| 14. | Did the object disappear while you were vatching it? If so, how?  |
|-----|---|
|     |   |
|     |   |
| 15. | Did the object move behind something at any time, particularly a cloud?   |
|     | (Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind:   |
|     |   |
| 16. | Did the object move in front of samething at any time, particularly a cloud?  |
|     | (Circle One): Yes No Don't Know. IF you answered YES, then tell what in front of:   |
|     |   |
| 17. | Tell in a few words the following things about the object:  |
|     | a. Sound  |
|     | b. Color  |
|     | We wish to know the angular size. Hold a match stick at arm's length in line with a known object and not how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?  |
|     | 1/6 1/39  |
|     | Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw suck as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving. |
|     | I bearing light designed of disorder about  |
|     |   |
|     |   |

| <b>20.</b> | Do you think you can estimate the speed of the object?   |
|------------|--|
|            | (Circle One) Yes (No)  |
|            | IF you answered YES, then what speed would you estimate?   |
|            | ······································   |
| 21.        | Do you think you can estimate how far away from you the object was?  |
|            | (Circle One) Yes (No)  |
|            |  |
|            | IF you answered YES, then how far away would you say it was?   |
| 22.        | Where were you located when you saw the object? 23. Were you (Circle One)  |
|            | (Circle One):  a. in the business section of a city?   |
|            | a incide a building  |
|            | b. In a car  () / / / / / / / / / / / / / / / / / / /  |
|            | c. Outdoors d. Near an airfield?   |
|            | d. In an airplane (type)  e. Flying over a city?   |
|            | e. At sea  |
|            | f. Other g. Other  |
| 24.        | 1F you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:  24.1 What direction were you moving? (Circle One)  |
|            | a. North c. East e. South y. West  |
|            | b. Northeast d. Southeast f. Southwest h. Northwest  |
|            | 24.2 How fast were you moving?miles per hour.  |
|            |  |
|            | 24.3 Did you stop at any time while you were looking at the object?  |
|            | (Circle One) Yes No  |
| 25.        | Did you observe the object through any of the following?   |
|            | a. Eyegiasses Yes No e. Binoculars Yes No  |
|            | b. Sun glasses Yes No f. Telescope Yes No  |
|            | c. Windshield Yes No g. Theodolite Yes No  |
|            | d. Window glass Yes No h. Other  |
| 26         | In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw to have the same appearance as the object which you saw the same appearance as the object which you saw the same appearance as the object which you saw the same appearance as the object which you saw the same appearance as the object which you saw the same appearance as the object which you saw the same appearance as the object which you saw the same appearance as the object which you saw the same appearance as the object which you saw the same appearance as the same appearance a |
|            |  |

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass where you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

Mo Morion Justa Angun Mil

29. IF there was MORE THAN ONE object, then how many were there?

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you first saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you last saw it. Place an "A" on the compass when you first saw it. Place a "B" on the compass where you last saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

| 30. Have you ever seen this, or a similar object before. If so give date or dates and location.  2 MARCH 67 Seme Location  |
|--|
| 31. Was anyone also with you at the time you saw the object? (Circle One)  31.1 IF you answered YES, did they see the object too? (Circle One)  31.2 Please list their names and addresses:  DAYTON 45414 OH10  age 26 |
