BALLOON

BALLOON WAS BEING USED TO TEST AIR-FOIL CONFIGURATIONS

MEMOFOR THE RECORD 31 July 1967, 1235

SUBJECT: UFO Observation, 31 Jul 67

Mrs. [redacted]d called from her place of employment, Ohio Bell, on Valley Street, [redacted]She and her fellow workers were presently observing a UFO over the Huffman Dam area towards Wright-Field. She said it was silver on top and real gray. The object was up in the air and quite big. The shape of the object was like a ball. Contact was made with the Patterson Flight Tower, ext 77050. According to Sgt Stanley they could see a balloon that was anchored over in the Wright-Field area. This had been coordinated with Base Ops. They suggested we call ext 76206, Base Ops. Upon contacting Base Ops it was determined that this was a 19ft balloon and was anchored at Wright-Field. The balloon would be up and down for a period of the next two or three months, depending on weather conditions. This balloon was up a couple of times last week. The balloon is being used for testing air-foil configurations. The witnesses called back and asked if we knew what it was. We replied that we did. Witness said they had ridden over to the area of the sighting themselves and noticed that it was a balloon.

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

30 | 0430Z

1. When did you see the object?

31 (Day) / July (Month) / 1961 (Year)

2. Time of day: 12: (Hour) 30 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

[redacted] Rd (Nearest Postal Address) / Dayton (City or Town) / Ohio (State or County)

5. How long was object in sight? (Total Duration) _____ Hours / 3 Minutes / _____ Seconds

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? Estimate

5.2 Was object in sight continuously? Yes ✓ No ____

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

NIGHT
a. Bright
(b. Cloudy)

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FTD FORM OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

_____

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember

e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

14. Did the object disappear while you were watching it? If so, how?

no

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound I couldn't hear any sound because it was
b. Color with all the [illegible] around it

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

none

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails.

Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? as far as the star

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other in a tent

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other open lot

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

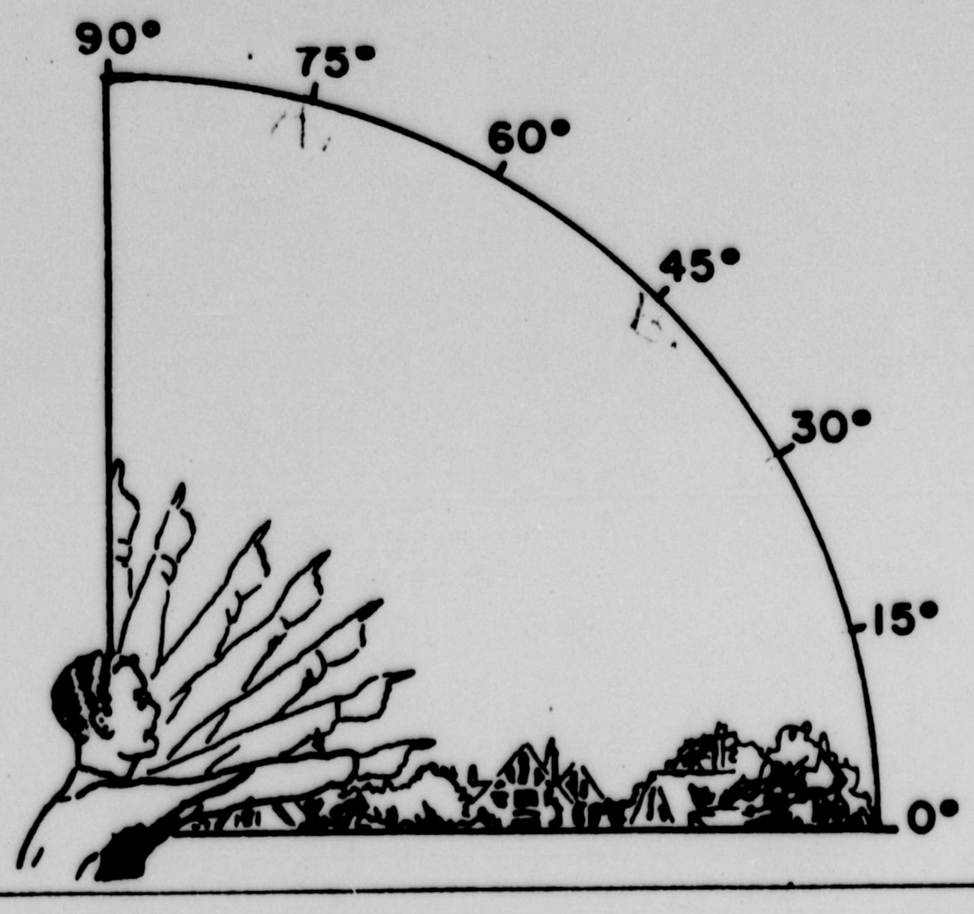

25. Did you observe the object through any of the following?

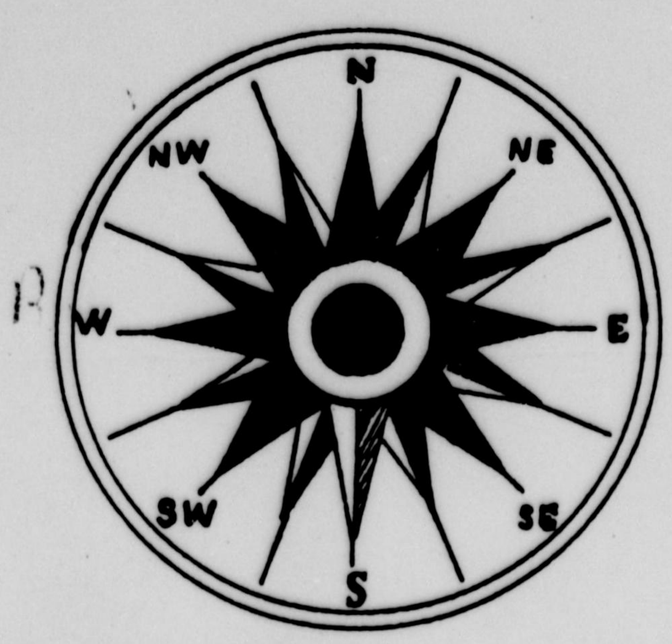

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other none		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

a light bulb

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses:

[redacted]

32. Please give the following information about yourself:

NAME [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] Dayton 16 Ohio
Street City Zone State

TELEPHONE [redacted] AGE 18 SEX male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

1 August 0
Day Month Year

34. Date you completed this questionnaire: 3 (Day) Aug. (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

34. Date you completed this questionnaire: 3 (Aug. 1967

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds ✓
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
(d.) As a light Star
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

Much (a.) Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

100 times more bright than stars

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star blurred ✓
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	(No)	Don't know
b. Suddenly speed up and rush away at any time?	Yes	(No)	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	Yes	(No)	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	Yes	(No)	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

14. Did the object disappear while you were watching it? If so, how?

Vanished in mid. of sky

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

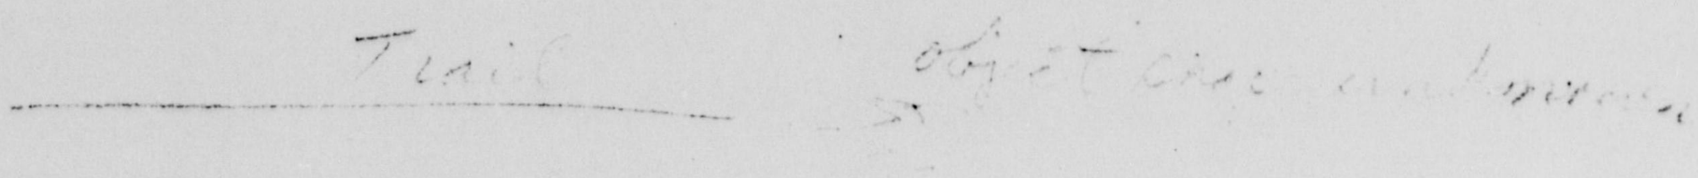

a. Sound None

b. Color White

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

3 Times size of Star visible at that time

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

20. Do you think you can estimate the speed of the object?

(Circle One) (Yes) No

IF you answered YES, then what speed would you estimate? Slower than aircraft

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? Closer than stars

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
(c.) Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
(b.) In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving? _____ miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

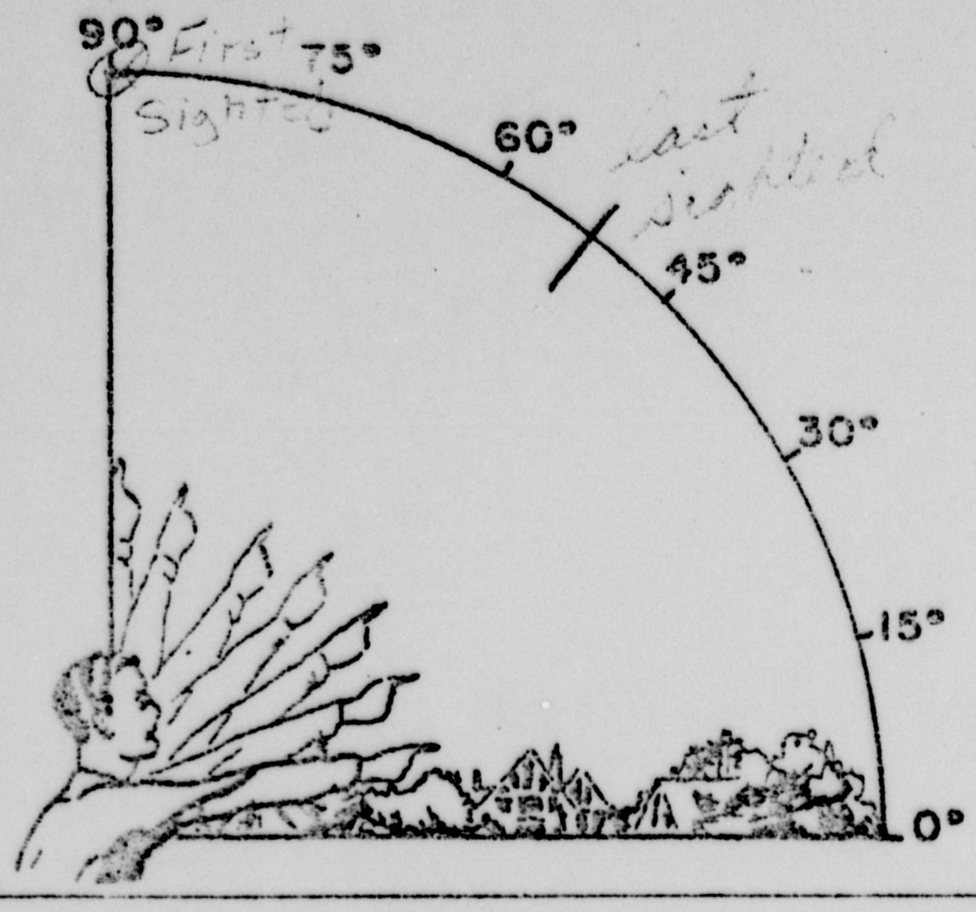

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other _____		

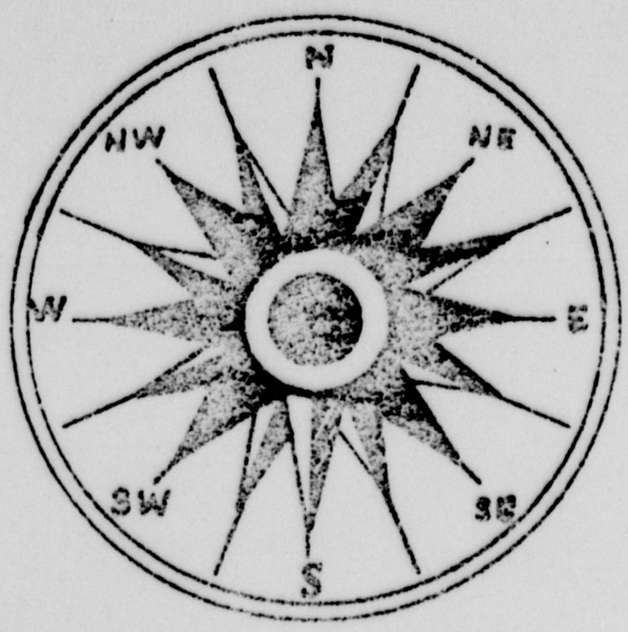

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

N/A

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

Headed N.W.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

Straight Line

29. IF there was MORE THAN ONE object, then how many were there? One

Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes No

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

MEMO FOR THE RECORD 17 August 1967

Subject: UFO Sighting, 16 August 1967

Received a phone call from [redacted], and he stated he observed several UFOs on the night of 16 Aug 67, with the following times and descriptions:

FIRST SIGHTING: At 2130 observed a whitish stationary object in the northwestern portion of the sky, watched object for a few minutes and it disappeared.

SECOND SIGHTING: About an hour later (2245) second object came into view from West-North direction. Object had six rays of light, white, orange, red. Had a zig-zag motion. Observer stated that the rays of light were about the same intensity of aircraft lights. He stated that the orange, white, red colors went on and off. He stated that as he was watching the lights they just went out and disappeared from sight.

THIRD SIGHTING: Observer stated that he kept on looking to see if he could find the object again, but was unable to. About three minutes later, another light came into view (did not state color of this light) the same place the light had disappeared from. Observer did not state if light was moving or not, stated that the light was pulsating.

FOURTH SIGHTING: Observer stated thnt about two weeks before he had observed the ones on 16 Aug 67, he was lying in his backyard and was looking at the stars when he noticied this object traveling from north to south at a great rate of speed. He only observed it for a few seconds. Mr [redacted] stated that his brother-in-law was with him at the time of the sighting.

The witnesses were:

[redacted] Louisville, Kentucky 40206 [redacted]d Louisville, Kentucky 40205

Mr. [redacted] stated that he would like to know what they saw on 16 August. I informed Mr. [redacted] that after they returned the FTD Forms 164 to our office we would inform them of our evaluation.

September 28, 1967

Dear [redacted]

From the description given in your letter, postmarked September 24, it is impossible to tell what you saw. Had you reported your sighting to the UFO technical people at Wright-Patterson Air Force Base, they would have been able to tell you what you saw. Even at this late date, they may be able to do so if you will complete the attached form and send it in the inclosed envelope in which you may forward it to them, postage free.

You may also be interested to know that Dr. Edward U. Condon and his group at the University of Colorado are investigating unidentified flying objects (UFOs), and their report is expected in the late fall of 1968.

In the meantime, we are sending you some information that we hope you will find both interesting and informative. And incidentally, we do not comment on unofficial literature on UFOs. These books, pamphlets, etc. are not reviewed, indorsed, sponsored, nor sanctioned by the U. S. Air Force.

Sincerely,

Civil Branch
Community Relations Div.

Mr [redacted]

[redacted]

Texas (Baytown) 79720

What are you doing about these UFO's. Like other night at about 10:30 P.M. I thaught I saw a sattalite. But then it stoped, woken down, & then slid down about 45° from it's course. Then it stoped & just disapered. My dad & I both saw it disapear.

Now you & I both know that sattalites don't do that.

I've read in books & papers about this &

people have seen
taken pictures of these.
What do you
guys want answers.
Why don't you get
a program started &
find out what's going on.
You know all
these millions of people
that have seen & taken
pictures of these aint be
wrong. Please answer
their letter & do
something about the
UFO's. Thank You.
Sincerely Yours,
[redacted]
Dayton, Texas

b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight – pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

_____

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object: *(Circle One for each question)*

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

Received narrative, on back page. DAYTON, OHIO

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

_____ Day _____ Month _____ Year

2. Time of day: _____ Hour _____ Minutes

(Circle One): A.M. or P.M.

3. Time Zone:

(Circle One): a. Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
b. Standard

4. Where were you when you saw the object?

_____ Nearest Postal Address _____ City or Town _____ State or County

5. How long was object in sight? (Total Duration) _____ Hours _____ Minutes _____ Seconds

a. Certain
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? _____

5.2 Was object in sight continuously? Yes ____ No ____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. Bright
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One):
a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, Jul 61, which is obsolete.

Send 164

20. Do you think you can estimate the speed of the object?

(Circle One) Yes No

IF you answered YES, then what speed would you estimate? _____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes No

IF you answered YES, then how far away would you say it was? _____

22. Where were you located when you saw the object? (Circle One):

a. Inside a building
b. In a car
c. Outdoors
d. In an airplane (type)
e. At sea
f. Other _____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other _____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North
b. Northeast
c. East
d. Southeast
e. South
f. Southwest
g. West
h. Northwest

24.2 How fast were you moving? _____miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	No
d. Window glass	Yes	No	h. Other _____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

14. Did the object disappear while you were watching it? If so, how?

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what it moved behind: _____

_____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't Know. IF you answered YES, then tell what in front of: _____

_____ _____

17. Tell in a few words the following things about the object:

a. Sound _____

b. Color _____

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes No

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [redacted] [redacted] [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] DAYTON 09 OHIO
Street City Zone State

TELEPHONE NUMBER [redacted] AGE 20 SEX Female

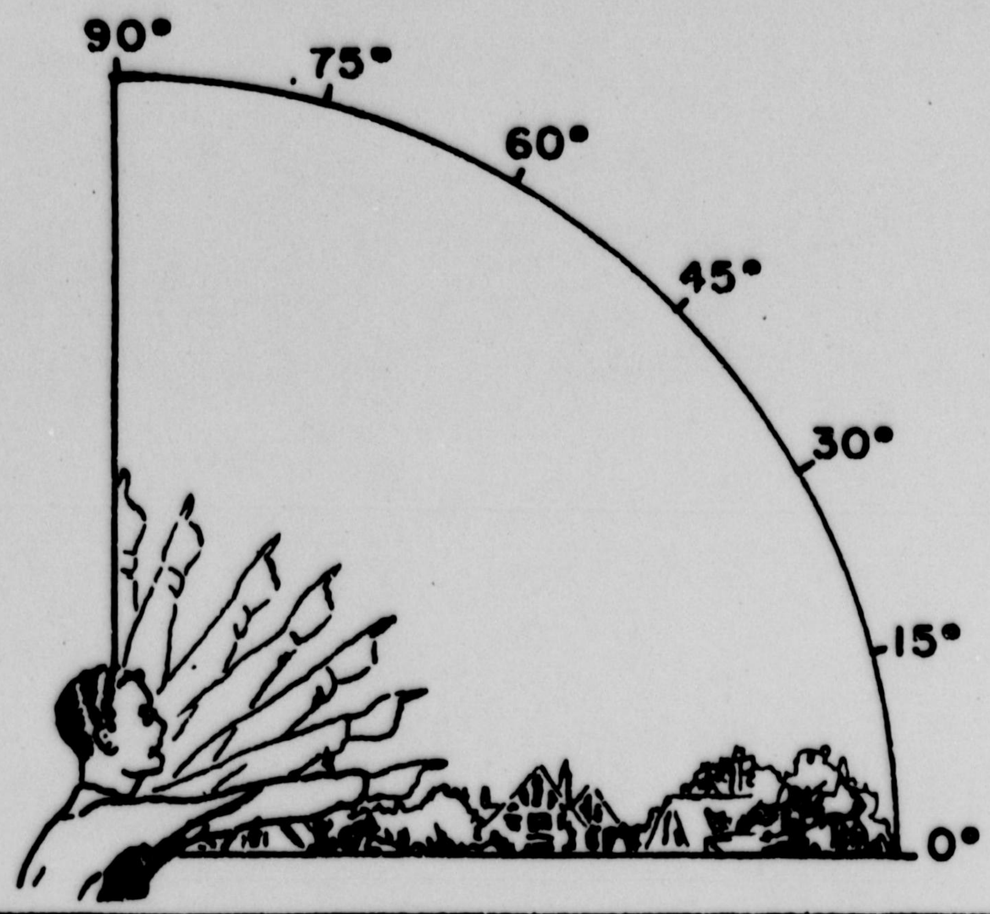

Indicate any additional information about yourself, including any special experience, which might be pertinent.

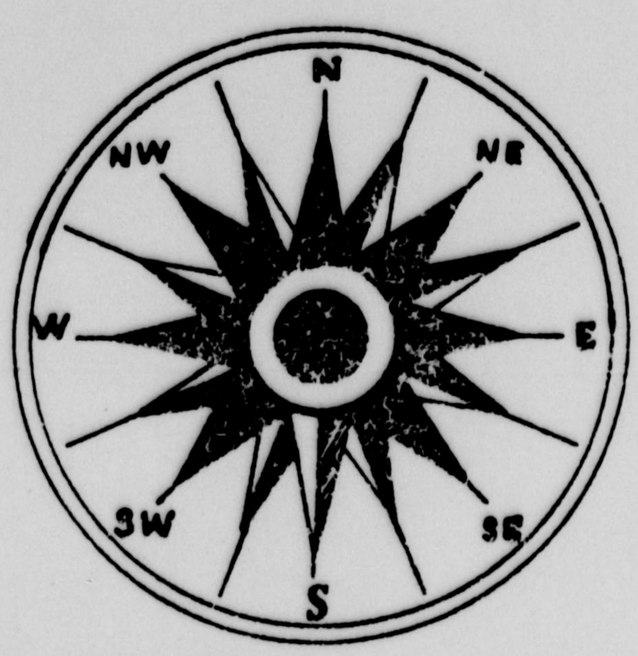

+ [redacted], 20, same address.

33. When and to whom did you report that you had seen the object?

Day Month Year

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass where you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? _____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

34. Date you completed this questionnaire: ____ Day ____ Month ____ Year

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

at about 1130 pm, 1 Sept, looked out bedroom window of 7th floor, and saw real bright, flickery star-like object, that was about twice as big as a star, and had a lot of red color to it changed color, got gradually larger, (but not to more than 3 times a star). object was moving up and to the right, very gradually. at 12 pm, had been watching object for about 30 minutes, had moved but not very far; object was N.E. of dormitory (northeast of Miami valley hospital).

	10. CONCLUSION Debris ??? Possible Other (SATELLITE DECAY) Additional information was requested [illegible] SPADATS reported that object #2020, [illegible] at 0900 plus or minus 12 hrs on the [illegible] that they did not know the [illegible] this object.
[illegible] OF OBSERVATION	11. BRIEF SUMMARY AND ANALYSIS Object resembled fireworks with a magnitude of [illegible] -1. It was moving towards the West. Observer first noticed the object NE of him. Object vanished from sight by dimming to invisible. Before object disappeared, it split into smaller and dimmer trailing pieces. Observer stated he thought the object was a satellite re-entering the earth's atmosphere. Object appeared to have a horizontal path.

TDET/UFO (Maj Quintanilla/70916/mhs/4 Oct 67) OCT 5 1967

UFO Observation, 10 September 1967

Ann Arbor Police Department
Ann Arbor, Michigan 48106

1. The Aerial Phenomena Branch is investigating an unidentified flying object report from Ann Arbor for 10 September 1967 at 8:45 pm. The observer described it as a white light similar to a sky rocket; as it crossed the sky it split in two. The first object led the second by approximately five degrees. The objects traveled toward the northwest and took about thirty seconds to cross the sky.

2. If you have received other reports of this sighting or if you have any idea of what may have caused the sighting, such information would be helpful in making our evaluation.

JAMES C. MANATT, Colonel, USAF
Director of Technology and Subsystems

TDET/UFO OFFICIAL FILE CY

Hill Aud., and 7° as it disappeared. These figures are probably correct within about 3°.

I suppose the single most likely explanation for this thing is some sort of re-entry vehicle burn-out. I don't think it was a skyrocket.

If you investigate this thing at all, I would appreciate, if possible, your telling me how what it was.

Yours truly,

[redacted]

Sept. 10-11, 1967

Send 164

Dear Sirs:

I observed a UFO that might interest you on the night of Sunday, September 10, 1967 in Ann Arbor, Michigan, at ~~Bitz p.m. by my watch~~ (8:45) by the clock in the Natural Sciences Bldg. at the U. of Michigan).

I am a 2nd-year graduate student in geology here. I was walking toward the geology building on North University Ave. and was only about 30 yards from the building when I saw an object which I took to be some sort of a skyrocket (fireworks). It was of magnitude 0 to (-1) and was moving roughly westward. It started northeast of me, passed behind Hill Auditorium almost due north of me, and finally vanished (dimmed down to invisibility) in the NW. Before it passed behind Hill Auditorium it split. The smaller (dimmer) trailing part gradually dropped farther behind the other. I would estimate that I watched this object for about 30 seconds. I began to think maybe it wasn't a skyrocket — maybe it was a satellite reentry or something. I began mentally kicking myself for not observing it more carefully. I have been interested in amateur astronomy for many years, but I did not observe the magnitude exactly and I can't swear to color (though I think the main body was brilliant white, like, say, Rigel, and perhaps the trailing body or something was bluish). The path passed between the constellation Cassiopeia and the ground as it was passing behind Hill Auditorium. The sky tonight is too lighted up and I can't see many stars. I think the thing first appeared sort of east of Andromeda. Anyway, it was about halfway between Cygnus and the ground. It disappeared between the bowl of the Big Dipper and the ground. It seemed to have a horizontal path. The trailing piece reached about 4 or 5 degrees behind the larger. I think it disappeared first, and the other vanished behind a drugstore before I ran to a point from which I could see it for another 5 seconds or so. I saw an airplane appear a few seconds later, about where the "UFO" had appeared. The moon is out tonight and almost half full, far south of this object. I heard no sound from the object.

Next day - I used my Brunton compass and figured I first saw the object N65E from me, it split at about N65E from me, led out about N15W from me. Elevation above horizon, I

Dear Sir: Attn: TDET/UFO

This will acknowledge receipt of your letter of October 5, 1967 advising that you are investigating an unidentified flying object report from Ann Arbor for Sept. 10, 1967 at 8:45 p.m.

Enclosed herewith are copies of two complaints received by this department on September 10, 1967. As the calls came in, patrol officers (all) were notified; however, the officers reported no sightings of the objects.

If we can be of any further assistance, please feel free to contact us.

Yours very truly,

WALTER KRASNY, Chief of Police

1. When did you see the object?

Sunday (Day) Sept (Month) 1967 (Year)

2. Time of day: 15 (Hours) 30 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. (Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. (Daylight Saving)
b. Standard

4. Where were you when you saw the object?

[redacted] (Nearest Postal Address) Nutley (City or Town) N.J., Essex (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) _____ (Minutes) 12 (Seconds)

a. Certain
b. (Fairly certain)
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? took a count

5.2 Was object in sight continuously? Yes ✓ No _____

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	a. Bright
b. (Cloudy)	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. (To your left)
e. Overhead
f. Don't remember

FORCE UFO FORM

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight—pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. (Thick or heavy clouds)

WEATHER *(Circle One)*:

a. (Dry)
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. (Solid)
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

like sun shining on silver

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
c. (Sharply outlined)
d. Don't remember
e. Other_____

13. Did the object:

	(Circle One for each question)		
a. Appear to stand still at any time?	Yes	No	(Don't know)
b. Suddenly speed up and rush away at any time?	(Yes)	No	Don't know
c. Break up into parts or explode?	Yes	(No)	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	Yes	(No)	Don't know
f. Change shape?	Yes	(No)	Don't know
g. Flash or flicker?	Yes	(No)	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

disappeared back into clouds

64

Official U.S. Air Force

14. Did the object disappear while you were watching it? If so, how?

gee into the clouds

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): (Yes) No Don't know. IF you answered YES, then tell what it moved behind: it went up into clouds

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): (Yes) No Don't know. IF you answered YES, then tell what in front of: a cloud

17. Tell in a few words the following things about the object:

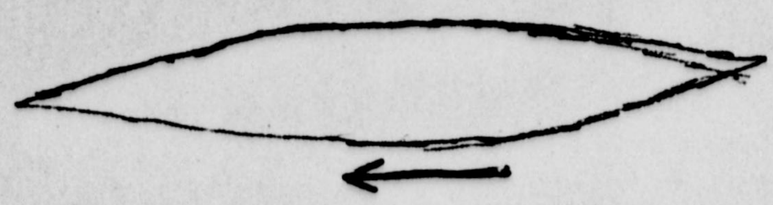

a. Sound none

b. Color silver

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

entire object

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

object was moving west

UFO form continued

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate?_____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? somewhere between 1 and 3 miles

22. Where were you located when you saw the object?
(Circle One):

a. Inside a building
b. In a car
c. (Outdoors)
d. In an airplane (type)
e. At sea
f. Other_____

23. Were you *(Circle One)*

a. In the business section of a city?
b. In the residential section of a city?
c. (In open countryside?)
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other_____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving?_____miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

25. Did you observe the object through any of the following?

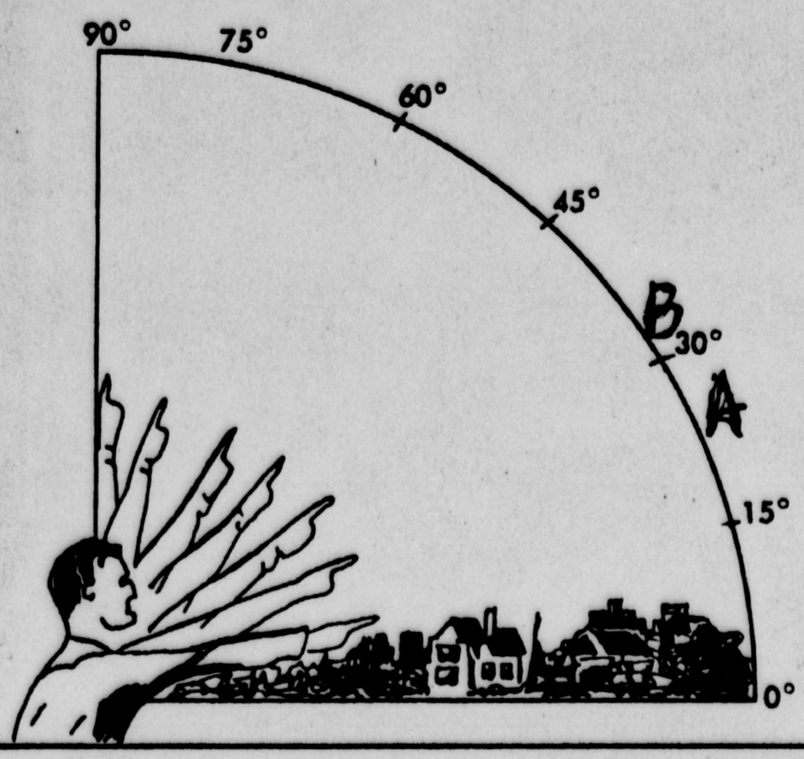

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other normal vision		

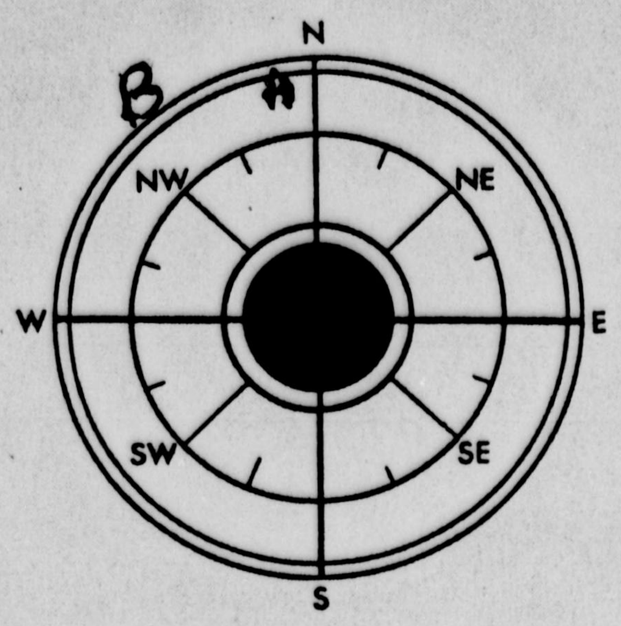

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

none

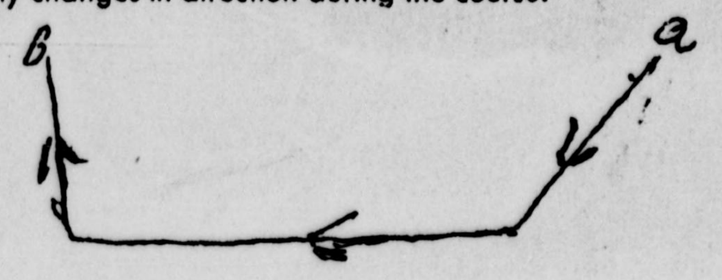

Official U.S. Air Force

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there? one
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

JFO form continued

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

-no

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses:

[redacted]

32. Please give the following information about yourself:

NAME [redacted] (Last Name) _____ (First Name) Jude (Middle Name)

ADDRESS [redacted] (Street) Bentley (City) 87110 (Zone) NM (State)

TELEPHONE NUMBER [redacted] AGE 13 SEX male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

esspert shot with 22 rifle

33. When and to whom did you report that you had seen the object?

24 (Day) 9 (Month) 1967 (Year)

I reported this to my father

c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

64

Official U.S. Air Force

14. Did the object disappear while you were watching it? If so, how?

NO

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

a. Sound none, as far as can

b. Color bright white

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of th object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much the object would have been covered by the match head?

half a foot

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the obj that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawi to show the direction the object was moving.

UFO form continued

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate?_____

21. Do you think you can estimate how far away from you the object was?

(Circle One) (Yes) No

IF you answered YES, then how far away would you say it was? 200 ft.

22. Where were you located when you saw the object?
(Circle One):

a. Inside a building
b. In a car
c. (Outdoors)
d. In an airplane (type)
e. At sea
f. Other_____

23. Were you (Circle One)

a. In the business section of a city?
b. In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other_____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? (Circle One)

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving?_____miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

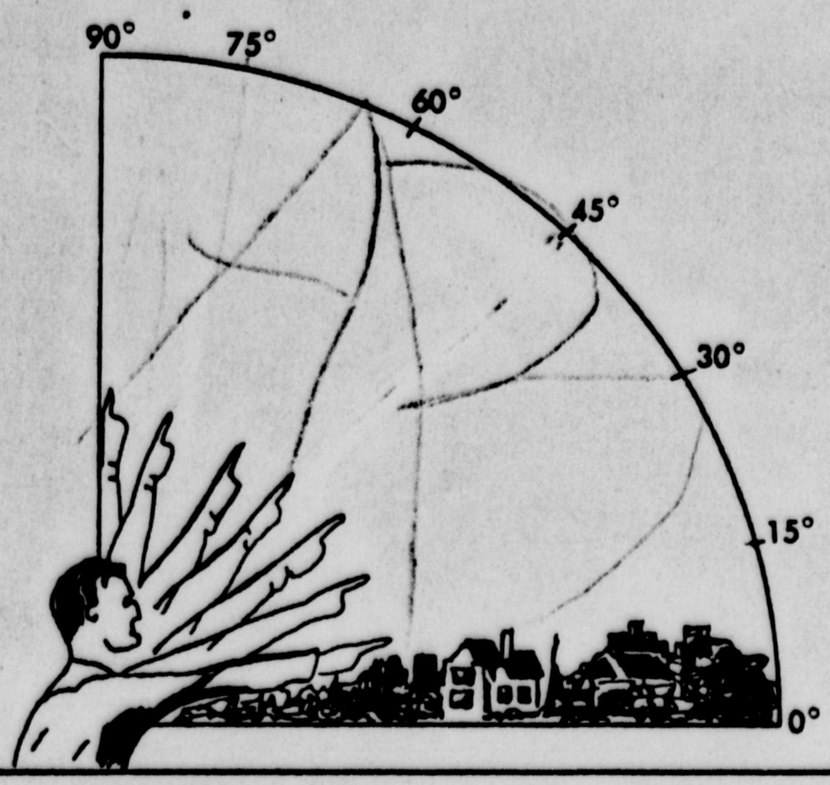

25. Did you observe the object through any of the following?

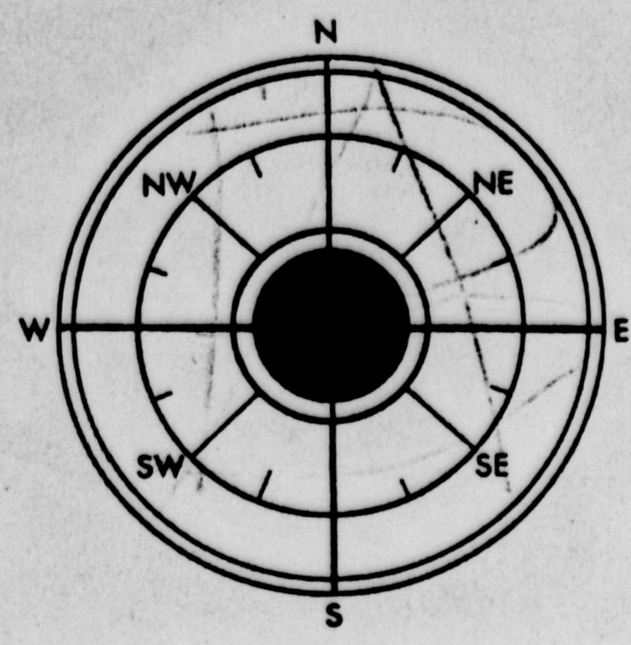

a. Eyeglasses	Yes	No	e. Binoculars	Yes	No
b. Sun glasses	Yes	No	f. Telescope	Yes	No
c. Windshield	Yes	No	g. Theodolite	Yes	(No)
d. Window glass	Yes	No	h. Other_____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

rocket

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.

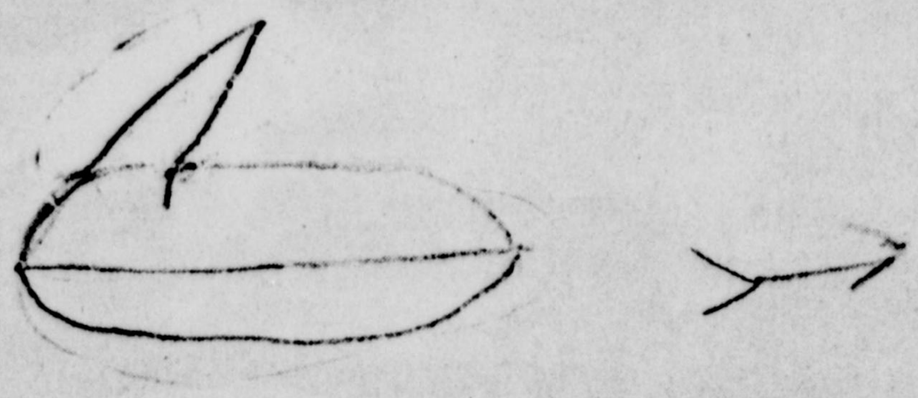

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

29. IF there was MORE THAN ONE object, then how many were there?_____
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

UFO form continued

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes (No)

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes (No)

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [redacted] Last Name Middle Name

ADDRESS [redacted] Street Old Card City Zone N D State

TELEPHONE NUMBER [redacted] AGE 12 SEX male

Indicate any additional information about yourself, including any special experience, which might be pertinent.

Flying Saucers 250
By MICHAEL R. COREL
LONDON AP - Police investigated six mysterious objects—all resembling miniature flying saucers and making noises—found in different parts of southern England on Monday.
The "things" were each about 4 feet long, 2½ feet wide and 1½ feet thick, oval shaped, and with two hemispheric bulges on top and bottom. They were made of what looked like fiberglass and were silver gray in color.
They emitted hums, beeps and whistles, and an observer of one thought they were filled with liquid. Each weighed more than 100 pounds.
They were first thought to be student hoaxes, but the police, military, and Air Ministry took them seriously and carted them off for X-ray examination. And Monday night Britons saw them on television.
Scotland Yard sent five detectives to Sundridge Park golf course, at Bromley, Kent, southeast of London, after a patrolman found the first object. It was taken to a police station.
A police spokesman said: "It is cleverly made and there are mystifying features." It gave out a continuous "bleep-bleep."
The second was found by a farmer in Chippenham, Wiltshire. He said it made a noise like a motor starting when it was tipped up, and was filled with liquid. A Royal Air Force officer said he had never seen anything like it. It had not come from an aircraft because it had no attachments, he said.
The third was found by a schoolboy at Clevedon, Somerset. It gave off a whistle. It was later examined by an expert from the British Aircraft Corp.
Two more objects were found in Berkshire, near Newbury and Ascot. The army and the air force were called in on those.

A sixth was found on the Isle of Sheppey, off the east Kent coast.
Cynthia Tooth, 45, who lives near the spot where the Kent "saucer" was found, said she saw an fiery object fall from the sky early this morning. Other such sightings have been reported from Bromley in the past few weeks. Radio "ham" amateurs have complained of a "bleep-bleep" interference on their sets.

The points where the things were discovered lie in a generally straight west-east line over southern England, running from the Thames estuary to the Bristol Channel.
Britain has several active "unidentified flying object" clubs.
BJ445pcd Sept 4

Flying saucers Lead A042 no pickup 2nd

BY MICHAEL R. COFFEY

LONDON AP — Scotland Yard, the Air Ministry, the army and the air force teamed up Monday to determine that six saucer-shaped objects found giving off "bleep-bleep" signals in Southern England "were made in Britain—not Mars."

But for a while, experts had taken the episode with complete seriousness after a woman reported seeing a fiery object fall from the sky and radio hams complained of unusual interference on their sets.

The objects weighed about 100 pounds, were silver gray, about 7 feet long, 2½ feet wide and 1½ feet thick. They had bulges on top and bottom, seemed to be made of fiberglass and were discovered in six widely separated places along a line from the Thames estuary to the Bristol Channel.

The Air Ministry carted some off for X-ray tests, Scotland Yard sent five detectives to a distant golf course where one was located, another was impounded by police and the British Aircraft Corp. sent a man to take a look. Britons got to see them on national television.

Finally, an expert cut open one of the objects found by a schoolboy in Clevedon, Somerset. Inside were two British-made storage batteries, a British-made transmitter and a six-inch loud-speaker for sending out "bleep bleeps."

"If these objects were a hoax," he said, "they are a very expensive one." The saucers were estimated to cost about $70 each.

Something else the examiner found was a bad smell.

"The smell that came out was foul. "It is difficult to describe, but it was as bad as bad eggs. Inside there was about four gallons of an off-white substance that looked like a mass of soft, goey bread."

The mysterious substance? Pig swill, one investigator suggested.

Flying Saucers 2nd Lead AO4C No Ticker 320
By MICHAEL R. COREL
LONDON AP - Scotland Yard, the Air Ministry, the Army and the air force teamed up Monday to determine that six saucer-shaped objects found giving off "bleep-bleep" signals in southern England "were made in Britain—not Mars."
After the objects were exposed as a hoax, two young apprentices from the royal aircraft establishment at Farborough claimed they made the six "flying saucers" over a two-month period as part of a rag week—a time set aside by students for fun and raising money for charity.
But for a while, experts had taken the episode seriously after a woman reported seeing a fiery object fall from the sky and radio hams complained of unusual interference on their sets.
The objects weighed about 100 pounds, were silver gray, about 4 feet long, 2½ feet wide and 1½ feet thick. They were discovered in six widely separated places along a line from the Thames estuary to the Bristol Channel.
The Air Ministry carted some off for X-ray tests. Scotland Yard sent five detectives to a distant golf course where one was located, another was impounded by police and the British Aircraft Corp. sent a man to take a look. Britons got to see them on national television.
Finally, an expert cut open one of the objects. Inside were two British-made storage batteries, a British-made trangmitter and a six-inch loud-speaker for sending out the bleep-bleeps.
Christopher Southall and Roger Palmer, both 22, teamed up on the hoax.
Southall, explaining the objects' construction and a bad-smelling white substance found in them, said: "The 'things' are made of a special plastic, which we developed, backed up by glass fiber. The foul-smelling substance inside was simply a mixture of flour and water paste."
"Sunday night, 14 of us planted the objects so that it would appear that a team of flying saucers had landed in England. We did it to publicize our rag week at the end of this month. We aim to raise 2,000 pounds $5,600 for local charities, and this was the best way of drawing attention to it."
"We also thought we would give the police an exercise in dealing with alien spacecraft, because it could happen one day."

Results of Analysis on a "Black Ball"

SEP 22 1967

TDAOS

Results have become available from AFML on physical and chemical analysis conducted on a "black ball". Subject ball was the property of LTV Aerospace Corp. and handcarfied to Colonel Standifer (TDE) by Mr. Brennan A. Forcht of LTV. Analysis by the burn test showed that the composition of the inner portion of the ball conformed exactly with that used by Brunswick in the manufacture of duck pin balls. Additionally the Rockwell-C. hardness, density, core diameter and serrations, conformed with those on Brunswick duck pin balls. Analysis proved so conclusively that the item has been properly identified, no further exploitation is to be carried out. LTV was notified of these results on 18 September by telephone message from Mr. Van Dame, TDET.

OFFICIAL U.S. AIR

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

Fri, 1 Sept. 1967
Day Month Year

2. Time of day: 1 _____
Hours Minutes

(Circle One): (A.M.) or P.M.

3. Time Zone:

(Circle One): (a.) Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): (a.) Daylight Saving
b. Standard

4. Where were you when you saw the object?

Route 82 _____ Lorain Ohio
Nearest Postal Address City or Town State or County

5. How long was object in sight? (Total Duration) _____ 6 _____
Hours Minutes Seconds

a. Certain
b. Fairly certain
c. Not very sure
(d.) Just a guess

5.1 How was time in sight determined? Distance Traveled in car

5.2 Was object in sight continuously? Yes ✓ No _____

6. What was the condition of the sky?

DAY
a. Bright
b. Cloudy

NIGHT
(a.) Bright
b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORM FTD OCT 62 164 This form supersedes FTD 164, jul 61, which is obsolete.

FORCE UFO FORM

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight—pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

Car headlight in distance

12. The edges of the object were:

(Circle One):
a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other _____

13. Did the object: (Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

64

Official U.S. Air Force

14. Did the object disappear while you were watching it? If so, how?

Yes, Vanished

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

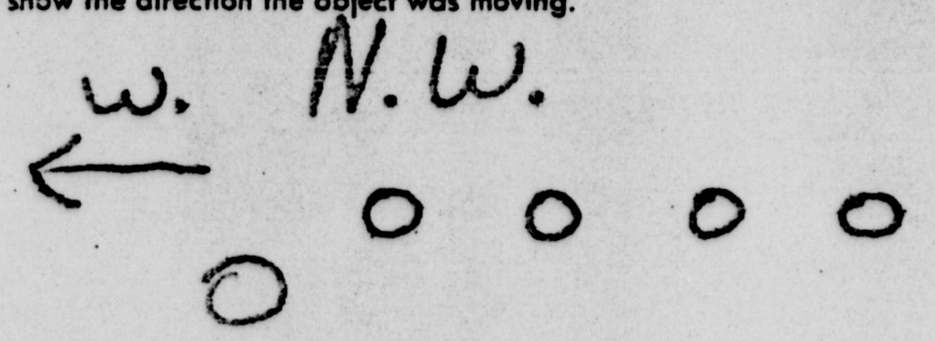

a. Sound None

b. Color Yellow

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

1/2

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

d. Don't know

11.1 Compare brightness to some common object:

_____

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other_____

13. Did the object:

(*Circle One* for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

Official U.S. Air Force

14. Did the object disappear while you were watching it? If so, how?

it was bright then it went dark

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what it moved behind: _____

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of: _____

17. Tell in a few words the following things about the object:

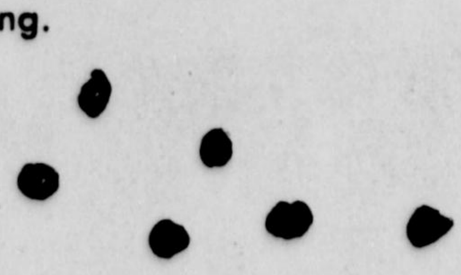

a. Sound none

b. Color real bright white

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

some of it

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

There were 6 of them

Blinked on and off, were stationary + moved.

UFO form continued

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate?_____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was?_____

22. Where were you located when you saw the object?
(Circle One):

a. Inside a building
b. In a car
(c. Outdoors)
d. In an airplane (type)
e. At sea
f. Other_____

23. Were you *(Circle One)*

a. In the business section of a city?
(b. In the residential section of a city?)
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other_____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving?_____miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

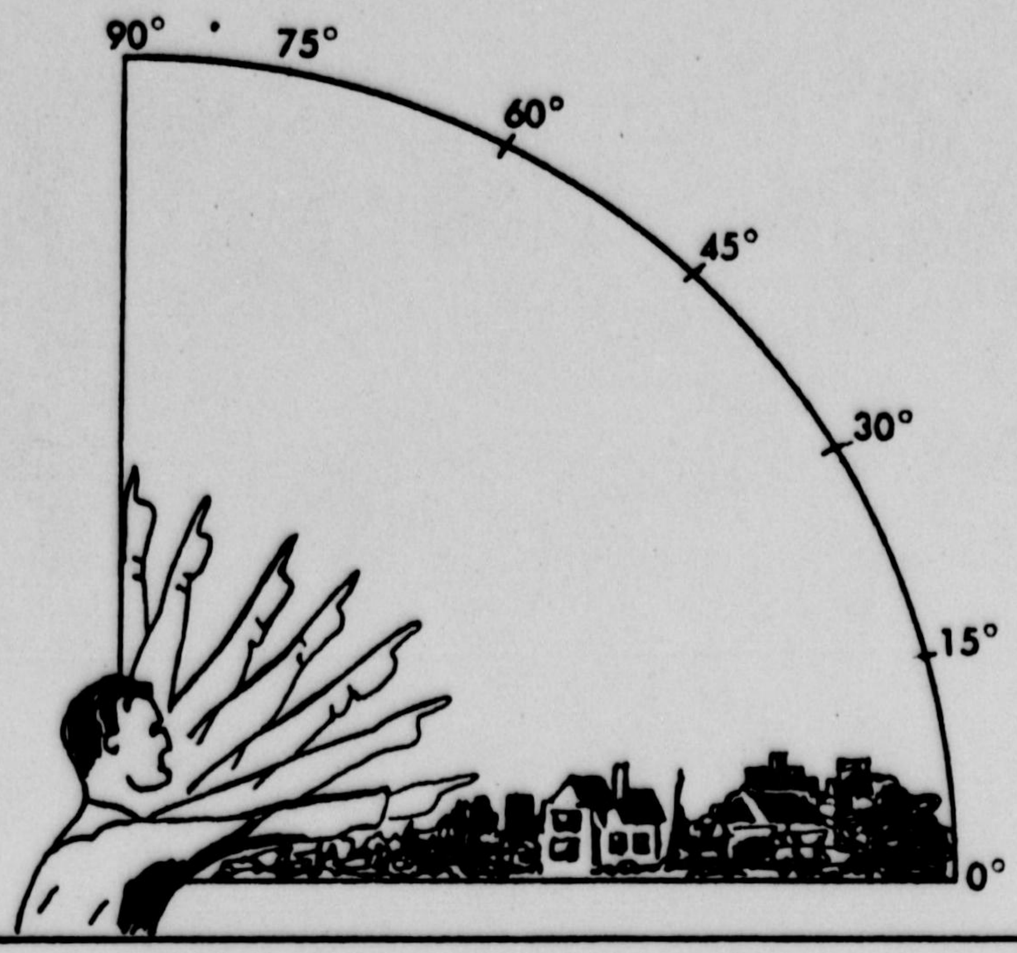

25. Did you observe the object through any of the following?

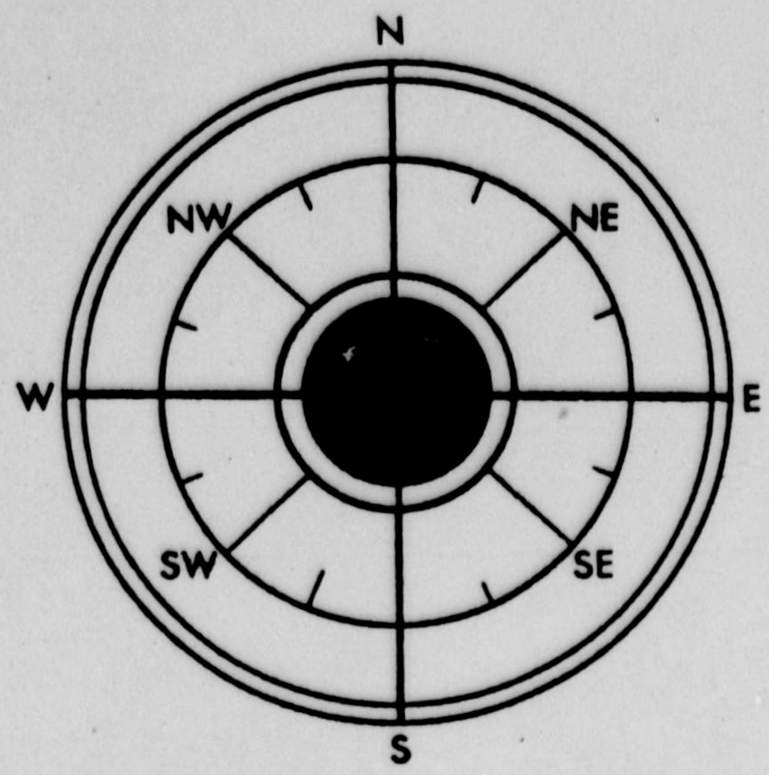

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other_____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

nothing

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.

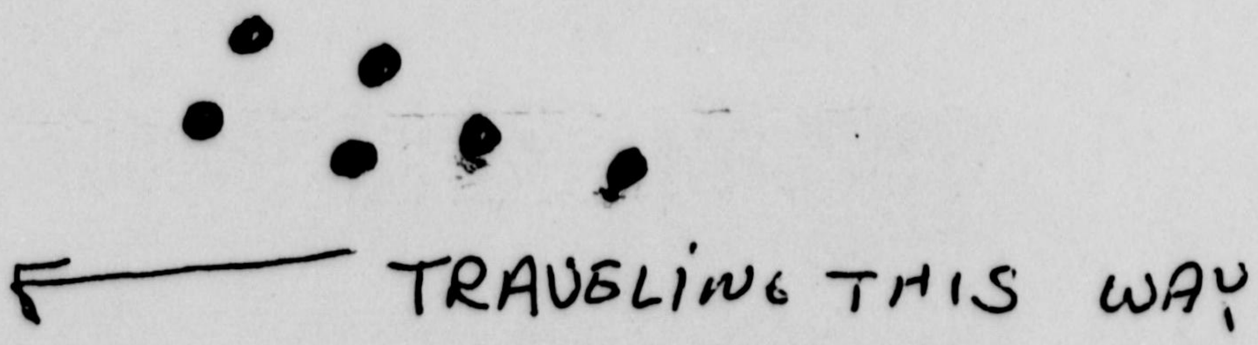

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

They were stationary most of the time and then went East.

29. IF there was MORE THAN ONE object, then how many were there? six
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

UFO form continued

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? *(Circle One)* (Yes) No

31.1 IF you answered YES, did they see the object too? *(Circle One)* (Yes) No

31.2 Please list their names and addresses:

[redacted]
Schnectady! Newyork

32. Please give the following information about yourself:

NAME [redacted]
Last Name First Name Middle Name

ADDRE[redacted] o. Syracuse New York
Street City Zone State

TELEPHONE NUMBER [redacted] AGE 17 SEX MALE

Indicate any additional information about yourself, including any special experience, which might be pertinent.

33. When and to whom did you report that you had seen the object?

_____ Day _____ Month _____ Year

I didnt report it

Official U.S. Air Force

34. Date you completed this questionnaire: 6 (Day) Sept (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

There were six of them. They were moving when I first saw them and then they were all stationey. They blinked on and off for a while and then left.

OFFICIAL U.S. AIR

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

4 (Day) Sept. (Month) '67 (Year)

2. Time of day: 8 (Hours) :15 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): a. (Eastern)
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. (Daylight Saving)
b. Standard

4. Where were you when you saw the object?

Pt. Carragnal (Nearest Postal Address) _____ (City or Town) Vaudreuil (2 miles from Como) (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) 1 (Minutes) 40 (Seconds)

a. Certain
b. (Fairly certain)
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? approx. guess

5.2 Was object in sight continuously? (Yes) No ____

6. What was the condition of the sky?

DAY		NIGHT
a. Bright	Clear Dusk	a. Bright
b. Cloudy		b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FTD FORM OCT 62 164 This form supersedes FTD 164, jul 61, which is obsolete.

FORCE UFO FORM

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
b. A few
c. Many
d. Don't remember

Just below Merak in Ursa Major.

8.2 MOON *(Circle One)*:

a. Bright moonlight
b. Dull moonlight
c. No moonlight—pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

a. Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

a. Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
d. As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

a. Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

12. The edges of the object were:

(Circle One):

a. Fuzzy or blurred
b. Like a bright star
c. Sharply outlined
d. Don't remember
e. Other The object was very far away, appeared as a very faint moving point of hazy light.

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	No	Don't know
b. Suddenly speed up and rush away at any time?	Yes	No	Don't know
c. Break up into parts or explode?	Yes	No	Don't know
d. Give off smoke?	Yes	No	Don't know
e. Change brightness?	Yes	No	Don't know
f. Change shape?	Yes	No	Don't know
g. Flash or flicker?	Yes	No	Don't know
h. Disappear and reappear?	Yes	No	Don't know

64

Official U.S. Air Force

14. Did the object disappear while you were watching it? If so, how?

Yes hidden from view by trees after a while

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): Yes No Don't know. IF you answered YES, then tell what it moved behind: trees

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes No Don't know. IF you answered YES, then tell what in front of:

17. Tell in a few words the following things about the object:

a. Sound No sound

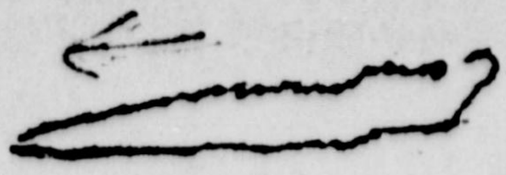

b. Color white vapor

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

all of it.

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

facing north, it was travelling from east to west.

Very short condensation trail

DEPARTMENT OF THE AIR FORCE
HEADQUARTERS 911TH MILITARY AIRLIFT GROUP (RESERVE) (CAC)
GREATER PITTSBURGH AIRPORT, PITTSBURGH, PENNSYLVANIA 15231

REPLY TO ATTN OF: GIO

13 SEP 1967

SUBJECT: UFO Sighting, 5, 7, 9, 10 Sept 1967

TO: Project Blue Book (TDEW/UFO)
Wright-Patterson AFB, Ohio 45433

Reference our telecon 12 Sep 1967 concerning sightings in Sharon and Clearfield, Pa. areas.

Received call 0830 hours, 11 Sep 67 from Mr. [redacted], Johnstown Tribune concerning sightings between Johnstown and Clearfield. He also mentioned sighting in Sharon, Pa. However, no reports to date have been received from the Sharon area.

Sightings observed between Johnstown and Clearfield 2140 hours, 5 Sep 1967, 2200 hours, 9 Sep 1967 and 2130 hours, 10 Sep 67. Object was observed with high powered field glasses. Object was a bright light, color of Murcury street light. Speed was that of a small plane at an altitude of approximately 2,500 feet. Object was sighted for 15 minutes, traveling a distance of 3 or 4 miles. At times object was stationary. There was also the sound which seemed to be similar to that of a small plane. Object seemed to be suspended from a type of parachute which seemed to sway from side to side. Light eventually disintegrated and fell in pieces toward earth, burning out as the pieces fell.

Hot Air Balloon

I called the FAA at the terminal building here at the Airport. No such reports of sightings had been received by them. Nothing picked up on radar. Checked with the weather bureau in Pittsburgh. No such experiments being conducted in the area and especially not at that altitude. Also learned that the small plane with lights on the under side which does advertising at times in the area was not flying those evenings. Called Army radar sight at Oakdale, nothing picked up on their radar.

Mr [redacted] of course requested that I call him informing him of my findings. This I'm sure you realize cannot be done in accordance with AFR 80-17. I've also checked with Mr. [redacted], IO at Youngstown which is within a few miles of Sharon, Pa. He had had no reports of sightings as of the date of my call.

I have reported another UFO a friend has sighted. I'll have a few hobbies astronomy, UFO's, stamps reading, science. I am going to join NASA or the USAF when I get out of school.

When and to whom did you report that you had seen the object?

6 (Day) SEPT. (Month) 67 (Year) myself [redacted]

Official U.S. Air Force UF(

34. Date you completed this questionnaire: 6 (Day) Sept. (Month) 67 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

~~on separate sheets of paper~~

It was starry, bright as a star, and it was moving, because its motion was accross a constillation. I woke up, and liking astronomy, I went outside, searched the sky and found the object.

Thank - You

ALAMOSA, COLORADO

September 9, 1967

As a result of newspaper accounts, several queries were received regarding the finding, in bad condition, of the body of "Snippy," the horse, on September 9.

This incident was not reported to the Air Force; therefore, the Air Force did not investigate. Because of the great number of sightings and the extremely small investigative staff, only those sightings reported to the Air Force can be investigated. The University of Colorado, currently conducting an independent investigation, did look into the matter, however. The following is their report of this case.

Dr. Frederick Ayer, a physicist; Dr. O. R. Adams, veterinarian from Colorado State University; and Mr. James Wadsworth, a psychologist, spent several days in the Alamosa area checking the circumstances which might have caused "Snippy" to be found in this condition. Results were as follows:

1. "Snippy" apparently died of natural causes. Dr. Adams found an infection in the horse's right flank sufficient to kill him within a matter of hours.
2. The horse's neck had apparently been cut (possibly as a mercy killing if he was suffering, or for some other reason). Birds, i.e., magpies, can rapidly strip skin and flesh from a dead animal once access through the hide is available.
3. Evidence in the area had deteriorated rapidly due to rain, sightseers tramping around, etc., and by the time the Colorado University investigators arrived, little could be accurately deduced. The so-called "exhaust marks" that formed a circle near the horse's body were probably a fungus growth sometimes found on alkali deposits and known as "black alkali." The

indentations in the ground appeared to be weathered hoofprints.

4. Other reportedly strange aspects of the condition of the carcass were described by Dr. Adams. "It is normal for all nervous tissues to be gone," he said, "from the brain and spinal cord after the length of time this animal had been dead. It is also normal for all visceral organs to be destroyed and absent since these are some of the first tissues to degenerate."

5. Geiger counter readings of radiation in the area, which newspaper reports alleged to be high, were in fact within normal background range.

6. Another dead horse found several miles from "Snippy" according to Dr. Adams, appeared to have also died from natural causes, possibly encephalitis.

In summary, the most important conclusion the investigators reached was that no UFO sightings in the area could be linked to "Snippy's" death. Such allegations were purely of a speculative nature.

OFFICIAL U.S. AIR

NO CASE INFO ONLY

U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will *not* be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

1. When did you see the object?

10 (Day) Sept (Month) 1967 (Year)

2. Time of day: 8 (Hours) 45 (Minutes)

(Circle One): A.M. or (P.M.)

3. Time Zone:

(Circle One): (a) Eastern
b. Central
c. Mountain
d. Pacific
e. Other _____

(Circle One): a. Daylight Saving
(b) Standard

4. Where were you when you saw the object?

2 (Nearest Postal Address) Toronto (City or Town) Ontario, Canada (State or County)

5. How long was object in sight? (Total Duration) _____ (Hours) _____ (Minutes) 12 (Seconds)

(a) Certain
b. Fairly certain
c. Not very sure
d. Just a guess

5.1 How was time in sight determined? It was determined by a mental re-enactment and timing it

5.2 Was object in sight continuously? Yes ~~✓~~ No ✓

6. What was the condition of the sky?

DAY	NIGHT
a. Bright	(a) Bright
b. Cloudy	b. Cloudy

7. IF you saw the object during DAYLIGHT, where was the SUN located as you looked at the object?

(Circle One): a. In front of you
b. In back of you
c. To your right
d. To your left
e. Overhead
f. Don't remember

FORCE UFO FORM

8. IF you saw the object at NIGHT, what did you notice concerning the STARS and MOON?

8.1 STARS *(Circle One)*:

a. None
(b.) A few
c. Many
d. Don't remember

8.2 MOON *(Circle One)*:

(a.) Bright moonlight First Quater
b. Dull moonlight
c. No moonlight—pitch dark
d. Don't remember

9. What were the weather conditions at the time you saw the object?

CLOUDS *(Circle One)*:

(a.) Clear sky
b. Hazy
c. Scattered clouds
d. Thick or heavy clouds

WEATHER *(Circle One)*:

(a.) Dry
b. Fog, mist, or light rain
c. Moderate or heavy rain
d. Snow
e. Don't remember

10. The object appeared: *(Circle One)*:

a. Solid
b. Transparent
c. Vapor
(d.) As a light
e. Don't remember

11. If it appeared as a light, was it brighter than the brightest stars? *(Circle One)*:

(a.) Brighter
b. Dimmer
c. About the same
d. Don't know

11.1 Compare brightness to some common object:

The flash bulb of a camera set at a distance in the dark.

12. The edges of the object were:

(Circle One): a. Fuzzy or blurred
(b.) Like a bright star
(c.) Sharply outlined
d. Don't remember
e. Other It was both b & c, that is, sharply outlined and bright like a star

13. Did the object:

(Circle One for each question)

a. Appear to stand still at any time?	Yes	(No)	Don't know
b. Suddenly speed up and rush away at any time?	Yes	(No)	Don't know
c. Break up into parts or explode?	(Yes)	No	Don't know
d. Give off smoke?	Yes	(No)	Don't know
e. Change brightness?	Yes	(No)	Don't know
f. Change shape?	(Yes)	No	Don't know
g. Flash or flicker?	Yes	(No)	Don't know
h. Disappear and reappear?	Yes	(No)	Don't know

4

Official U.S. Air Force

14. Did the object disappear while you were watching it? If so, how?

NO it did not disapper

15. Did the object move behind something at any time, particularly a cloud?

(Circle One): (Yes) No Don't know. IF you answered YES, then tell what it moved behind: a tree for about a secondor so and then appeared again

16. Did the object move in front of something at any time, particularly a cloud?

(Circle One): Yes (No) Don't know. IF you answered YES, then tell what in front of:

17. Tell in a few words the following things about the object:

a. Sound - NO SOUND

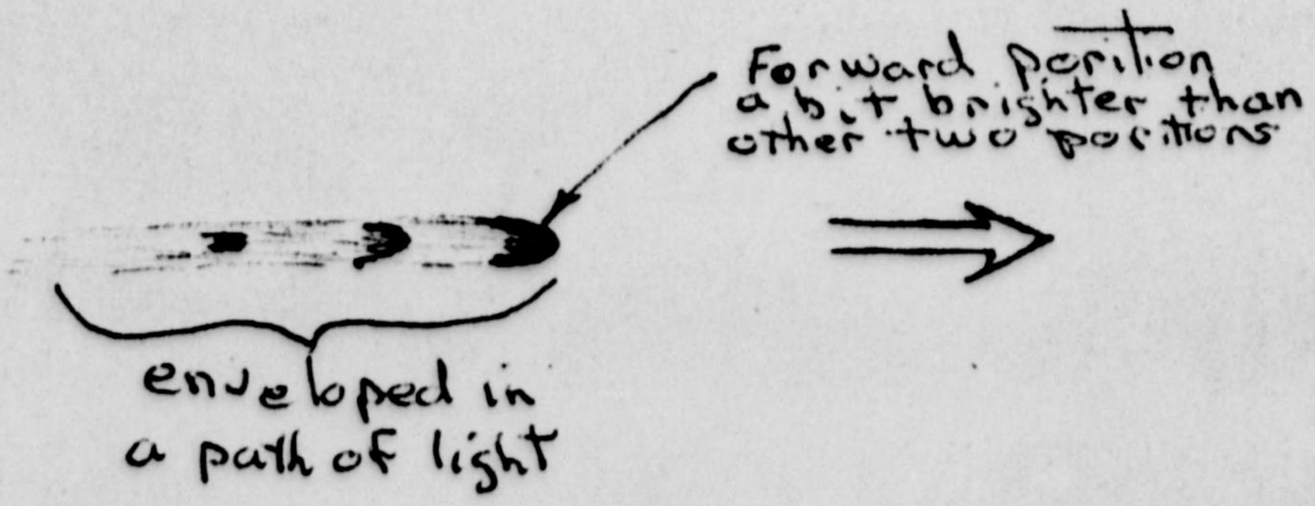

b. Color WHITE, LIKE A VERY BRIGHT STAR

18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?

I performed this experiment after the sighting and I determined that the head of the match stick would just about cover the object

19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving.

I HAVE SEEN PHOTO'S OF COMETS AND THIS OBJECT RESEMBLED THEM

UFO form continued

20. Do you think you can estimate the speed of the object?

(Circle One) Yes (No)

IF you answered YES, then what speed would you estimate?_____

21. Do you think you can estimate how far away from you the object was?

(Circle One) Yes (No)

IF you answered YES, then how far away would you say it was?_____

22. Where were you located when you saw the object?
(Circle One):

a. Inside a building
b. In a car
(c.) Outdoors
d. In an airplane (type)
e. At sea
f. Other_____

23. Were you *(Circle One)*

a. In the business section of a city?
(b.) In the residential section of a city?
c. In open countryside?
d. Near an airfield?
e. Flying over a city?
f. Flying over open country?
g. Other_____

24. IF you were MOVING IN AN AUTOMOBILE or other vehicle at the time, then complete the following questions:

24.1 What direction were you moving? *(Circle One)*

a. North c. East e. South g. West
b. Northeast d. Southeast f. Southwest h. Northwest

24.2 How fast were you moving?_____miles per hour.

24.3 Did you stop at any time while you were looking at the object?

(Circle One) Yes No

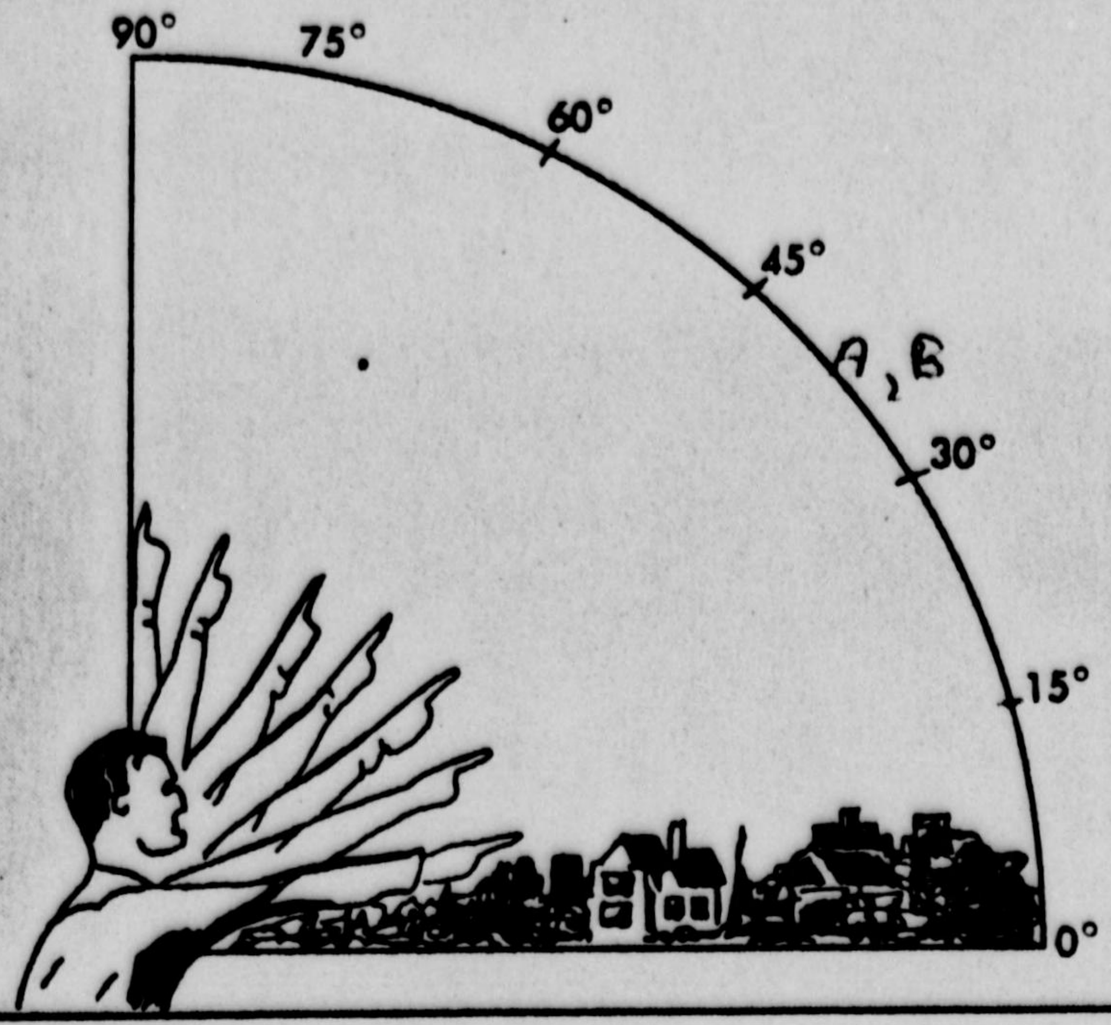

25. Did you observe the object through any of the following?

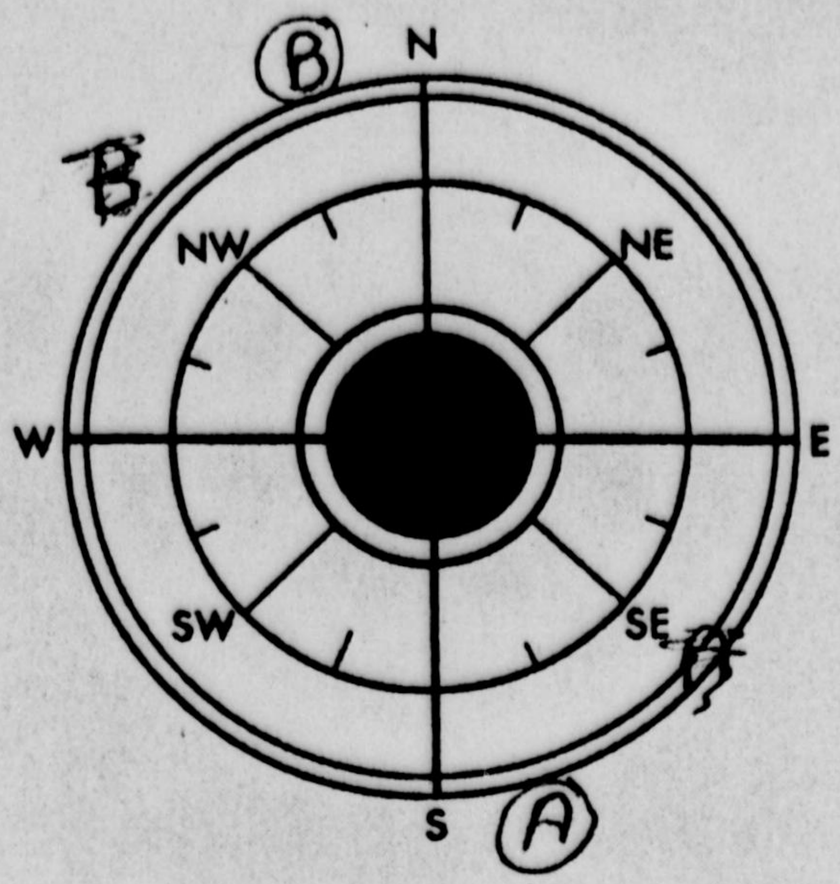

a. Eyeglasses	Yes	(No)	e. Binoculars	Yes	(No)
b. Sun glasses	Yes	(No)	f. Telescope	Yes	(No)
c. Windshield	Yes	(No)	g. Theodolite	Yes	(No)
d. Window glass	Yes	(No)	h. Other_____		

26. In order that you can give as clear a picture as possible of what you saw, describe in your own words a common object or objects which, when placed up in the sky, would give the same appearance as the object which you saw.

As I explained before, it looked like a comet

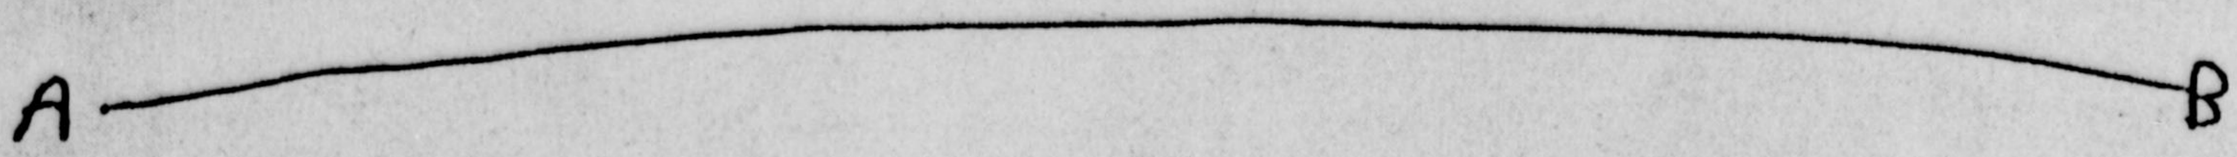

27. In the following sketch, imagine that you are at the point shown. Place an "A" on the curved line to show how high the object was above the horizon (skyline) when you *first* saw it. Place a "B" on the same curved line to show how high the object was above the horizon (skyline) when you *last* saw it. Place an "A" on the compass when you *first* saw it. Place a "B" on the compass when you *last* saw the object.

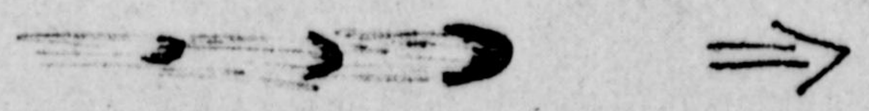

28. Draw a picture that will show the motion that the object or objects made. Place an "A" at the beginning of the path, a "B" at the end of the path, and show any changes in direction during the course.

NO CHANGE IN DIRECTION

29. IF there was MORE THAN ONE object, then how many were there? 1 then 2 then 3
Draw a picture of how they were arranged, and put an arrow to show the direction that they were traveling.

30. Have you ever seen this, or a similar object before. If so give date or dates and location.

NO

31. Was anyone else with you at the time you saw the object? *(Circle One)* Yes (No)

31.1 IF you answered YES, did they see the object too? *(Circle One)* Yes No

31.2 Please list their names and addresses:

32. Please give the following information about yourself:

NAME [redacted] V [redacted]
Last Name First Name Middle Name

ADDRESS [redacted] E. TORONTO 2 Ontario
Street City Zone ~~State~~ Province

TELEPHONE NUMBER [redacted] AGE 19 SEX MALE

Indicate any additional information about yourself, including any special experience, which might be pertinent.

I am an amateur astronomer and I have finished my high school education in my chosen field, aircraft. So I can say with some authority that it was not a meteorite (since it was travel in, relatively horizontaly) or an aircraft (since I heard no sound or saw no navigational lights)

33. When and to whom did you report that you had seen the object? To my parents

10 Sept 1967
Day Month Year

34. Date you completed this questionnaire: 10 (Day) Sept (Month) 1967 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

I was about to turn my telescope toward the moon in the southern skies when I saw the object. It then broke down into two smaller objects behind it. As the objects moved on the objects brilliance did not decrease nor did the spacing between the objects decrease or increase. I called to my father to come out into the backyard and see it but he and my mother were watching Tele-Vision so I have no witness to my sighting.

11 - 21 September 1967 Sightings
