34. Date you completed this questionnaire: 12 (Day) March (Month) 1968 (Year)

35. Information which you feel pertinent and which is not adequately covered in the specific points of the questionnaire or a narrative explanation of your sighting.

The object moved towards the east. it flashed on and off all the time I saw it. then that fin appeared. I also noticed that when ever a spotlight (much lower than object) crossed below it, it dulled into a dull blue. after it passed back it resumed bright white.

I am not saying this was a flying saucer, because I live near an airforce base, but I've never seen a plane that didn't have red, white, and blue lights outlining the wings.
