a. Yes there were normal traffic indications on our radar scope. There was also some ECM due to an upcoming exercise noted in that period.

b. There was normal air traffic in the Waterloo area. No pilots reported anything unusual to the control tower in Waterloo. Traffic was not controlled by Waterloo but ^{by} Air Route Traffic Control Center (ARTCC) in Aurora, Illinois. Control tower personnel in Waterloo could not offer any explanation for this particular sighting. Personnel at ARTCC had no record of anything unusual reported to them on that date at that time.

I talked to Lt. Carr. about the sighting. He has not investigated it yet., however he is going to investigate. All information that he has is completely second hand. He has received through news media the following.

A little before 0400 1 a Mrs. [REDACTED] of Ossian woke up and saw a bright object skimming over the tree tops. She observed it for about 15 min.

Sometime befor 0400 1 a farmer from Farnsburch named [REDACTED] saw a red tinged object that hart his eyes when he looked at it. At about 04001 two police officers from Oelein (one was the assist. chief of police) saw a circular object that was about a mile away. The object emitted blue rays that hurt their eyes. The object was first headed SE but then turned E. They followed it for about 2 mile till it turned NE. They continued to follow another 2 mile till their car had a flat tire and they were forced to stop.

At or about the same time a motorist [REDACTED] on the road from Oelein to Strawberry saw a bright object that hart his eyes. It seemed to go too slowly to be an airplane . He followed it for a while but finally lost it.

A little later three girls at Prairie Du Chien reported seeing a UFO to the Nuns at the School (?) they attend.
