner of Roosevelt + Woodland.

[redacted], Redwood City, Calif.

[redacted], Redwood City, Calif.

My name is [redacted], the 1st name above, my phone is [redacted] area code 415, age 18, male.

Have studied UFO since 5th grade, now in 12th grade, a senior. Studied outer space with my telescope much. Have seen moon, Saturn, Jupiter, Venus, moon, and other things, so I know what they look like with + without scope. Have seen many satellites too.

I reported this to the Redwood City Police Department soon after it happened, on February 10, 1967, at 12:00 about 8 placed them at rest.

Our Conclusions - Not a motor, for it was stationary. Not a plane, there was no sound. Not cloud reflection, for we have seen them before because we have a Sky Watcher club + we

Possible Things - maybe a Comet because of its dropping of the burning "things", + more just how last seen a ~~star~~ comet.
maybe a burning satellite, but it was station any awhile, + a burning satellite would fall like a retro.

We have stated what we saw.
If you have any more questions please call on us, we are willing to cooperate fully.
If you ~~do~~ solve this by saying what it is by checking Ballard satellite records please let us know. One more fact, 2 planes flew over the object, but nothing ~~if~~ happened, but the object still could of been much higher than the planes or jets.

Please answer if possible.

Yours Truly

Dear [redacted]

Reference your recent letter reporting your unusual observation to the Air Force. A detailed investigation did not reveal a positive identification; however, our analysts were able to uncover a possible solution. The description you provided is very consistent with that normally reported for an observation of a hot air balloon. The Air Force has been plagued lately with reports from all parts of the country of these hot air balloons. Persons of all ages have been releasing these balloons which are made from dry cleaning bags with candles situated on a platform of some type. As previously mentioned, a positive identification was not made but we feel that you more than likely observed one of these balloons.

Thank you for reporting your observation to the Air Force.

J. Jafferis 8 May 67

OFFICIAL U.S. AIR

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

SATURDAY (Day) FEB (Month) 1957 (Year)

2. Time of day: 9 (Hours) : 15 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. (Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. (Standard)

4. Where were you when you saw the object?

LANCASTER (Nearest Postal Address) LANCASTER (City or Town) PENNSYLVANIA (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) 10 (Minutes) _____ (Seconds)

a. Certain
(b. Fairly certain)
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? WATCH HANDS

5.2 Was object in sight continuously? Yes (✓) No _____

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

NIGHT
a. Bright
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FTD FORM OCT 62 164 This form supersedes FTD 164, jul 61, which is obsolete.

FORCE UFO FORM

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight—pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

DAMP

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

BRIGHTER THAN ANY LIGHTS I EVER SAW.

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other_____

13. Did the object:

	(Circle One for each question)		
a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

64

Official U.S. Air Forc

14. Did the object disappear while you were watching it? If so, how? yes. It just disappeared into air.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound No sound.

b. Color It was a bright white light with a background of ~~a~~ gray clouds.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head? I didn't do it at the time.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

UFO form continued

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate?_____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was?_____

22. Where were you located when you saw the object? (Circle One):

a. (Inside a building)
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other_____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other RESIDENTIAL SECTION ON OUTSKIRTS OF THE CITY

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving?_____miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

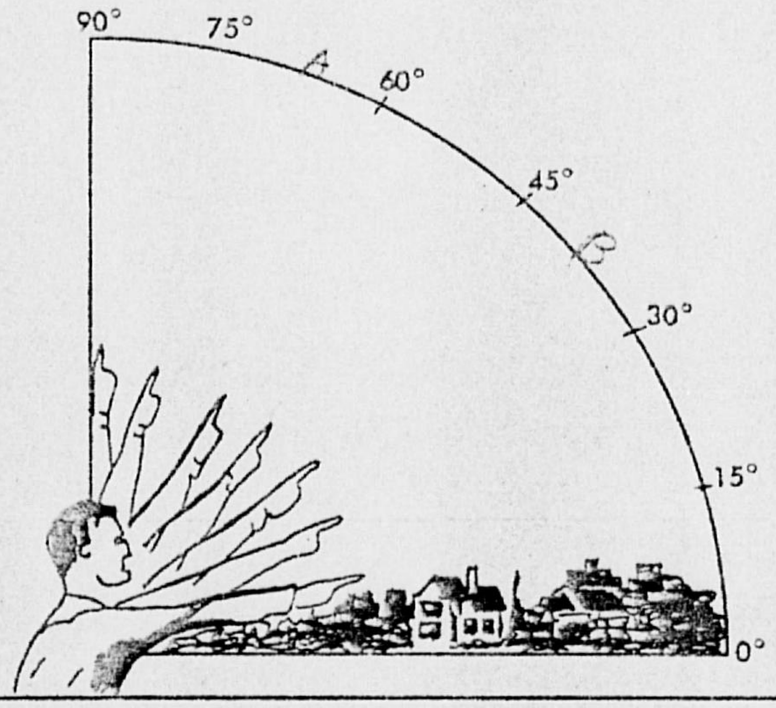
25. Did you observe the object through any of the following?

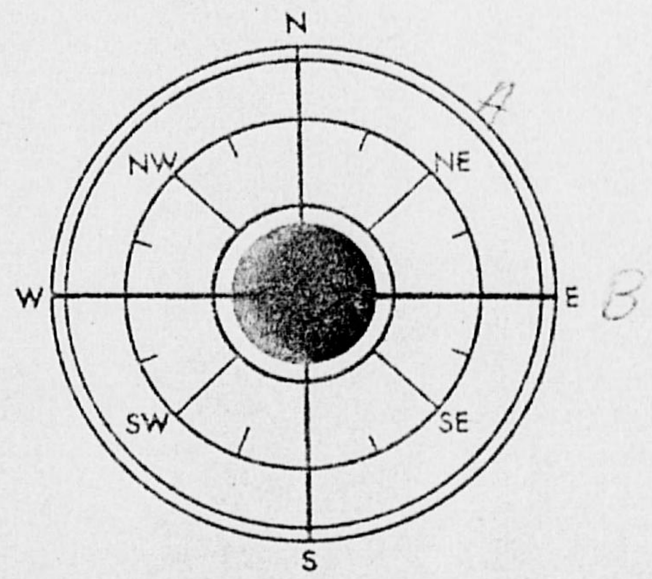
a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	(Yes)	No	h. Other_____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

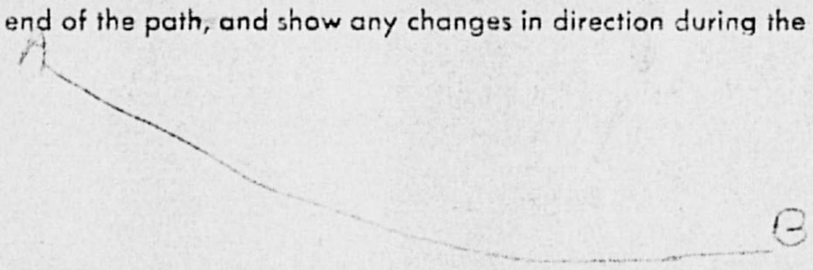
Official U.S. Air Force

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.





28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.



29. IF there was MORE THAN ONE object, then how many were there?_____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

UFO form continued

30. Have you ever seen this, or a similar object before. If so give date or dates and location. NO

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes (No)

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NA[redacted]
Last Name First Name Middle Name

ADDR[redacted] LANCASTER PENNA.
Street City Zone State

TELEPHONE NUMB[redacted] AGE 12 SEX FEMALE

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object? Nobody

Day Month Year

Official U.S. Air Force

34. Date you completed this questionnaire: TUESDAY (Day) FEB (Month) 1960 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting. The UFO looked like one of the lenticular

Dear Sirs,

I am sending enlargements of two polaroid pictures which I took.

These were taken by two male friends of mine, both about twenty-nine, three miles south of Easton, Pa. The time was late afternoon in Feb. 67.

The object was sighted as my friends drove by some power lines. They turned the car around and took these pictures. It was a silver-gray color.

After hovering near the lines for several minutes the object went straight up until it was out of sight. It was at least thirty ft. in dia. and about 150 yd. away.

Could you please send me a copy of the Blue Book.

Analysis of Inorganic Compound

Major Kenneth E. Becker
SAFOI-LA
Los Angeles Office of Information
Los Angeles, California 90028

1. Reference your letter of 14 February 1967 in which you forwarded a physical specimen for chemical and metallurgical analysis.

2. X-ray emission spectroscopy revealed the presence of strontium, barium, potassium, and sulfur. Other minor chemical elements such as iron, boron, aluminum, and calicum were also found. It is suspected that the specimen was the aftermath of a flare or fireworks display since the principal chemicals found were strontium and potassium which are major elements of some types of fireworks.

3. Request that you inform the local citizen of our results. There was no evidence disclosed to indicate the material was extraterrestrial in nature.

ANALYSIS TEST REPORT

SUBJECT: Analysis of Inorganic Compound

TEST NR: 7-393

TASK NR: 60107 1202

SUBMITTED BY: W. Marley TOET/UFO

DATE RECEIVED: 17 Feb 67

PURPOSE: To analyze inorganic material

FACTUAL DATA

1. X-ray emission spectroscopy showed Sr, Ba, K, S, and Cl to be present.

2. X-Ray diffraction gave a very complex pattern that could not be identified. The sample was separated into a water soluble sample and an insoluble sample. The insoluble sample was identified as $SrSO_4$ plus a small amount of unidentified phase. Infrared spectroscopy showed a sulfate present. The soluble phase could not be identified but appeared to be a carbonate.

CONCLUSIONS: None, data submitted for evaluation by initiator.

AFML FORM 13 MAY 64

SAFOI-LA 14 Feb 67

Major H. Quintanilla, Jr.
Hq, Foreign Technology Division
TDET/UF
Wright-Patterson Air Force Base, Ohio

Dear Major Quintanilla:

Request your office analyze the enclosed material and furnish this activity with information on results.

The substance was turned in to this office by a local citizen who reports that it burned holes through leaves and branches of a tree in his back yard as it fell, and narrowly missed the roof of his garage.

Any information you can provide will hopefully aid this office in giving the gentleman who turned in the material some logical explanation.

KENNETH E. BECKER

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

____ (Day) January (Month) 1967 (Year)

2. Time of day: ____ (Hours) ____ (Minutes)

(Circle One): (A.M.) or P.M.

at night.

3. Time Zone:

(Circle One): a. Eastern
(b.) Central
c. Mountain
d. Pacific
e. Other ____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

Manitoba Box 236 (Nearest Postal Address) Manitoba, Sask. Canada (City or Town / State or County)

5. How long was object in sight? (Total Duration) 2 (Hours) ____ (Minutes) ____ (Seconds)

a. Certain
(b.) Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? ____

5.2 Was object in sight continuously? Yes ____ No ✓

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

NIGHT
(a.) Bright
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FTD FORM OCT 62 164 This form supersedes FTD 164, jul 61, which is obsolete.

FORCE UFO FORM

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
(c.) Many
d. Don't remember

8.2 MOON *(Circle One)*:

(a.) Bright moonlight
b. Dull moonlight
c. No moonlight—pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
(e.) Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
(d.) As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

(a.) Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

Very powerful light

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
(b.) Like a bright star
c. Sharply outlined
d. Don't remember

e. Other Some time did see outline

13. Did the object:

	(Circle One for each question)		
a. Appear to stand still at any time?	(Yes)	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	(No)	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	(Yes)	No	Don't know
f. Change shape?	(Yes)	No	Don't know
g. Flash or flicker?	(Yes)	No	Don't know
h. Disappear and reappear?	(Yes)	No	Don't know

64

Official U.S. Air Force

14. Did the object disappear while you were watching it? If so, how?

Yes, just disappear

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No (Don't know.) IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound none

b. Color Large bright light, blue flashing lights

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

UFO form continued

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate?_____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? 1/2 mile

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
(b.) In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other_____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
(c.) In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other_____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North	(c.) East	e. South	g. West
b. Northeast	d. Southeast	f. Southwest	h. Northwest

24.2 How fast were you moving? 50 miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) (Yes) No

25. Did you observe the object through any of the following?

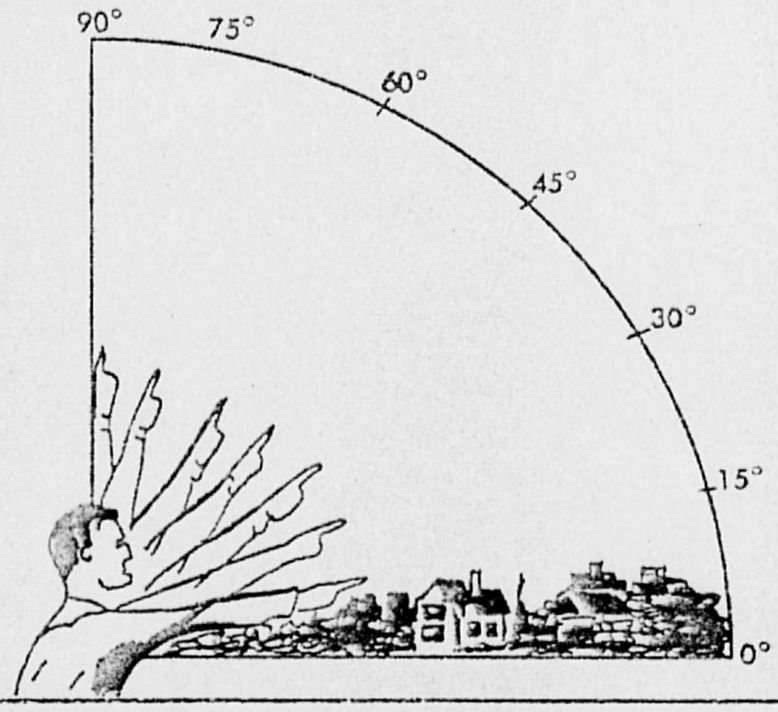
a. Eyeglasses	Yes	No	(e.) Binoculars	(Yes)	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other_____		

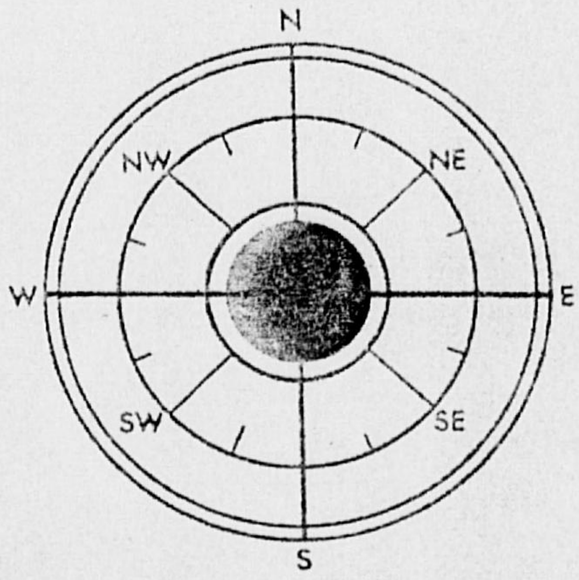
26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

Sometimes it is so bright I can't see any outline. Other times I can see it plain as in drawing. Looks it about 50 ft from ground

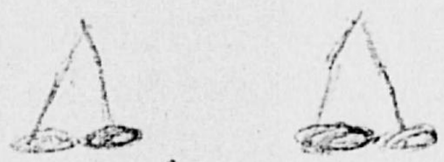
Official U.S. Air Force

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.





28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.



Lights change from side to side -

29. IF there was MORE THAN ONE object, then how many were there? No
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

UFO form continued

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

Saw it many night during winter,
Last time was May 7. 1967 and only ½ mile away.

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses:

[redacted] Manitoba, Sask. Can.
Manitoba, Sask.

32. Please give the following information about yourself:

NAME [redacted]
Last Name First Name Middle Name

ADDRESS _____ Manitoba, Sk. Canada.
Street City Zone State

TELEPHONE NUMBER [redacted] AGE 33 SEX M.

33. Indicate any additional information about yourself, including any special experience, which might be pertinent.

34. When and to whom did you report that you had seen the object?

_____ _____ _____
Day Month Year

Official U.S. Air Force U

34. Date you completed this questionnaire: 9 (Day) May (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

This thing has been seen on numbers of times, west of our farm (about 2 miles) this wonder- ing now it is seen about 2½ south & east of our farm- it was about ½ mile away from it.

23 May 1967

Mr. [redacted]
Box [redacted]
Mankota, Saskatchewan, Canada

Dear Sir,

I wish to thank you for your conscientious report of the Unidentified Flying Object that you observed during the winter, and until May 7, 1967. Your report has been forwarded to higher headquarters for further evaluation. If necessary they may contact you.

Sincerely,

LtCol Kenneth F. Kilness
Chief, Intelligence Division
Deputy Commander for Operations

OFFICIAL U.S. AIR

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

3 (Day) 2 (Month) 67 (Year)

2. Time of day: 2 (Hours) : 11 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a) Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b) Standard

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) Mountainside (City or Town) New Jersey (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) 31 (Minutes) : about 20 (Seconds)

a. Certain
(b) Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? I saw my clock

5.2 Was object in sight continuously? Yes ✓ No ____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a) Bright
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

14. Did the object disappear while you were watching it? If so, how?

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): (Yes) No Don't know. IF you answered YES, then tell what in front of: [redacted] A hill in Summit town N.J.

17. Tell in a few words the following things about the object:

a. Sound [redacted] Wavy Sound

b. Color Yellow, Blue, than, White, Yellow.

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

e UFO form continued

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? at least 300 mph

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? about 15 miles

22. Where were you located when you saw the object? (Circle One):

(a) Inside a building
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other on my house.

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other Suburb

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	(Yes)	No	h. Other	No	

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A plate with sides and upside down.

Official U.S. Air Force

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.

REPORT ON UNIDENTIFIED FLYING OBJECT(S)

This form includes questions asked by the United States Air Force and by other Armed Forces' investigating agencies, and additional questions to which answers are needed for full evaluation by NICAP.

After all the information has been fully studied, the conclusion of our Evaluation Panel will be published by NICAP in its regularly issued magazine or in another publication. Please try to answer as many questions as possible. Should you need additional room, please use another sheet of paper. Please print or typewrite. Your assistance is of great value and is genuinely appreciated. Thank you.

1. Name [redacted]
   Address [redacted] Street
   Bradford, Mass.
   Telephone [redacted]
   Place of Employment Haverhill High Schoo
   Occupation Bosiness Teacher
   Education College
   Special Training
   Military Service

2. Date of Observation February 5, 1967 Time approximately 6 PM (1) AM (2) 6.20 PM Time Zone East

3. Locality of Observation Bradford, Mass. 3 Minutes (1)

4. How long did you see the object? Hours 4 Minutes (2) Seconds

5. Please describe weather conditions and the type of sky; i.e., bright daylight, nighttime, dusk, etc. clear night

6. Position of the Sun or Moon in relation to the object and to you. Moon wasn't out.

7. If seen at night, twilight, or dawn, were the stars or moon visible? a lot of stars

8. Were there more than one object? No If so, please tell how many, and draw a sketch of what you saw, indicating direction of movement, if any.

9. Please describe the object(s) in detail. For instance, did it (they) appear solid, or only as a source of light; was it revolving, etc? Please use additional sheets of paper, if necessary. White light source - flashing very fast - flickering - reminded of light on police-car or fire

10. Was the object(s) brighter than the background of the sky? yes

11. If so, compare the brightness with the Sun, Moon, headlights, etc. - like a star's brightness

12. Did the object(s) — (Please elaborate, if you can give details.)

    a. Appear to stand still at any time?
    b. Suddenly speed up and rush away at any time? seemed to stop at end of each momentarily
    c. Break up into parts or explode?
    d. Give off smoke?
    e. Leave any visible trail?
    f. Drop anything?
    g. Change brightness?
    h. Change shape?
    i. Change color?

13. Did the object(s) at any time pass in front of, or behind of, anything? If so, please elaborate giving distance, size, etc, if possible. (2) Disappeared behind Bradford ski hill

14. Was there any wind? No. If so, please give direction and speed.

15. Did you observe the object(s) through an optical instrument or other aid, windshield, windowpane, storm window, screening, etc? No. What?

16. Did the object(s) have any sound? No What kind? How loud?

17. Please tell if the object(s) was (were) —

    a. Fuzzy or blurred.
    (b.) Like a bright star.
    c. Sharply outlined.

18. Was the object —

a. Self-luminous? Don't Know
b. Dull finish?
c. Reflecting?
d. Transparent?

19. Did the object(s) rise or fall while in motion? (1) Oscillated in flight (hopping like kangaroo)

(2) widely zig-zagged left to right right to left

20. Tell the apparent size of the object(s) when compared with the following held at arm's length:

(a.)	Pinhead	d.	Nickel	g.	Orange
b.	Pea	e.	Half dollar	h.	Grapefruit
c.	Dime	f.	Silver dollar	i.	Larger

Or, if easier, give apparent size in inches on a ruler held at arm's length.

21. How did you happen to notice the object(s)? → (1) walking home looking at sky

22. Where were you and what were you doing at the time? (2) home on porch looking at sky

23. How did the object(s) disappear from view? (2) behind hill to SW

24. Compare the speed of the object(s) with a piston or jet aircraft at the same apparent altitude. Much faster than jet. Sharp Maneuvers

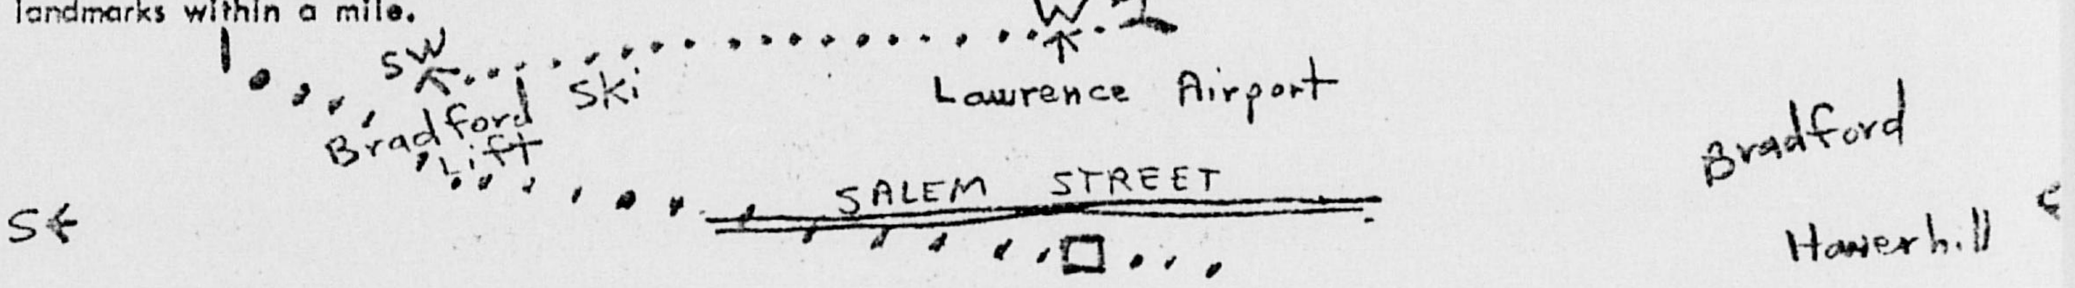
25. Were there any conventional aircraft in the location at the time or immediately afterwards? If so, please elaborate.
Regular plane going southwest immediately afterwards

26. Please estimate the distance of the object(s). Great Distance

27. What was the elevation of the object(s) in the sky? Please mark on this hemisphere sketch:

28. Names and addresses of other witnesses, if any. None

29. Please draw a map of the locality of the observation showing North; your position; the direction from which the object(s) appeared and disappeared from view; the direction of its course over the area; roads, towns, villages, railroads, and other landmarks within a mile.



30. Is there an airport, military, governmental, or research installation in the area? ↑E ↖NE plenty of each

31. Have you seen other objects of an unidentified nature? If so, please describe these observations, using a separate sheet of paper.

32. Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station and date, if possible) regarding this or similar observations, or any other background material. We will return the material to you.

33. Were you interrogated by Air Force investigators? By any other federal, state, county, or local officials? If so, please state the name and rank or title of the agent, his office, and details as to where and when the questioning took place.

Were you asked or told not to reveal or discuss the incident? If so, were any reasons or official orders mentioned? Please elaborate carefully.

34. We should like permission to quote your name in connection with this report. This action will encourage other responsible citizens to report similar observations to NICAP. However, if you prefer, we will keep your name confidential. Please note your choice by checking the proper statement below. In any case, please fill in all parts of the form, for our own confidential files. Thank you for your cooperation.

You may use my name. ( ) Please keep my name confidential. (X)

Dear Ray:

Enclosed is the report of the interview I had with Mrs. [redacted]

Mrs. [redacted] and her husband were driving along Route 15 outside of Hartford Connecticut when she noticed the object through her windshield. Her husband did the same. The object was stationary above the Highway and was very bright. Her husband was reluctant to say to much only that there were people pulled off to the side of the road looking at the object.

I doubled back on my questioning to see if she would give me a different answer but she didn't. She said she had a negative outlook on the UFO question untill now.

I I wanted to get more information like a drawing but her husband was just leaving for work and I had to make it brief.

I hope this report is to your sastisfaction.

Sincerely yours,

Gary M. Avery

NICAP SUMMARY REPORT FORM

Sighting Date: 2/12/67 Date of Report 2/27/67

Location: Rts #15/160 Connecticut Investigator: G. Storey

Time: From 6:00 to 6:40 PM EST Category: Unknown

Weather: Clear

Witnesses: Name(s)	Age	Education	Occupation	Address	Phone
Mrs. [redacted]	?	H.S. Plus	Secretary	[redacted], Everett Massachusetts	[redacted]4
(and Husband)					

Apparent Size: cf. star Larger * cf. full moon Est. real size: ?

Elevation: 90° ± Est. Altitude: 1500-3000' Direction: Seen NE moved ? to ?

Color: Glowing White with red light each side. Sound: None Shape: Bright Glow

UFO passed in front of ? at ? ft/mi - passed behind ? at ? ft/

SIGHTING ACCOUNT

Mr. and Mrs. [redacted] were driving from New Haven, Conn. to Everett, Mass. They noticed a bright glwoing object in the sky and upon nearing the object they noted people stopping beside the road to observe it so they did likewise. It was described as being brighter than a headlight of an automobile at 1500-300 feet. It was almost directly overhead.

* Mrs. [redacted] has obviously exaggerated the apparent size of the object. She estimated it to be 4-6 inches at arms length on the data sheet yet stated it was several times larger than a bright star to the chairman via a telecon prior to actual personal interview.

SKETCH OF UFO(s)

REMARKS

Note Venus. Venus was lower and in the West. (Set approx. 7:06 PM). Moon wa to the left of where the object was indicated to be by the observer. (Located in Aries and setting time was 8:27 PM EST). Jupiter and Syrius are suspects but the object described was large enough and unusual enough to attract the attention of many plus the fact it had to distinct red lights on each side. It is to be regretted that more detailed information was not available re:

NATIONAL INVESTIGATIONS COMMITTEE ON AERIAL PHENOMENA
1536 Connecticut Avenue N. W.
Washington 6, D. C.

REPORT ON UNIDENTIFIED FLYING OBJECT(S)

This form includes questions asked by the United States Air Force and by other Armed Forces' investigating agencies, and additional questions to which answers are needed for full evaluation by NICAP.

After all the information has been fully studied, the conclusion of our Evaluation Panel will be published by NICAP in its regularly issued magazine or in another publication. Please try to answer as many questions as possible. Should you need additional room, please use another sheet of paper. Please print or typewrite. Your assistance is of great value and is genuinely appreciated. Thank you.

1. Name Mrs. [redacted] Place of Employment Everett National Bank

Address [redacted], Everett Mass. Occupation Secretary

Education High School
Special Training Grad. School of Accounting
Military Service None

Telephone [redacted]

2. Date of Observation February 12, 1967 Time AM 6 PM Time Zone East

3. Locality of Observation Rt. 15 between Kensington and Hartford Conn.

4. How long did you see the object? Hours 40 Minutes Seconds

5. Please describe weather conditions and the type of sky; i.e., bright daylight, nighttime, dusk, etc. Dark with clear Sky

6. Position of the Sun or Moon in relation to the object and to you. The moon was left of the object and left of the observer.

7. If seen at night, twilight, or dawn, were the stars or moon visible? Yes.

8. Were there more than one object? No If so, please tell how many, and draw a sketch of what you saw, indicating direction of movement, if any.

9. Please describe the object(s) in detail. For instance, did it (they) appear solid, or only as a source of light; was it revolving, etc? Please use additional sheets of paper, if necessary. The object appeared as a huge light with a red light on the sides.

10. Was the object(s) brighter than the background of the sky? Yes.

11. If so, compare the brightness with the Sun, Moon, headlights, etc. Brighter than a headlight.

12. Did the object(s) — (Please elaborate, if you can give details.)

a. Appear to stand still at any time? Yes
b. Suddenly speed up and rush away at any time? No
c. Break up into parts or explode? No
d. Give off smoke? No
e. Leave any visible trail? NO
f. Drop anything? No
g. Change brightness? No
h. Change shape? No
i. Change color? No

13. Did the object(s) at any time pass in front of, or behind of, anything? If so, please elaborate giving distance, size, etc, if possible.

14. Was there any wind? Yes If so, please give direction and speed. 40—60 MPH from the North Ea

15. Did you observe the object(s) through an optical instrument or other aid, windshield, windowpane, storm window, screening, etc? What? Windshield

16. Did the object(s) have any sound? No What kind? How loud?

17. Please tell if the object(s) was (were) —

a. Fuzzy or blurred.
b. Like a bright star.
c. Sharply outlined.

18. Was the object —

a. Self-luminous?
b. Dull finish?
c. Reflecting?
d. Transparent?

19. Did the object(s) rise or fall while in motion? NO

20. Tell the apparent size of the object(s) when compared with the following held at arm's length:

a.	Pinhead	d.	Nickel	g.	Orange
b.	Pea	e.	Half dollar	h.	Grapefruit
c.	Dime	f.	Silver dollar	i.	Larger

Or, if easier, give apparent size in inches on a ruler held at arm's length. 4-6 inches. Red lights 2 in

21. How did you happen to notice the object(s)? Driving on route 15 and saw object through windshield against dark sky.

22. Where were you and what were you doing at the time? Driving on Rt. 15

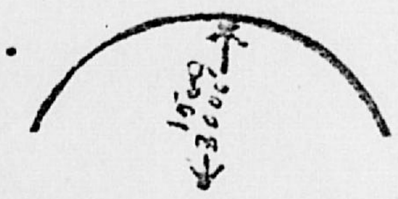
23. How did the object(s) disappear from view? Drove away from object.

24. Compare the speed of the object(s) with a piston or jet aircraft at the same apparent altitude. Object was statio

25. Were there any conventional aircraft in the location at the time or immediately afterwards? If so, please elaborate. 20 m North

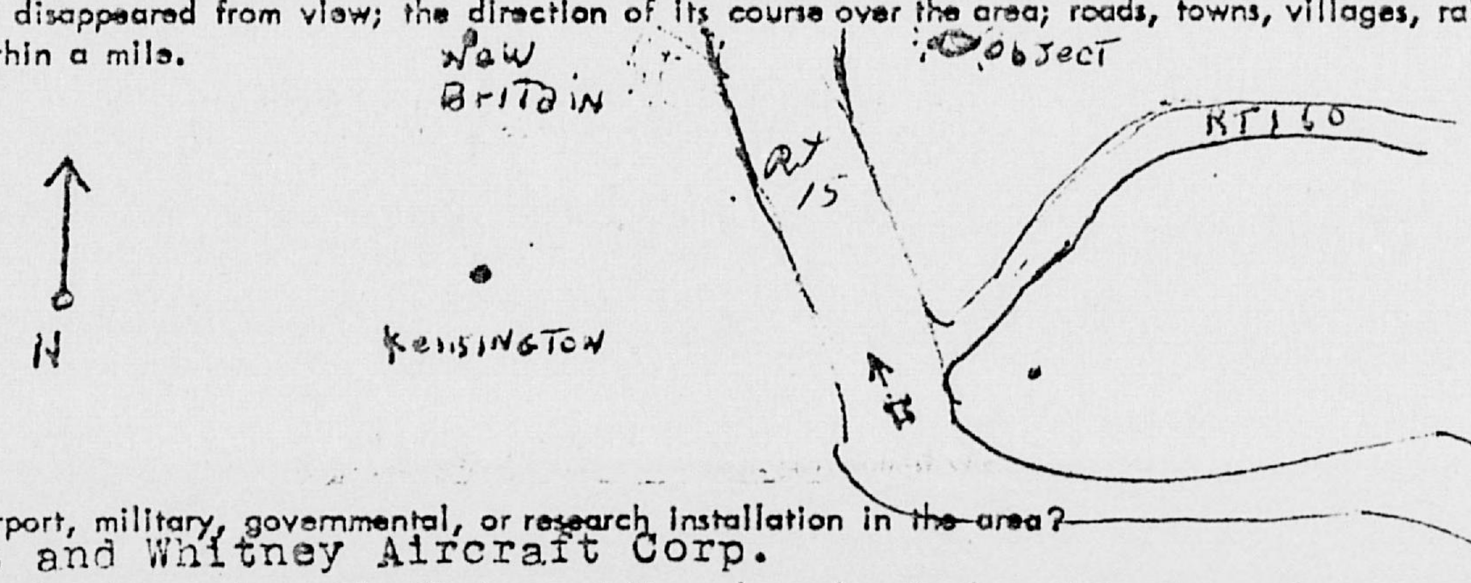
26. Please estimate the distance of the object(s). Overhead 15,00-30,000 feet alt.

27. What was the elevation of the object(s) in the sky? 90° Please mark on this hemisphere sketch:



28. Names and addresses of other witnesses, if any. [redacted]

29. Please draw a map of the locality of the observation showing North; your position; the direction from which the object(s) appeared and disappeared from view; the direction of its course over the area; roads, towns, villages, railroads, and other landmarks within a mile.



30. Is there an airport, military, governmental, or research installation in the area?
Pratt and Whitney Aircraft Corp.

NEI

31. Have you seen other objects of an unidentified nature? If so, please describe these observations, using a separate sheet of paper.

32. Please enclose photographs, motion pictures, news clippings, notes of radio or television programs (include time, station and date, if possible) regarding this or similar observations, or any other background material. We will return the material to you.

33. Were you interrogated by Air Force investigators? By any other federal, state, county, or local officials? If so, please state the name and rank or title of the agent, his office, and details as to where and when the questioning took place. NO.

Were you asked or told not to reveal or discuss the incident? If so, were any reasons or official orders mentioned? Please elaborate carefully. NO.

34. We should like permission to quote your name in connection with this report. This action will encourage other responsible citizens to report similar observations to NICAP. However, if you prefer, we will keep your name confidential. Please note your choice by checking the proper statement below. In any case, please fill in all parts of the form, for our own confidential files. Thank you for your cooperation.

You may use my name. (✓) Please keep my name confidential. ( )

35. Date of filling out this report: [redacted] 27, 1967 Signature: [redacted]

UFO SUMMARY REPORT FORM

Sighting Date: 3/07/67 Date of Report 3/09/67

Location: Amherst, Mass. (address of witness) Investigator: Ray Fowle

Time: From 8:00 to 8:15 PM EST Category: Insufficient

Weather: _____

Witnesses:

Name(s)	Age	Education	Occupation	Address	Ph
Mrs. [redacted]	?	?	Housewife	[redacted] Dr. [redacted]	
(Name to be kept confidential)				Amherst, Mass.	

Apparent Size: cf. star 2XVenus cf. full moon _____ Est real size: ?

Elevation: 45-10° Est. Altitude: ? Direction: seen NW moved E to W

Color: White - Orange Lt. Sound: None Heard Shape: Lt. Source

UFO passed in front of _____ at _____ ft/mi - passed behind Buildings at ? ft/

SIGHTING ACCOUNT

Witness noticed bright light source moving slowly through sky. Viewed with binoculars but not details such as fuselage, wings, running lights. Light changed from white to orange as it moved away.

SKETCH OF UFO(s)

REMARKS

To be filed for reference in the event a better quality UFO sighting from the general sighting area is reported.

UFO SUMMARY REPORT FORM

Sighting Date: 3/09/67 Date of Report: 3/09/67

Location: Rt. #133-Andover Country Club Investigator: Ray Fowler

Time: From 8:25 to 8:27 PM EST Category: Insufficient Da

Weather: _____

Witnesses:

Name(s)	Age	Education	Occupation	Address	Phon
Mr. [redacted]	39	H.S.	Merchant	[redacted] Drive	[redacted]
				Andover, Mass.	

Apparent Size: cf. star _____ cf. full moon +4 or 5 Est real size: ?

Elevation: 45° Est. Altitude: 1500' Direction: seen NW moved - to Hove

Color: 2 Red, One White Lights Sound: None heard Shape: Object not seen- Li arranged in triangle-Positi

UFO passed in front of NA at NA ft/mi - passed behind NA at NA ft/m

SIGHTING ACCOUNT

The witness was proceeding NE on Route #133 Andover when his attention was attracted to a triangular cluster of bright lights estimated to be about 300 feet off the road at and estimated 1000-1500 ft. altitude over the Andover Country Club grounds. The witness tried to stop his car for a better look but traffic around him prevented a full stop. He observed the object through his front and side window at 10-15 mph. Upon reaching home he telephoned the "Lawrence Eagle Tribune" to report what he had seen. The "Tribune" phoned me and I in turn phoned Mr. [redacted] for his account of the sighting. Since the sighting was made by one person and was of a very short duration, no personal interview was arranged. The report will be used for information purposes and possible comparison with other sightings reported in the past. It will be used as supplementary information to any other report of a similar phenomena reported on this date.

SKETCH OF UFO(s)

REMARKS

Interesting things to note are: 1) The absence of "green" lights of a conventional aircraft; 2) The lights were steady, not flashing 3) The "apparent" hovering.4)The fact that a UFO was reported earlier at Foxboro, Massachusetts which carried Red & White lights on the same evening. (This is being investigated) The [illegible] objects have been reported

OFFICIAL U.S. AIR

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

Sun (Day) Feb. 5. (Month) 1967 (Year)

2. Time of day: 6:~~30~~ (Hours) 30 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a. Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

Marlboro St. (Nearest Postal Address) Portland (City or Town) Conn (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) _____ (Minutes) 20 (Seconds)

(a. Certain)
(b. Fairly certain)
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? Guess

5.2 Was object in sight continuously? Yes _____ No X

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a. Bright)
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
(d. To your left)
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
(b. A few)
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight—pitch dark
(d. Don't remember)

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

(a. Clear sky)
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

(a. Dry)
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

(a. Solid)
b. Transparent
c. Vapor
(d. As a light)
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

(a. Brighter)
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

_____

The edges of the object were:

(Circle One): a. Fuzzy or blurred
(b. Like a bright star)
c. Sharply outlined
d. Don't remember

e. Other _____

_____

_____

_____

Did the object:

(Circle One for each question)

h. Disappear and reappear?	(Yes)	No	Don't know

64

Official U.S. Air Fo

14. Did the object disappear while you were watching it? If so, how?

yes - A few seconds behind A. H.

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): (Yes) No Don't know. IF you answered YES, then tell what it moved behind: A. Hill

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of:

17. Tell in a few words the following things about the object:

a. Sound No Sound

b. Color Very Bright

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

1/3 Covered

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate?_____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? 4 mi.

22. Where were you located when you saw the object?
(Circle One):

a. Inside a building
(b. In a car)
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other_____

23. Were you (Circle One)

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other Hiway

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South (g. West)
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? 35 MPH miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes (No)

25. Did you observe the object through any of the following?

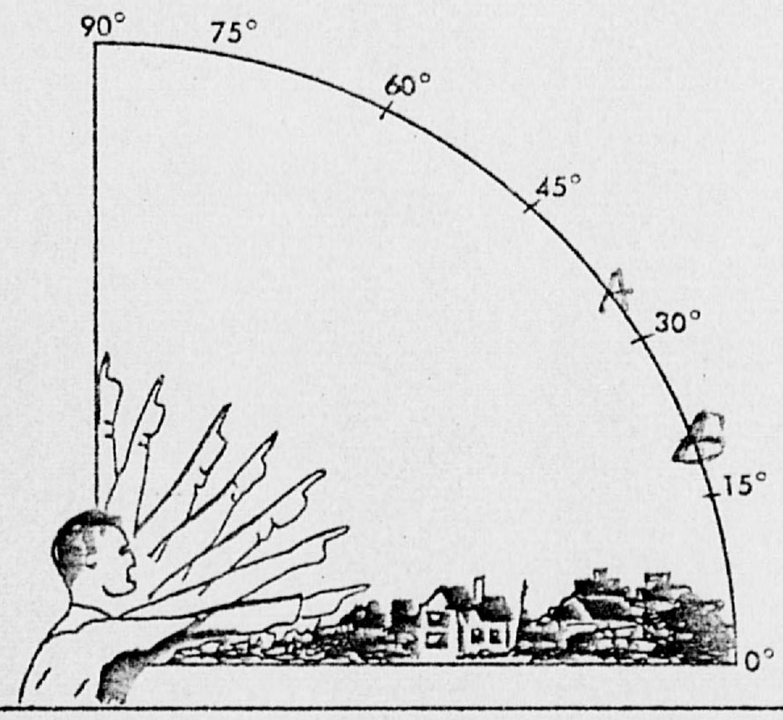
a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
(c. Windshield)	(Yes)	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other_____		

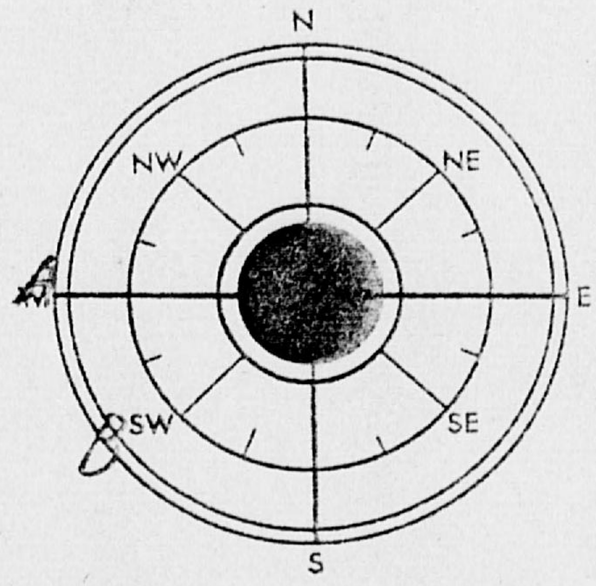
26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

A big bright cigar

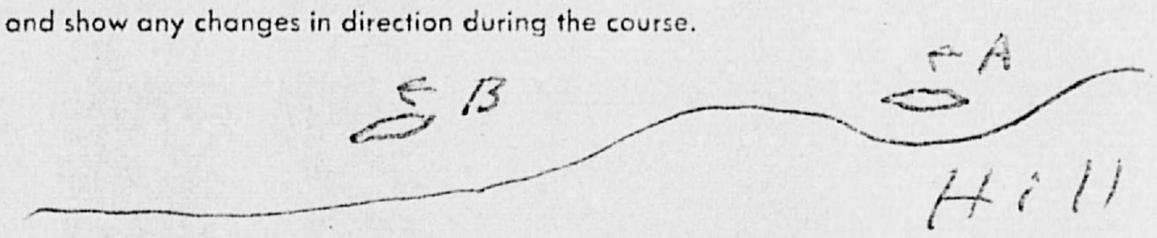
Official U.S. Air Force

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.





28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.



29. IF there was MORE THAN ONE object, then how many were there? One
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

UFO form continued

30. Have you ever seen this, or a similar object before. If so give date or dates and location. NO

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes (No) CHILD 2 YRS OLD

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [redacted] First Name [redacted] Middle Name

ADDRESS [redacted] Street Middletown City ___ Zone Conn State

TELEPHONE NUMBER [redacted] AGE 24 SEX Male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object? my wife

Feb 9 Day Feb Month 1967 Year

Official U.S. Air Force

34. Date you completed this questionnaire: 9 (Day) Feb (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I was not tired at time of sighting and I know that this was not an airplane or any other air craft which a civilian could recognize. I don't think anything we own could go as fast and then stop in mid-air.

Clawson, Michigan 8 February 1967

SAF-OICC/Mrs Cassel/bp/79079/25 May 67

MAY 25 1967

Dear Mr. [redacted]

This replies to your recent correspondence concerning your unidentified observation. Examination of the submitted data fails to reveal a positive identification, primarily because of the lack of essential data such as flight characteristics, angular velocity, and how the object disappeared.

No other unidentified flying object reports were submitted to the Air Force from the vicinity of Clawson, Michigan for February 8, 1967.

At this late date a meaningful scientific investigation is not possible. It is important for an individual to report his observation to the Air Force as soon as possible after the sighting. This enables Air Force analysts to perform a comprehensive investigation. The submitted information will be added to the present data for possible future reference.

Sincerely,

GEORGE P. FREEMAN, JR.

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? 30

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? 10 yards

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

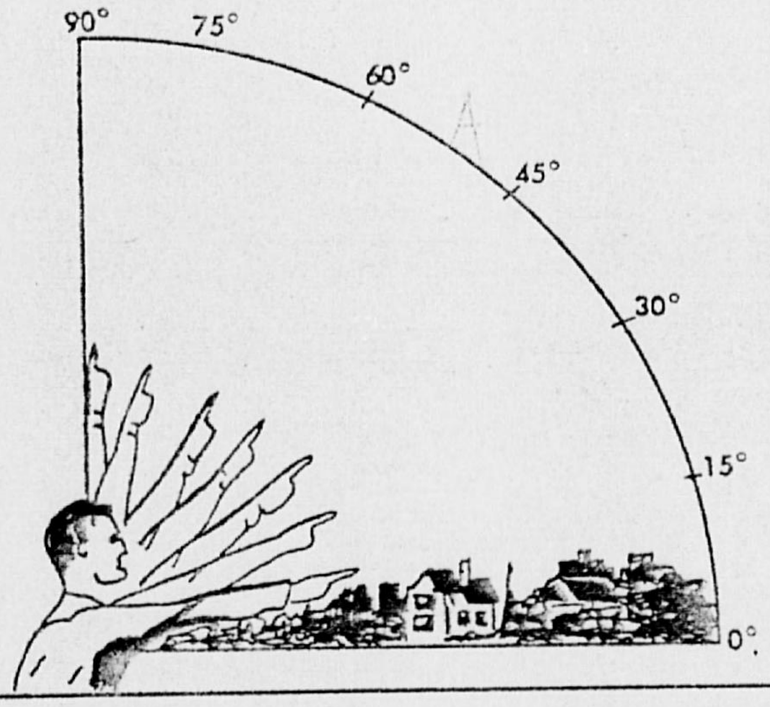
a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other _____		

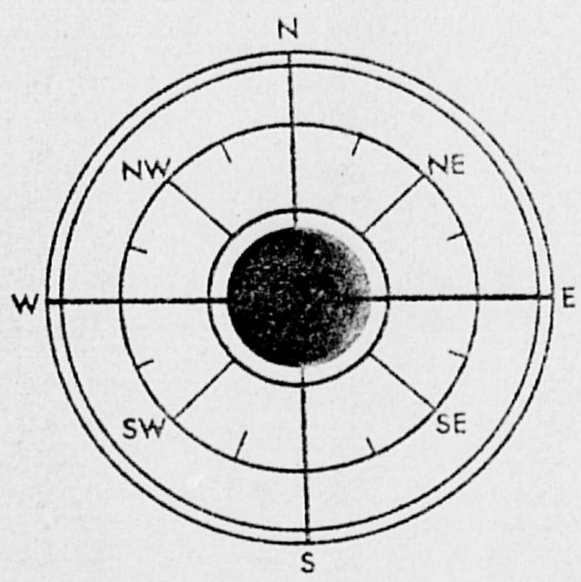
26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

[illegible] like [illegible]

Official U.S. Air Force

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.





28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there?_____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

UFO form continued

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes No

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [redacted] _____ _____ _____
Last Name First Name Middle Name

ADDRESS [redacted] _____ _____ _____
Street City Zone State

TELEPHONE NUMBER [redacted] SEX _____

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

_____ _____ _____
Day Month Year

Official U.S. Air Force

34. Date you completed this questionnaire: 9 (Day) 2d (Month) (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

It was overcast a long
to the ground and it was
a bell and it disappeared

Proposed reply to UFO report from Mr. [redacted]

Dear Mr [redacted]

This replies to your recent correspondence concerning your unidentified observation. Examination of the submitted data fails to reveal a positive identification, primarily because of the lack of essential data such as flight characteristics, angular velocity, and how the object disappeared.

No other unidentified flying object reports were submitted to the Air Force from the vicinity of Clawson, Michigan for 8 February 1967.

At this late date a meaningful scientific investigation is not possible. It is important for an individual to report his or her observation to the Air Force as soon as possible after the sighting. This enables Air Force analysts to perform a comprehensive investigation. The submitted information will definitely be added to the present data for possible future reference.

Dear Mr. [redacted]

President Johnson has asked that I reply to your recent letter regarding your sighting of an unidentified flying object (UFO).

Thank you for forwarding your report. It has been forwarded to our Project Blue Book officials for their evaluation.

Your interest in this subject is appreciated and I am attaching a booklet which you may find of value.

Sincerely,

Signed

OFFICIAL U.S. AIR F

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

9 (Day) 2 (Month) 1967 (Year)

2. Time of day: 7 (Hours) 10 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern
(b. Central)
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b. Standard)

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) Beloit (City or Town) Wisconsin (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) 1 or 2 (Minutes) _____ (Seconds)

a. Certain
(b.) Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? _____

5.2 Was object in sight continuously? Yes ✓ No _____

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

NIGHT ✓
a. Bright ✓
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, jul 61, which is obsolete.

ORCE UFO FORM

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight—pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light 5
e. Don't remember

The shape was not visible. Only the series of lights

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

Similar to Neon Sign

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other Not seen Too dark Only lights seen.

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

64

Official U.S. Air Force UF

14. Did the object disappear while you were watching it? If so, how?

Gradually Disappeared Like Any object, such as a plane, disappears

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound Absolutely Silent - This seemed important!

b. Color lights were red, green and white

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

only a few lights would have been covered.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

It was night. I saw only lights. I'm not certain how many, but they were bright red, green and white. Regardless of the angle from which I viewed it, I could always see at least 4, 5, or 6. They blinked on and off consecutively, very rapidly.

. Air Force **UFO form continued**

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

If you answered YES, then what speed would you estimate? About 150 - 200 M.P.H.

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

If you answered YES, then how far away would you say it was? About same altitude as a small plane flies

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
(b. In a car)
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. If you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) (Yes) No

Stopped as soon as I saw it

25. Did you observe the object through any of the following?

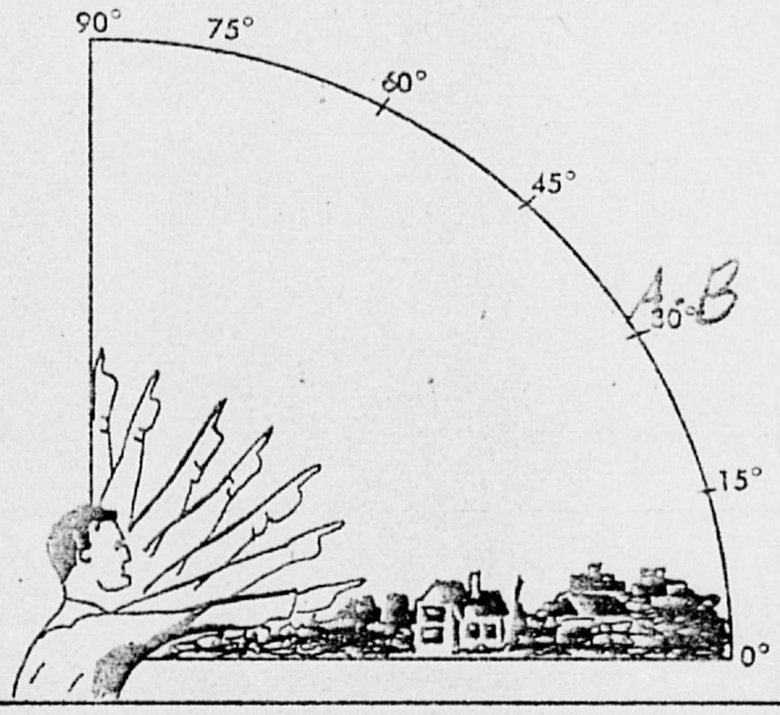
a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other Got out of car. Eyes only.		

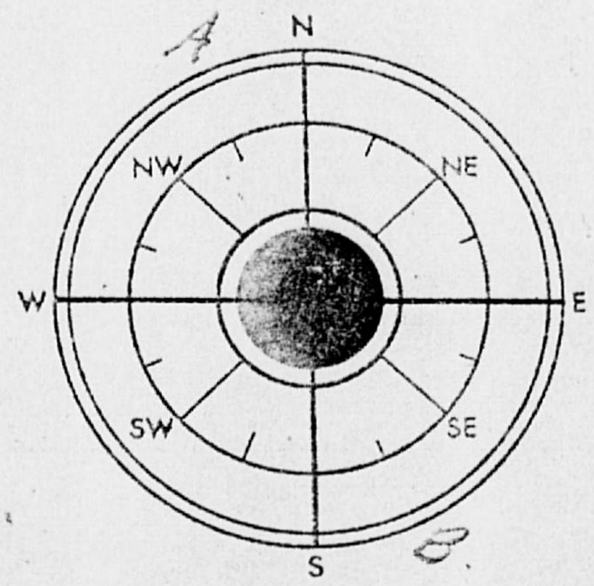
26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

It reminded me of the shape of dirigibles that used to fly over New Jersey from Lakehurst.

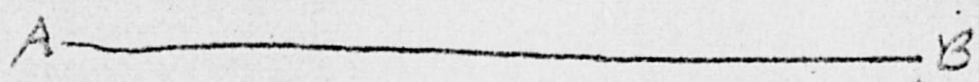
Official U.S. Air Force

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.





28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.



29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

UFO form continued

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

No

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses: I stopped a car that was coming in order to confirm the object.

Mr. & Mrs. [redacted]
Beloit, Wisconsin

32. Please give the following information about yourself:

NAME [redacted]
Last Name — First Name — Middle Name

ADDRESS [redacted]
Street — Beloit — City — 53511 — Zone — Wisconsin — State

TELEPHONE NUMBER [redacted] AGE 33 SEX F

Indicate any additional information about yourself, including any special experience, which might be pertinent.

When and to whom did you report that you had seen the object? I did not report it until now.

Day — Month — Year

34. Date you completed this questionnaire: 26 Day / 2 Month / 1967 Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

There is one main factor which convinced me that the object was not a plane of any kind:

Considering the apparent nearness of the object, the extreme brightness of the brilliant lights, the fact that I observed it as it approached, was directly opposite, and then as it went away from me;

Considering that it was fairly low in the sky;

Considering that the wind was fairly calm and the area right at the town line limits was perfectly quiet,

There was no sound coming from the object, at any time while I observed it.
