1. Attached is weather data for the 25 April 1968 UFO sighting which we mailed to you on 29 April 1968. The report itself and the original letter that accompanied it are included.

2. This is the only additional data we can give you. We have neither the vehicles or TDY funds to allow personal investigations of reports outside our immediate area, nor do we have the funds needed for long distance toll calls to civilian observers. If any UFOs are reported from the Duluth Minnesota-Superior Wisconsin area, you need only ask, and we can investigate them as thoroughly as you wish.

FTD (TDETR)

1. On 26 April this office received a UFO report filled out by personnel on duty the preceding evening, with the information from a long-distance telephone call from the observer.

2. The report was incomplete, and more information was needed to justify submitting the report to FTD and the University of Colorado. We therefore did not send a teletype message, but mailed a copy of AF Form 117 to the observer, which he then filled out and returned to us.

3. A copy of this form is attached. The observer had attached a straight pin to one page to illustrate the size of the object. The Intelligence Officer removed the pin and made a hand-written note to that effect.

Dear Major Quintanilla,

This letter is not stating we saw a flying saucer or any other extra-terrestial vehicle, rather it is simply stating that, which to us, seemed out of place and unordinary.

On June 12, 1968 at about 9:15 P.M., my brother was out in front of our house. He said he spotted an object low above the trees, around the vicinity of 100 feet, a ½ block away. Within about 16 seconds the object darted up into the sky and maintained a fixed position for quite awhile. He then called me out to come and take a look at it. When I reached the street in front he pointed out a distant, flickering, coloured light in the southern sky. It seemed to sway from side to side from our vantage point. I got my telescope, which isn't very powerful, and was with out good results. Bro. explained the

objects erratic maneuvers. while I attempted to focus the object. It was useless because it moved occasionally in the sky. My brother said it was higher up then when it first shot up into the sky.

Well, this is our story. We're two high school students interested in space exploration. We would like your opinion and/or analysis of our sighting.

Thank-you for your time.

Sincerely,

Having taken a cycle ride I pulled into the driveway of friends yard and suddenly was aware of very bright lights appearing to my right and high. I'd one, then two, then several more, until about 7 or eight appeared, in a row above one another at an angle starting low right and progressing to high left.

It set me back for a moment but then wishing to have someone else see this phenomena I dashed ~~to~~ toward house of friend and shouted for them to come and to see some UFO's I then dashed back, to south edge of lawn to again see the phenomena and they were gone. Observation for next ½ hour produced nothing.

The following evening a similar observation was seen by several people in Ashland area, over the lake in same vicinity as my observation.

1. On 24 June we sent you a message with a report of a UFO sighting on 19 June by [redacted] at Ashland, Wisconsin. There were seven or eight star-size lights in a slanting,vertical line. He said he saw them at 0245 Zulu.

2. We received a message from 2AF informing us of flare drops scheduled for 19/0205 Zulu and 19/0300 Zulu. These were over an area of Lake Superior to the north and northeast of Ashland.

3. It is very likely that Mr [redacted]s UFOs were flares; they fit the description perfectly.

COMMENTS: THE OBSERVER was sent a form 117 but failed to return it as of 1 Aug 68. If the observer saw anything at all it is very doubtful that it could have been a fireball. No one else in the area saw anything unusual. At the time of the sighting the sky was completely overcast in the Dayton area.

While watching the UFO it flickered on and off Twice. It moved at a very fast speed, + was as high as some satellites I have seen, but I could not tell how high or how fast it was. It was bright, and its out line was clear. The object was in our sight for about six To eight Seconds.

Dear Sir:

Last evening we, Matt Hoeffel, Harris Hoeffel and I, saw what appeared to be a "flying saucer". I am writing in request of 3 UFO sighting forms to be filled out by us. I have a large amount of knowledge concerning UFO's and up to this date I had never seen one. But last night we three saw it and confirmed what it was. I can be more specific in the requested form. I would appreciate these forms quickly as possible so that the information can be forwared to you

Respectfully yours,

	III. [illegible] SUMMARY AND ANALYSIS
[illegible] OF OBSERVATION:	The observer reported to the Duty Officer that [illegible] observed a stationary object near the Audio-Visual Building on I-75 in Covington, Kentucky. The reported time was the lights on the side of the object spelled out the letters "UFO" but only three letters could be seen as the lights blurred.
CONCLUSION:	The description is consistent with an illuminated aerial advertising sign. However, since the observer did not complete and return the Form 117 that was sent to her, the sighting is being evaluated as Insufficient Data.

25. WHEN AND TO WHOM DID YOU REPORT THAT YOU HAD SIGHTED THIS PHENOMENON?

NAME 1LT RONALD STOECKER DAY 21 MONTH MAY YEAR 68

26. DATE YOU COMPLETED THIS QUESTIONNAIRE.

DAY 1 MONTH JUNE YEAR 68

27. INFORMATION WHICH YOU FEEL IS PERTINENT BUT WHICH IS NOT ADEQUATELY COVERED IN THIS QUESTIONNAIRE, ALTERNATIVELY PROVIDE A NARRATIVE EXPLANATION OF THE SIGHTING.

ON THE NIGHT SPECIFIED, I was at a local drive-in theater alone, when an object immediately to my right and at some distance caught my eye. Since I was near a major air base, I only glanced at it at first, but its movements during that short observation caught my attention. It seemed to be "bouncing" or bobbing about in midair. I left my car and stood outside, paying close attention by now, and the object continued its erratic path in a generally westerly direction. When I first spotted it, the object was along a direct line drawn between the theater and the city of Duluth. As I watched, the object, possessing its own light source, blinked completely out and came back on instantly. This happened less than a half-dozen times throughout the sighting, and occurred at random intervals (no sequence or pattern, etc.). I heard no noise such as a piston- or jet-powered plane or helicopter would make, and I personally know of no aircraft with the described flight characteristics. No other aircraft were nearby to make any noise during the sighting.
The sky was completely overcast, excluding any possibility of stars or moonlight, and cloud height (determined @ SAGE Weather Office) was about 5,500 ft.

(OVER)→

The object maintained a constant speed and altitude throughout, and remained ~~xxxx~~ in sight constantly, except for the previously mentioned blinking. ~~xxx~~ I attempted to call the tracking section at the SAGE facility nearby, but the phone in the theater concession was out of order. I did show the object to the cashier, who saw just what I have described. The object eventually flew out of sight toward the west. The entire sighting, from beginning to end, lasted around ten (10) minutes. I wear contact lenses, with sight correctible to 20-20 in both eyes. I was wearing them at the time of the sighting, and can obtain a prescription, if desired, from my optometrist in Charleston, S.C..

Dear [redacted]

This will reply to your letter of June 12, 1968, in which you described your sighting of an unidentified flying object (UFO) on June 4, 1968.

Without additional information, we cannot offer an explanation of what you observed. However, if you will complete the attached questionnaire and mail it in the inclosed envelope, our technical people at Wright-Patterson Air Force Base will be able to investigate further and make an evaluation.

Should you ever sight another UFO, please report it as soon as possible to the nearest Air Force base. Each base has a UFO investigator, who is in a better position to make an on-the-spot investigation, which usually results in a more accurate analysis.

In the meantime, we are sending you some literature that may help you identify your sighting. Thank you for reporting it to the Air Force.

Sincerely,

Dear Sirs,

On June 4, 1968 I went outside my house to look at the moon. It was quarter to nine then. Half an hour or 45 minutes later I was going in when I noticed a red light in the east. It was moving north and then turned right around and went south. By this time I had noticed that there were 4 lights, 2 on each side. One side turned green then ~~red~~ blinked a few times and turned red again. Then it turned and went north, then it turned again and went south. After about 5 seconds it turned and went west.

over

Then it stopped for about 3 to 4 seconds. Then it moved east and went lower until I could not see it because of the trees in my way. When the thing went in another direction the lights stayed in the same position. I got a look at it through my telescope. Something dark was between the lights. This was not a plane because planes cannot stop in the sky, if it was a plane the lights would change position when it turned. It was ~~definitely~~ not a meteor. It was too slow. It was not a balloon. Balloons don't go turning all over the sky like this did. ~~they~~ It definitely was not a planet because planets do not move around like that.

Thank You,

[redacted]

P.S. I have included a diagram of the path of the UFO and a diagram of it.

24 June 1968

The following report contains information accumulated in a four (4) day investigation of the reported sighting of an Unidentified Flying Object (UFO) in the Aberdeen, Idaho area. The report was telephoned in to Mtn. Home AFB, Idaho by a Mr. [redacted], Sterling, Route #1, Grandview, Idaho.

It should be stated that this report contains information furnished to the USAF by concerned individuals. The report does not intend to be conclusive in regard to the exact nature of the phenomenon but rather to clarify the reliability of the reported sighting by Mr. [redacted] and family of Grandview, Idaho.

The report is logged in the Wing Commande Post Blotter as of 0600 hrs., zulu time, 15 June 1968. An investigation team consisting of SSgt Theodore C. Ackley, AF 12457255, 67th SPS, and Sgt William A. Scott, AF 12706981, 67th SPS was dispatched to the scene of the alleged sighting.

A character check of the reporter of the incident, (Mr. [redacted] was deemed appropriate and all local law enforcement agencies were contacted. The listing below summarizes their comments concerning the subject:

Mr. Carl Aronson - acting Chief of Police, Aberdeen, Idaho: negative report.

Mr. Earl Allen - Chief of Police, American Falls, Idaho: negative report.

Mr. Rulon Neal - Power County Sheriff, American Falls, Idaho: negative report.

Mr. John Perkins - Chief of Police, Pocatello, Idaho: negative report.

Mr. Boyd L. Summers, deputy sheriff - Bingham County Sheriff's Office
Blackfoot, Idaho: negative report.

Mr. Ed Beck - Chief of Police, Shelley, Idaho: negative report.

The above mentioned law enforcement officials were also asked to furnish information as to the reported sightings of additional UFO's. Mr. Carl Arohson, acting Chief of Police, Aberdeen, Idaho stated that a recent sighting had in fact taken place about a month or so ago. Mr. Aronson provided the necessary information to contact the subject in the sighting. This sighting of a UFO was not reported to the USAF and is not to be confused with that of Mr. [redacted] subject of this report. Details of the sighting furnished to the USAF investigators were made by Mr. and Mrs. [redacted], Aberdeen, Idaho. Details of the sighting are contained on AF Form 117.

Mr. Ed Beck, chief of police, Shelley, Idaho also related that several individuals in and around the Shelley Idaho area observed an unexplainable phenomenom late in the fall of 1967. Again this sighting was not reported to the USAF or any other interested personnel at that time. Also, this sighting should not be confused with the [redacted] sighting reported to the USAF. The following names were furnished to the investigators by chief Ed Beck, Shelley, Idaho:

Mrs. [redacted] and daughter of Shelley, Idaho.

Miss [redacted] of Shelley, Idaho.

Mr. [redacted] and [redacted] of Shelley, Idaho.

It was stated that several children in the Shelley, Idaho area also

observed the phenomenom on the same date but at different locations. These individuals were not interviewed at that time nor were they interviewed by the investigators. It was not indicated that the sighting in the Shelley, Idaho area had any connection with the Simonson sighting reported to the USAF on 15 June 1968.

Chief Beck also stated that a Mr. [redacted] of Idaho Falls, Idaho has several documents in his possession provided to him by several people who had observed phenomenom in the area. However, Mr. [redacted] has not observed any UFO's himself. The information of the Shelley sightings was not investigated at this time and is only used for the purpose of stating that several reliable and prominent citizens in the area have observed unexplainable phenomenom of the type that Mr. [redacted] reported to the USAF on 15 June 1968.

All of the mentioned law enforcement agencies gave negative reports in regards to the sighting of UFO's in their respective areas, except those two (2) agencies mentioned earlier.

COMMENTS BY THE INVESTIGATORS CONCERNING THE WITNESS'S IN THE GRANDVIEW SIGHTING. ([redacted] and family also [redacted] juvenile witness to the Simonson sighting).

Mr. [redacted] is a farmer living in a rural farming community approximately ten (10) miles north of Aberdeen, Idaho. From all observable characteristics of [redacted], his wife [redacted] their five (5) children and relatives, they appear to be normal, well-adjusted, reliable people. They were intelligent and rational in their conversation with the investigators. At no time was it indicated to the investigators that the family indulged in intoxicants of any kind. For

further information concerning Mr. [redacted], employee of Mr. [redacted] and juvenile witness to the incident refer to AF Form 117 in which Mr. [redacted]s testimony was verbally given to SSgt Ackley, investigator, and then was recorded on the proper form. Mr. [redacted] stated that the last time he saw the phenomenom was at approximately 0130 hrs., 15 June 1968 and that it disappeared in the direction of Atomic City, Idaho. At Atomic City the Atomic Energy Commission (AEC) maintains the National Reactor Testing Site near Arco, Idaho.

REPORT FROM THE NATIONAL REACTOR TESTING SITE, (AEC) near Arco, Idaho. First interview was with Sgt D.A. Walton, Patrol Sergeant, Atomic Energy Commission Security Patrol. Sgt Walton was on duty at the National Reactor Testing Site, (NRTS) between 1600hrs., 14 June 1968 to 0800hrs., 15 June 1968 at the Security Headquarters at the site. Conversation with Sgt Walton revealed that no UFO's or reports of UFO's were made at the NRTS that particular night.

A second interview was with Mr. [redacted] Meteorologist [redacted] of Air Resources and Field Research Office at the NRTS. He stated that no report of sightings of UFO's occurred that particular night. His assistant, Mr. [redacted], also confirmed Mr. [redacted] statement. However the investigators and the meteorologists discussed at length the possibility of phenomenom being weather balloons. Mr. [redacted] stated that no weather balloons had been sent aloft in approximately five (5) or six (6) weeks. Mr. [redacted] confirmed this. The balloons released by the site were described as

conical in shape. This closely matches the [redacted] sighting. The balloons operate on a density of air principle in which they can rise or descend rather rapidly to approximately 20,000 feet in altitude or descend to ground level at no fixed time rate but rather as the air inside the balloon heats up or as the air pressure of the particular area changes. Mr. [redacted] also stated that the AEC does not monitor the area with radar when there are no field operations in progress. At that time there were no field operations. Mr. [redacted] also stated that at the approximate time of the [redacted] sighting there was no visible light from the sun and that in order that the balloons could reflect sunlight making them seem self-luminous, they would have to be at an altitude of better then 80,000 feet. No balloons in operation at the site have that 80,000 foot apogee. It was also related that the Las Vegas site (AEC) does send weather balloons aloft daily, however, a check with the weather charts retained at the site for the CONUS revealed that at that particular night there could not have been a drift from the Las Vegas site up to the Idaho station due to non appropriate winds. A check with the high altitude wind drift also confirmed this observation. A brief description of the type of balloons utilized at the Idaho station is: Conical with a lengthy streamer attached to the lower extremity. One (1) cubic meter in size.

REMARKS BY THE INVESTIGATORS: Mr. [redacted] stated that while observing the phenomenom through a 40X telescope (description on AF Form 117) he noticed that it would change direction and altitude and when it started to disappear it lost its self luminous capability. Mr. [redacted] stated that it appeared to be the size of a quarter at an unknown distance through the telescope.

The AEC release only one (1) cubic meter balloons. This would not seem to be the same object, however the phenomenom changed direction instanteously and this would seem to coincide with the weather balloons used. Again the AEC stated that no weather balloons were utilized in several weeks.

REPORT FROM THE U.S. WEATHER BUREAU AND THE POCATELLO MUNICIPAL AIRPORT at Pocatello Airport, Pocatello, Idaho.

Mr. Harold Jacobsen, U.S. Weather Bureau, gave the following weather information concerning the evening of the phenomenom (15 June 1968): The night was clear with 2/10th coverage from 2300 hrs., MST, 14 June 1968 to 0100 hrs., MST, 15 June 1968. Wind velocity in knots at surface was 200 degrees and at 6,000 feet, 10 knots. At 10,000 feet, 275 degrees at 13 knots. No further elevations were recorded. Visibility was generally in excess of 15 miles at all times. Temperature gradient was not available and there were no thunderstorms in the area at that time. At 2215 hrs., MST, (The approximate time when Simonson first noticed the phenomenom), a balloon was launched on 14 June 1968 to determine weather conditions in the upper atomosphere. Mr. Jacobsen further stated that there was nothing unusual in the weather that night. The moon conditions were halfway between full and the last quarter. The moon rose at 2348 hrs., MST, on 14 June 1968 and set at 1012 hrs., MST, 15 June 1968. Mr. Simonson stated that at the time he observed the phenomenom he did not observe any moon in the skies.

Mr. Donald Washington, FAA and chief of control tower operations and Mr. Jack Stoltz, Air Traffic Control Specialist stated that nothing unusual occurred on the evening of the phenomenom. A telephone contact was made

with Salt Lake area traffic control center which monitors all activity with radar. They reported nothing unusual at that time also. No log entries of UFO's were made. Mr. Stoltz stated that air traffic was unusually heavy around midnight 14 June 1968 but other then that nothing unusual was sighted. A command of the entire horizon in which the phenomenom was sighted is at the Pocatello Municipal Airport, however again nothing unusual was observed in that area other then normal airline traffic.

REMARKS BY THE INVESTIGATORS: The area north of the [redacted] residence is prarie land, generally flat, broken by low ridges and void of any heavy vegetation. This land is used for mostly grazing ranch and farm stock. The area is criss-crossed by passable dirt roads. A search, limited to travelling these roads was made of the area. Nothing unusual in regards to vegetation and animal life was observed.

FURTHER INFORMATION RELATING TO THE SIMONSON SIGHTING: An interview was accomplished with Mr. and Mrs. [redacted] of Aberdeen, Idaho. They stated that in April they also had observed an unexplainable phenomenom. An AF Form 117 was accomplished by Mr. [redacted] For further information regarding the incident reference should be made to this report. This report by Mr. [redacted] is the most recent with the exception of Mr. [redacted] sighting.

MEMO FOR THE RECORD 21 June 1968

Subj: UFO Observation, 19 June 1968

Sgt. Jones called FAA at Wright Patterson AFB, and spoke with Mr. [redacted] to see if they had any in-bound or out-bound aircraft traffic for the evening of 19 June 1968 at 0700Z (0300L). He stated he would have to check their records and give me a call back.

At 1310 Mr[redacted] called and gave me the following aircraft that came in on the evening of 19 June 1968.

A B-52 that was practicing landing and take-off runs. Mr.[redacted] stated each circle takes about 10-15 minutes. He stated these practice runs were at: 0617Z, 0629Z, 0640Z, 0657Z. He further stated there was an in-bound Log-Air (AW-650) at 0645Z, and a DC-6 at 0640Z. The most probable of them was the in-bound of the B-52, at 0657Z, or if the observer's time was of approximately 15 minutes, it could have been the in-bound Log-Air (AW-650) at 0645Z.

Gentlemen:

We, the undersigned, on the night of June 20, 1968 at approximately 10:50 P.M. saw an Unidentified Flying Object of uncertain dimensions.

It was flying at about the same altitude as a commercial jetliner. However it could not have been a commercial plane due to some peculiar occurences. It would hover at intervals and then would make short spurts. When first observed, the object was proceeding east toward Fort Benjamin Harrison(U.S. Army). It hovered for a second and then proceeded to make a ninety degree left turn. It then flew out of sight. A check at the Weir Cook Weather Station showed that the visibility at that time was ten miles.

About two minutes after it disappeared, it reappeared coming from the southeast. It then flew to the northwest. It did this after we observed a commercial jetliner proceeding in the same general direction as the object. The object then disappeared, still heading to the northwest.

The object itself was completely silent. It had two flashing lights on it, one red, one white. There was another bright light that appeared on the top of the object as it banked into turns. The object appeared to be disk-shaped.

Following the sighting, we immediately notified the Military Police at Fort Benjamin Harrison. After making a full report to the Police, we were instructed to contact the Indianapolis Police Department and the Lawrence Police Department and report to them what we had observed.

Also we were advised by the Fort to contact you as soon as possible so you could begin further investigation.

Additional Pertinent Facts

1. There was no cloud cover
2. The ceiling was unlimited (from Weir Cook)
3. The lights on the object were too big to be on a commercial plane or a military craft.
4. The object disappeared for good about 10:58 P.M.

In this letter, we have tried to convey , to the best of our ability, the events

that happened on June 20.
