Dear Sirs:

I didn't know what to do about what I saw the other night. I guess I lost my head + panicked.

I was over my girl friend's house. We were fooling around, ~~(flying)~~ writing notes to a boy. As we were writing we were watching television at the same time.

At exactly 7:32 P.M. I left her house. I stood out on the back porch looking around. The sky was dark and the wind was blowing hard. After looking around I saw something in the sky at a 70° angle to an 85° angle. It had bright lights and was traveling at a speed of about 95-100 mph.

I walked out into the street and turned to see if ~~D.~~ was watching. I looked up and saw the U.F.O. was on a down-ward slant towards me. I started running. I looked back to see it going at a lower angle. I started running faster & faster.

I ran so fast that when I turned around I was in my drive way. When I got in the house I saw the thing just hovering about. Then just as fast as it came it went! I was so frightened that I was white. For the rest of

The night I was scared stiff. I couldn't even hold a glass of water in my hand.

That's my story. I know I shouldn't have panicked but I just jumped at the chance of running. There was no hesitation in what to do - run!

I Ran. All the way home!
So please take this letter into consideration.

Sincerely,

B.

I don't wish to reveal my last name, for fear of being laughed at and called a liar. Please write back as soon as you can. And I'm sure my group would like to have some information on U.F.O.s. T. thanks.

Thank You.
